# CRAIGHEAD COUNTY PROFILE

## 2013

Wayne Miller, Professor  
Thai Nguyen, Intern

## Foreword & Acknowledgments

---

The University of Arkansas System Division of Agriculture Cooperative Extension Service is pleased to release these updated county profiles in hopes that these publications may serve as a useful tool for local officials, community leaders and economic development professionals.

This publication provides a comparison and overview of the demographic, economic and social trends in Arkansas counties. The information is presented in graphs and maps to allow the reader to quickly grasp current trends and conditions and gain insight into local and regional contexts. We encourage leaders and decision makers to use this publication in conjunction with their knowledge of the local geography, culture and political environment to make wise decisions for Arkansas' future.

The state agencies providing data and assistance for this publication include the State Data Center at the University of Arkansas at Little Rock, the Arkansas Department of Workforce Services, the Arkansas Department of Education, and the Arkansas Department of Health and Human Services. We thank the many individuals at these departments and organizations for their quick response to our requests for information.

Several departments and individuals of the University of Arkansas worked in collaboration to publish these county profiles. Wayne Miller, Community and Economic Development, coordinated the project. Thai Nguyen compiled the data and developed graphs and charts. Vuko Karov developed the maps and checked the data for accuracy. Chris Meux designed the cover, and Donna Rinke published the profiles on the Cooperative Extension website. Their many hours of effort are greatly appreciated.

We hope you find this publication useful as you plan for the future of your communities.

Tony E. Windham, Ph.D.  
Associate Vice President for Agriculture-Extension  
and Director, Cooperative Extension Service

**Population, 1960-2010**  
*Craighead County*

**Figure 1**

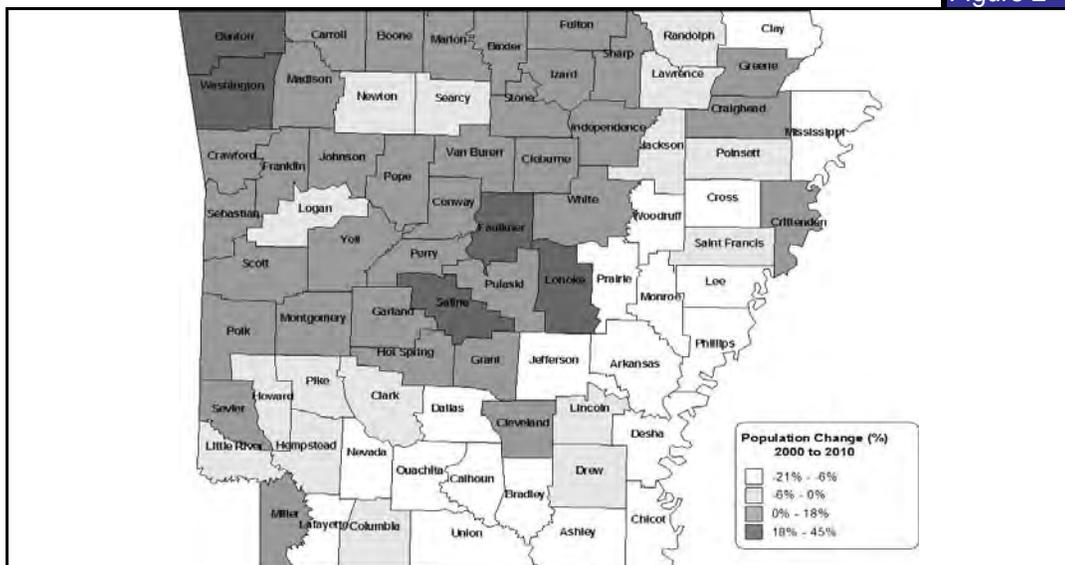

Source: 1960, 1970, 1980, 1990, 2000 and 2010 Census of Population, U.S. Bureau of Census

The population of Craighead County increased substantially from 47,303 in 1960 to 96,443 in 2010.

**Population Change, 2000 to 2010**  
*The Natural State*

**Figure 2**

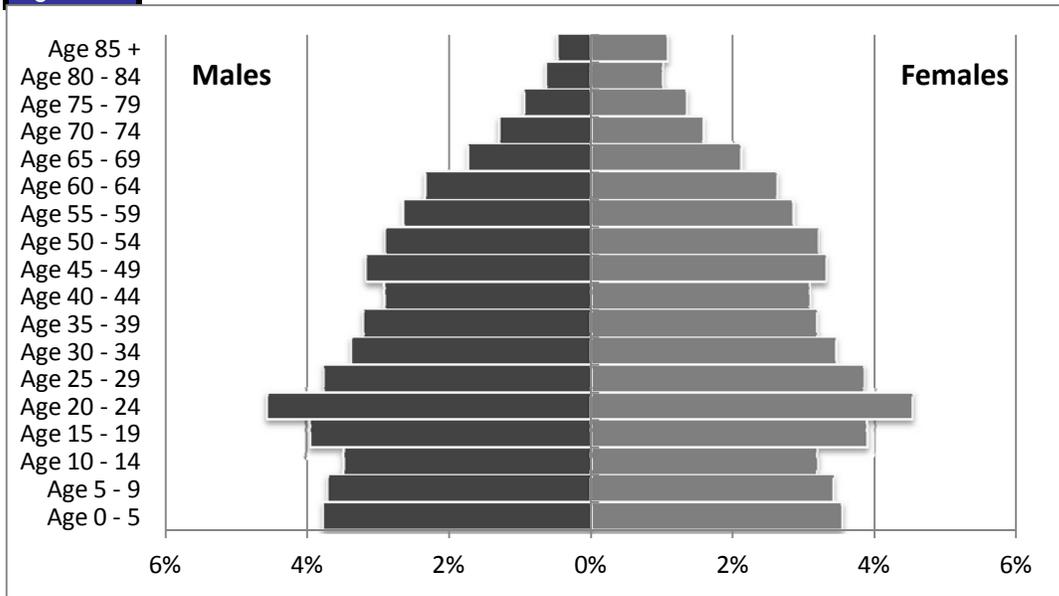

Source: July 2000 & July 2010 Population Estimates, U.S. Bureau of Census

Population grew most rapidly in Northwest & Central Arkansas counties and declined in some East and South Arkansas counties between 2000 and 2010.

# Population

## Percent of Total County Population by Age and Gender, 2010 Craighead County

Figure 3

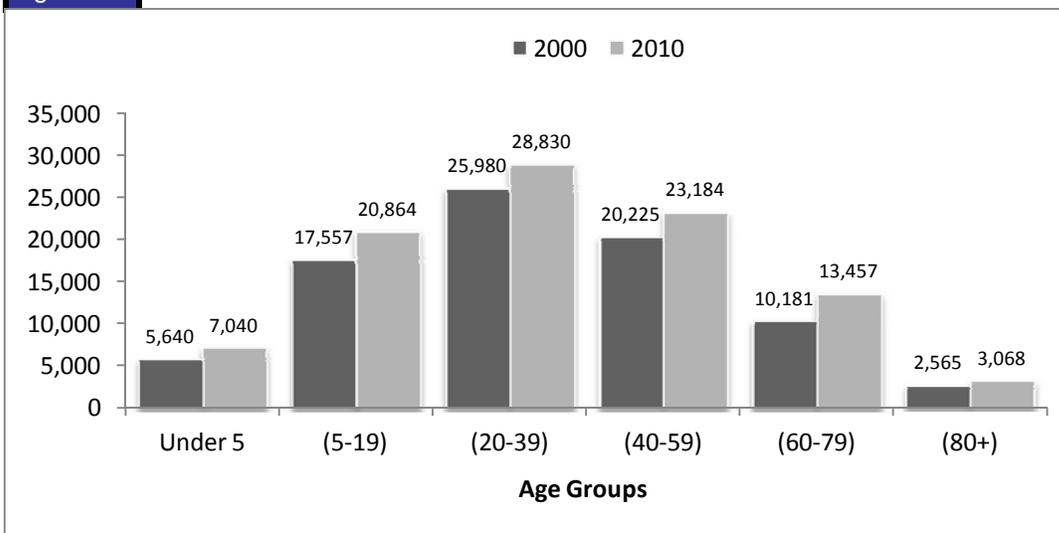

Source: U.S. Bureau of Census, 2010 Census Summary File 1

There were more people living in Craighead County in the age group 20 to 24 than in any other age groups in 2010.

## Population by Age, 2000 & 2010 Craighead County

Figure 4

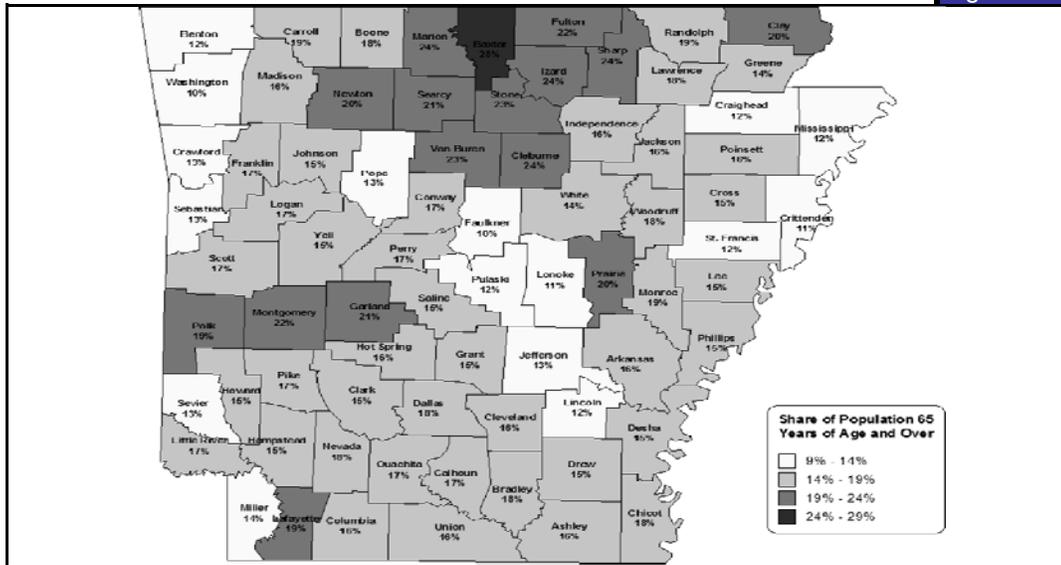

Source: 2000 & 2010 Census of Population, U.S. Bureau of Census

The population of all age groups in Craighead County increased from 2000 to 2010.

Population 65 and Older, 2010  
The Natural State

Figure 5

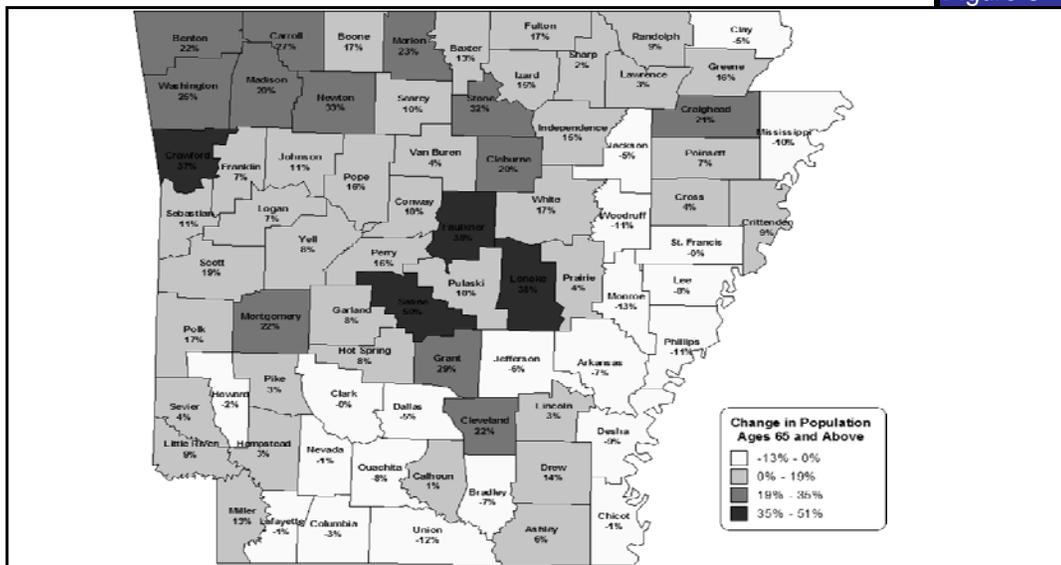

Source: July 2010 Census of Population, U.S. Bureau of Census

Counties in Northcentral Arkansas had the highest proportion of people aged 65 and older in 2010.

Population Change of People 65 & Older, 2000 to 2010  
The Natural State

Figure 6

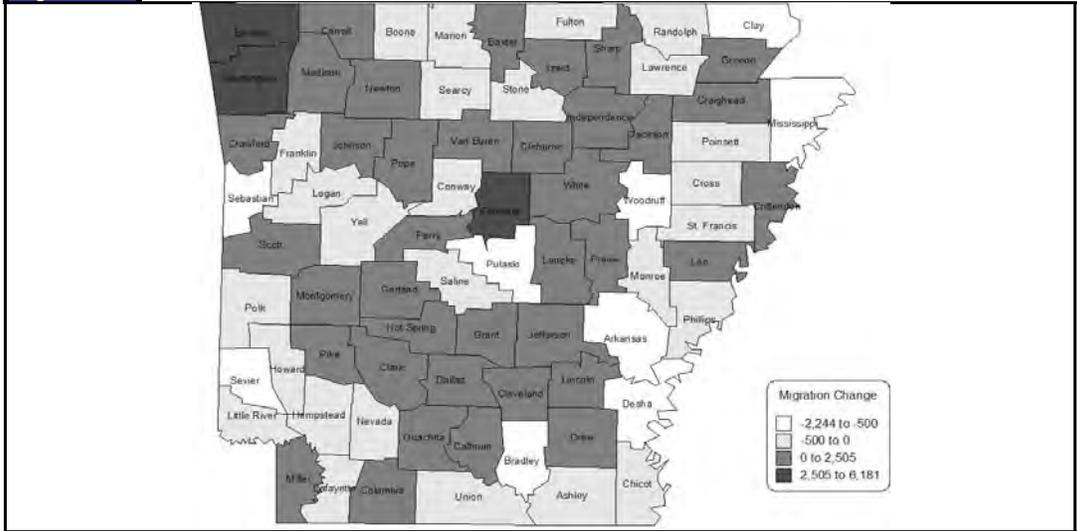

Source: 2000 & 2010 Census of Population, U.S. Bureau of Census

The elderly population as a proportion of the total population grew most rapidly in Central and Northwest Arkansas from 2000 to 2010.

**Net Domestic Migration of People, 2005-2009\***  
*The Natural State*

**Figure 7**

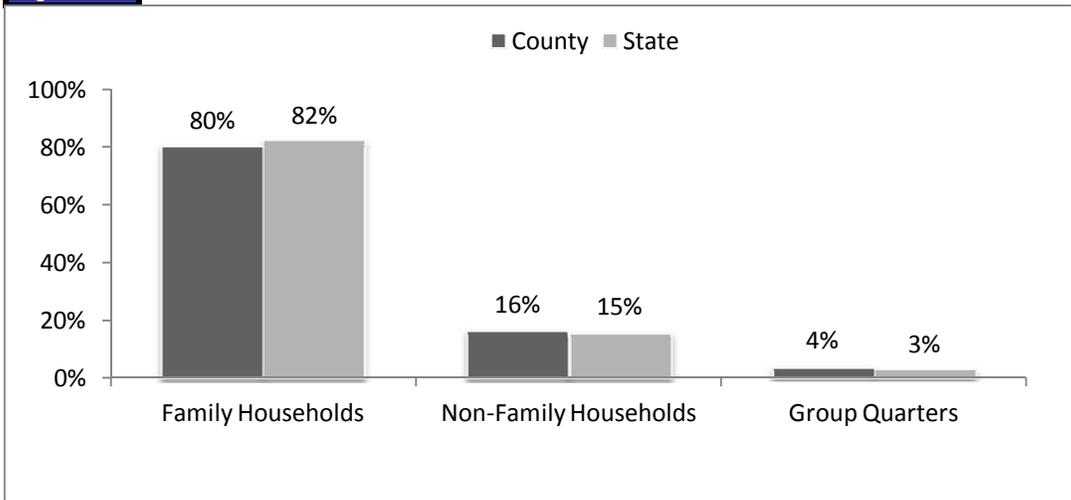

Source: U.S. Bureau of Census, American Community Survey

Central & Northwest Arkansas had the highest domestic in-migration of people between 2005 and 2009, while Arkansas, Bradley, Clay, Desha, Mississippi, Pulaski, Sebastian, Sevier and Woodruff counties had the largest domestic out-migration of people during this period.

**Population by Household Type, 2005-2009\***  
*Craighead County & State*

**Figure 8**

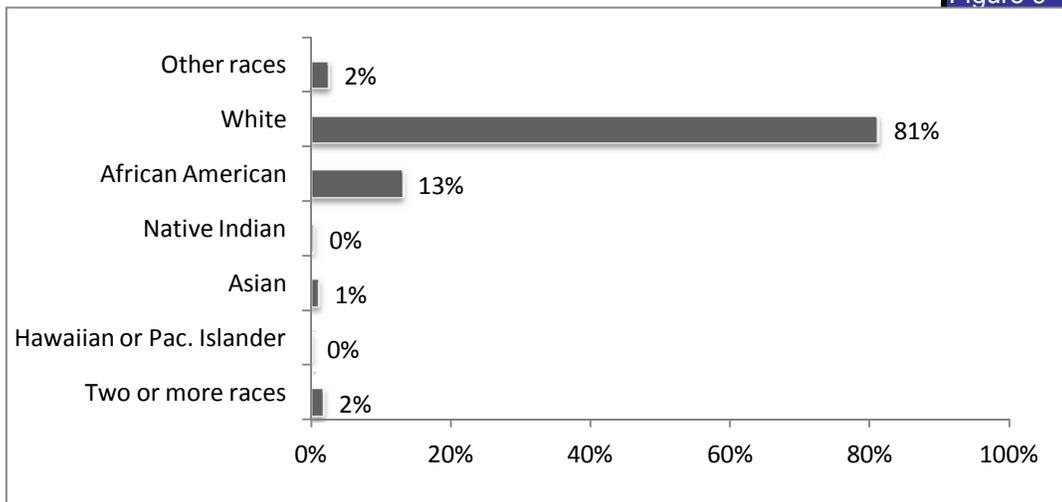

Source: U.S. Bureau of Census, American Community Survey

Most of the people (80%) in Craighead County lived in family households. The proportion of people living in family-households was about the same for Craighead County as it was for the state.

\*Note: The data were from the five-year sample (2005-2009) collected by the American Community Survey. Since this is sample data, the margin of error for counties with small populations may be large.

**Population by Race, 2010**  
*Craighead County*

**Figure 9**

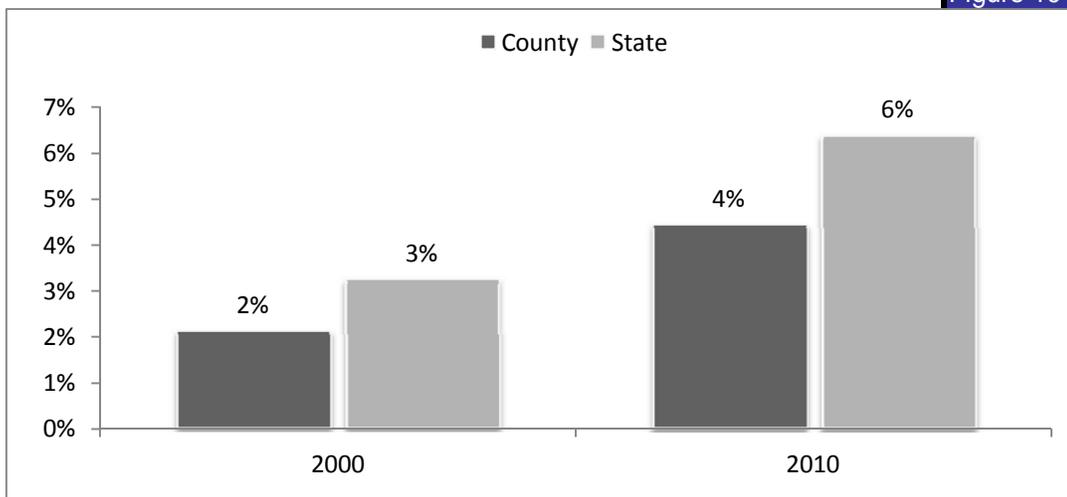

Source: 2010 Census of Population, U.S. Bureau of Census

Eighty-one percent of the people living in Craighead County were Caucasian. Thirteen percent were African American. Other minorities represented about six percent of the population.

**Population of Hispanic Origin, State and County for 2000 & 2010**  
*Craighead County & State*

**Figure 10**

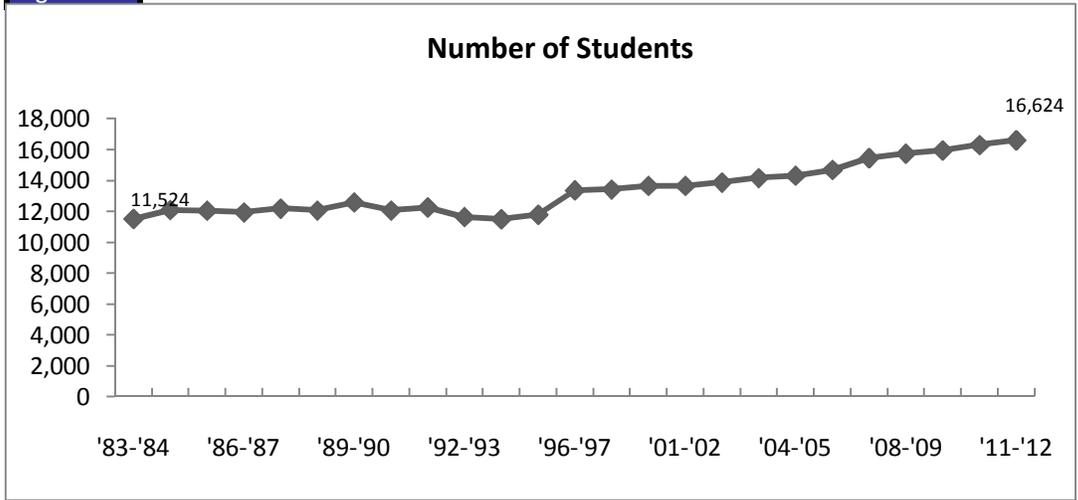

Source: 2000 & 2010 Census of Population, U.S. Bureau of Census

The proportion of Hispanic people living in Craighead County increased from two percent in 2000 to four percent in 2010. The Hispanic population may be of any race: white, black or any other combination of races.

**Public School Enrollment, 1983-1984 to 2011-2012**  
*Craighead County*

**Figure 11**

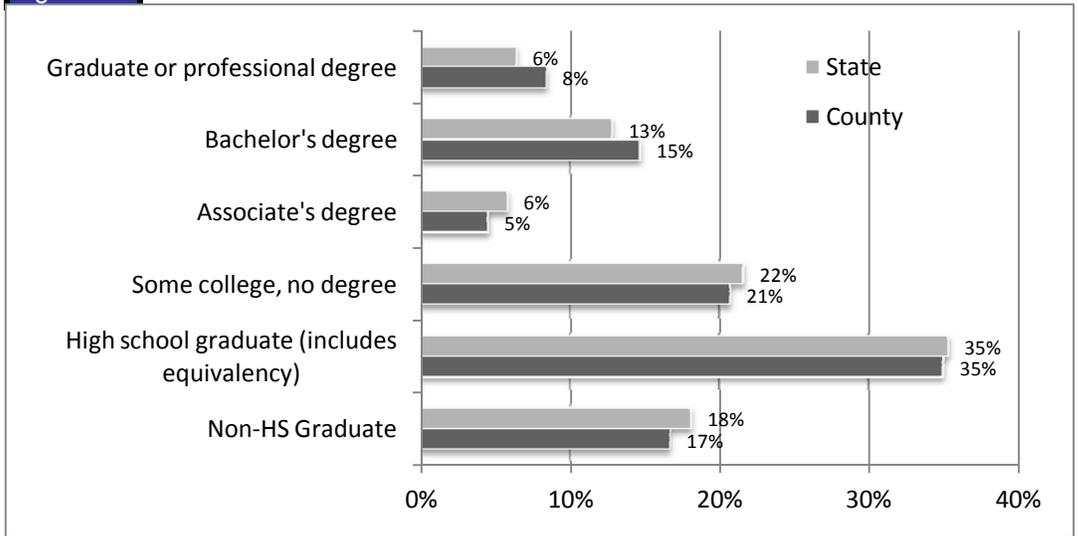

Source: Arkansas Department of Education (<http://adedata.arkansas.gov/statewide/Counties/Enrollment.aspx>)

Public school enrollment in Craighead County increased from 11,524 students in 1983-1984 to 16,624 students in 2011-2012.

**Educational Attainment, 2005-2009\***  
*Craighead County & State*

**Figure 12**

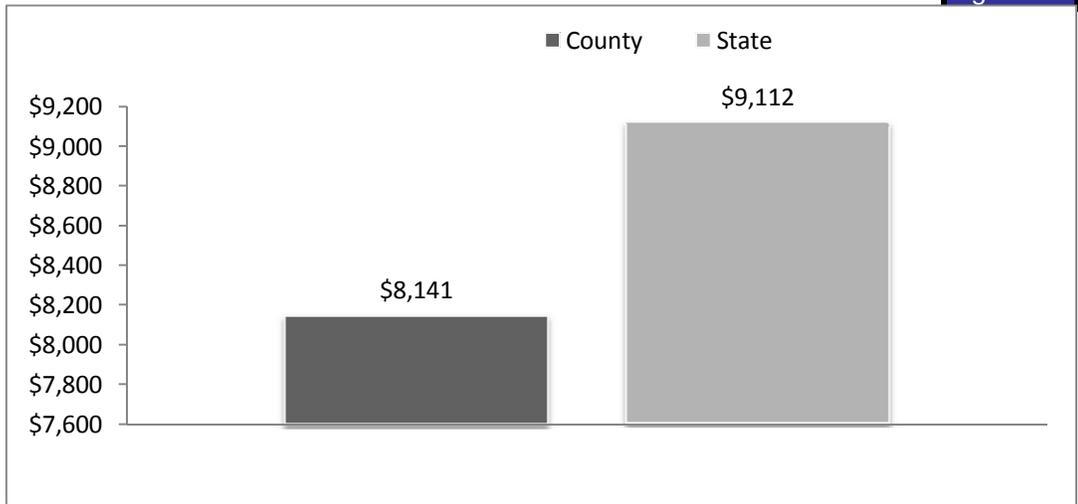

Source: U.S. Bureau of Census, American Community Survey

Craighead County had a larger percentage of people who had bachelors and professional degrees as compared to the State average in the five-year period 2005-2009.

\*Note: The data were from the five-year sample (2005-2009) collected by the American Community Survey. Since this is sample data, the margin of error for counties with small populations may be large.

**Education Expenditure Per Child, County & State 2011-2012**  
*Craighead County*

**Figure 13**

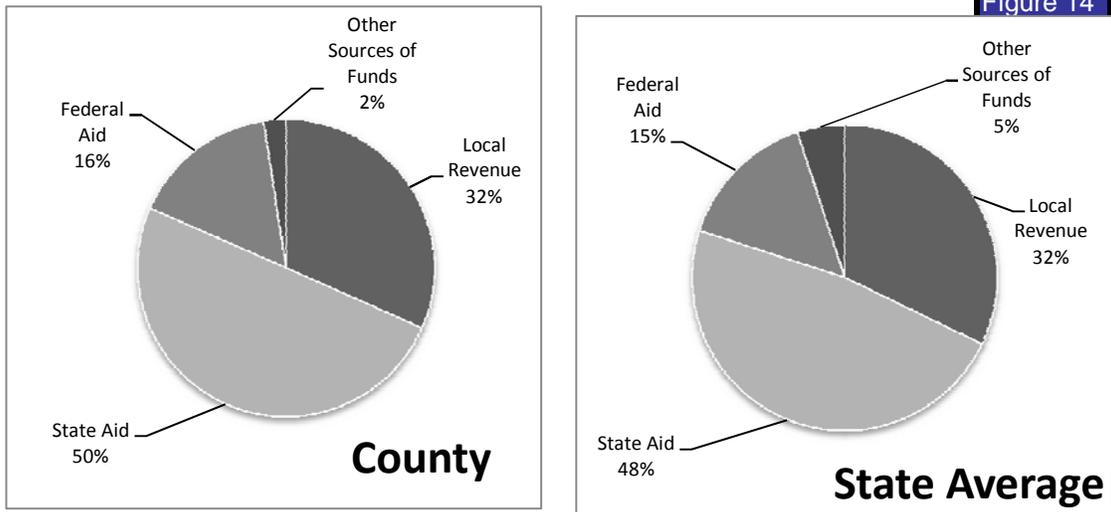

Source: Arkansas Public School Computer Network ([www.apscn.org/reports/hld/asr/asr.htm](http://www.apscn.org/reports/hld/asr/asr.htm)), Arkansas Department of Education

Schools in Craighead County spent \$8,141 per child in the 2011-2012 school year as compared to an average expenditure of \$9,112 statewide.

**Education Revenue By Source, County & State 2009-2010**  
*Craighead County & State*

**Figure 14**

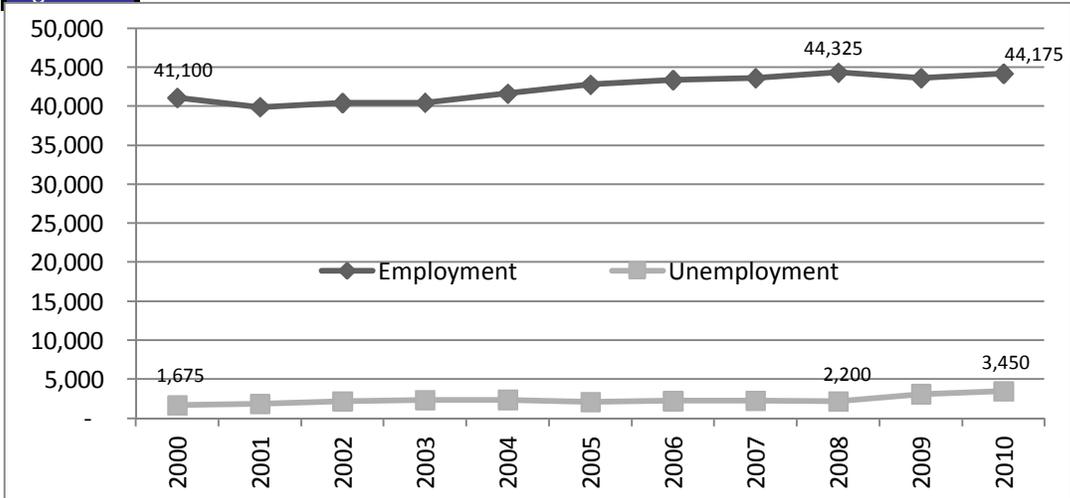

Source: Arkansas Public School Computer Network ([www.apscn.org/reports/hld/asr/asr.htm](http://www.apscn.org/reports/hld/asr/asr.htm)), Arkansas Department of Education

Craighead County schools raised slightly more of their revenue from state and federal aid than did the average of all Arkansas public schools in the 2009-2010 school year.

# Employment

## Labor Force, 2000 to 2010 Craighead County & State

Figure 15

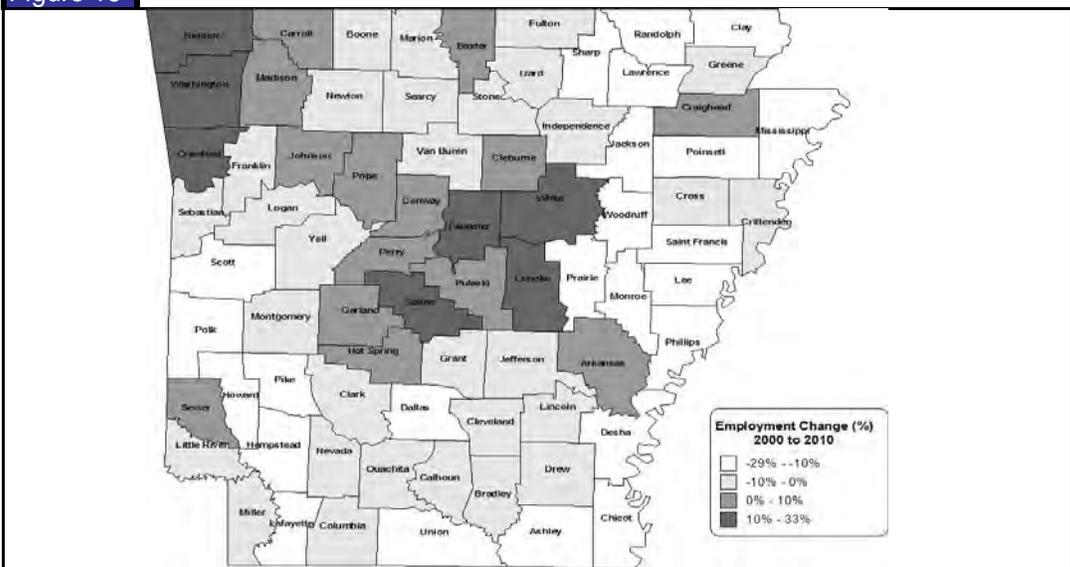

Source: Labor Market Information, Arkansas Employment Security Department

Craighead County employment decreased and unemployment increased since 2008.

## Change in Employment, 2000 to 2010 The Natural State

Figure 16

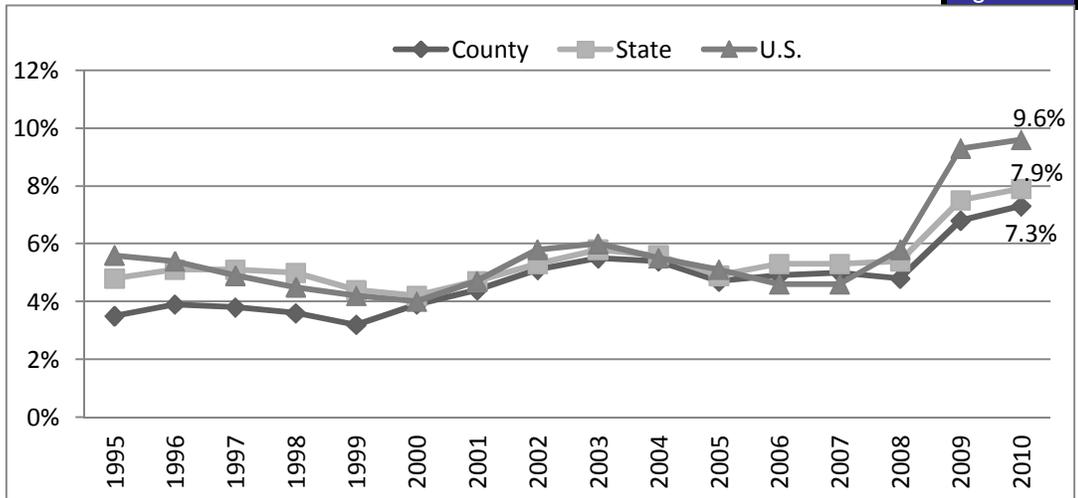

Source: Regional Economic Information System (REIS), Bureau of Economic Analysis

Employment growth was highest in Central & Northwest Arkansas between 2000 and 2010.

**Unemployment Rates, 1995 to 2010**  
*Craighead County, State & United States*

**Figure 17**

Source: Labor Market Information, Arkansas Employment Security Department

The unemployment rate in Craighead County increased significantly since 2007 and stayed slightly below the state average from 2008 to 2010.

**Unemployment Rates, 2010**  
*The Natural State*

**Figure 18**

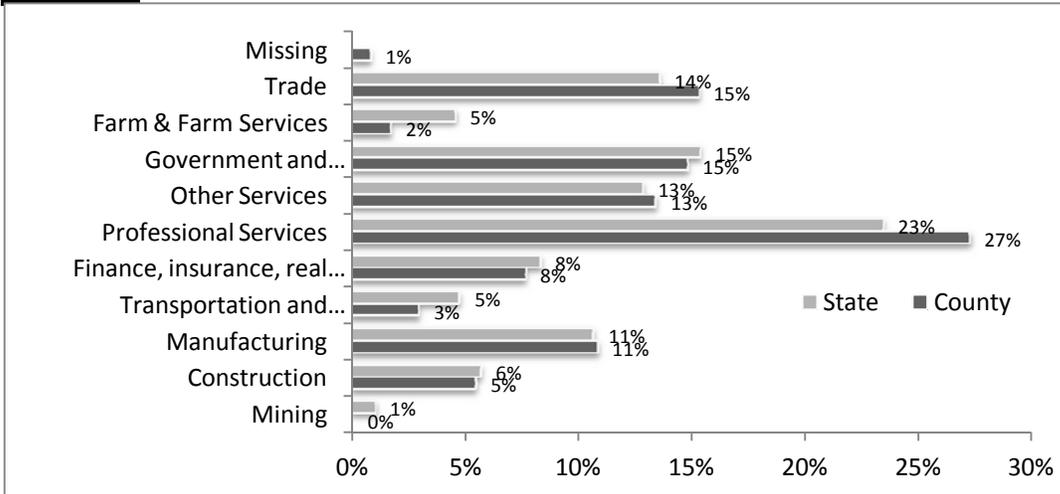

Source: Labor Market Information, Arkansas Employment Security Department

In general, Northwest, Central, and Western Arkansas counties had the lowest unemployment rates while Delta and Coastal Plain counties had the highest rates in 2010.

# Employment

## Jobs by Sector, 2010 Craighead County

Figure 19

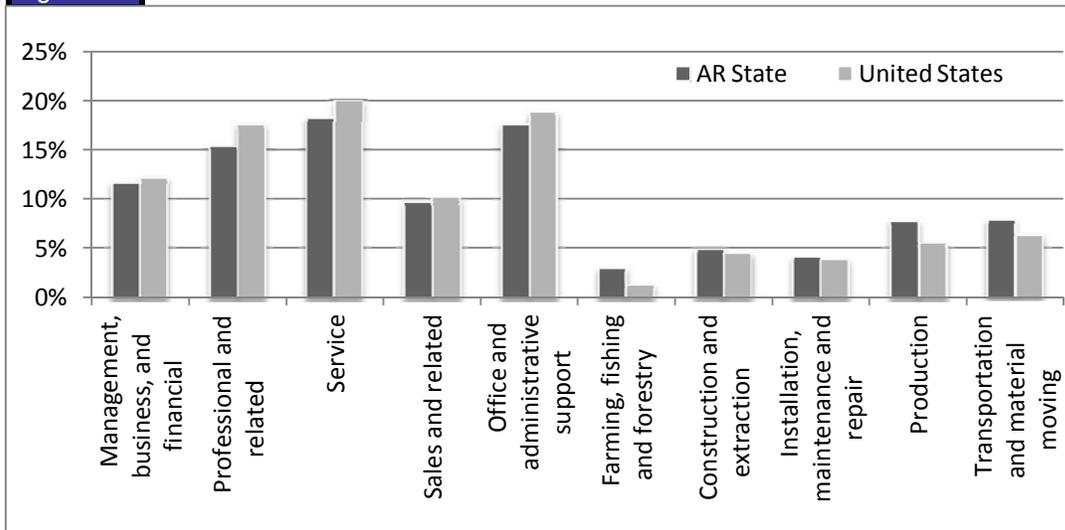

Source: Regional Economic Information System, Bureau of Economic Analysis (REIS)

A larger proportion of jobs in Craighead County were professional services (27%) as compared to the state average in 2010.

## Workforce by Occupation, 2010 The Natural State & the Nation

Figure 20

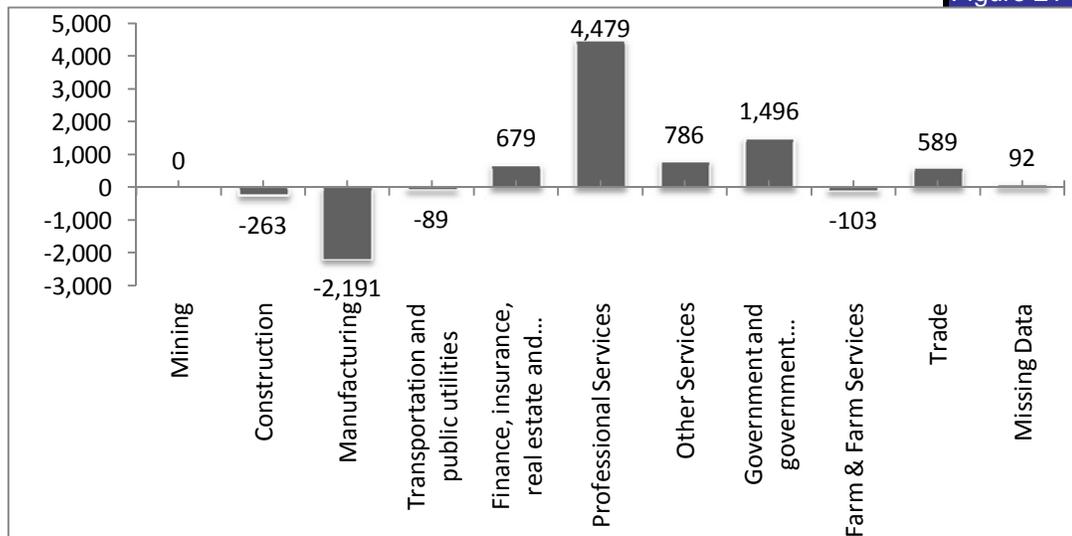

Source: Minnesota IMPLAN Group, Inc.

More people were employed in service occupations in Arkansas and in the United States than in any other occupation in 2010.

**Changes in Jobs by Sector, 2001 to 2010**  
*Craighead County*

**Figure 21**

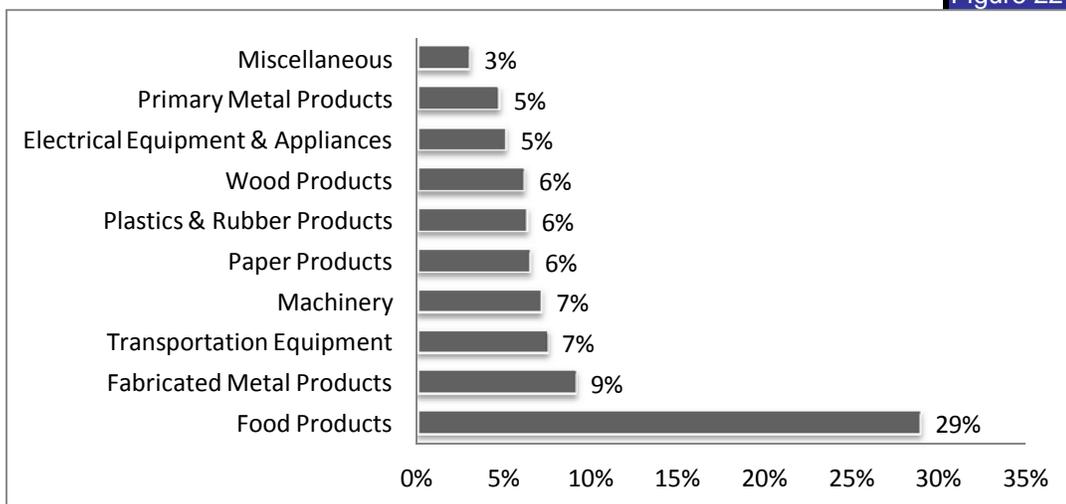

Source: Regional Economic Information System, Bureau of Economic Analysis (REIS)

The manufacturing sector lost more jobs, while the professional services sector gained more jobs between 2001 and 2010 than any other sectors in Craighead County. There were considerable missing data due to non-disclosure of confidential information.

**Jobs in Top 10 Manufacturing Sectors, 2010**  
*Arkansas State*

**Figure 22**

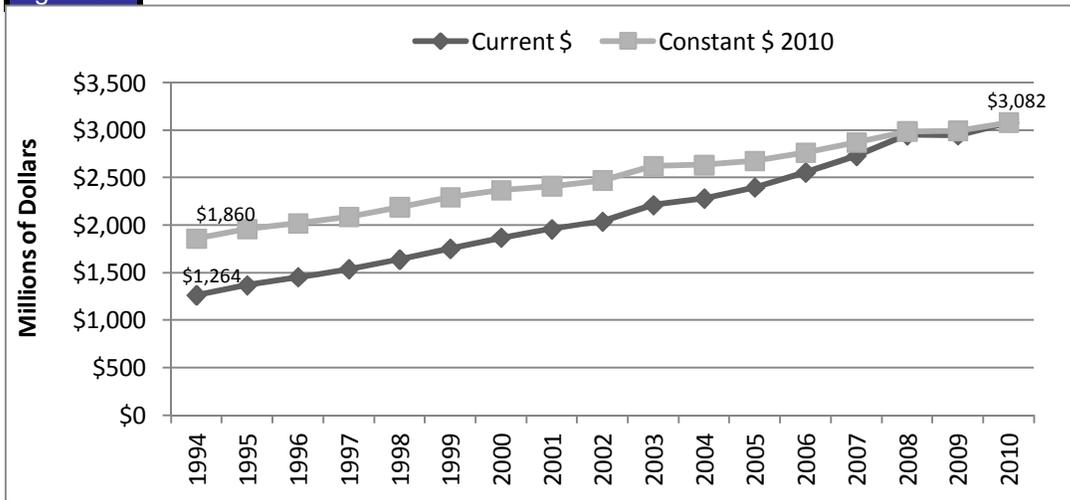

Source: Minnesota IMPLAN Group, Inc.

Nearly 30 percent of the jobs in the manufacturing sector in 2010 in Arkansas were in the food processing industries.

# Income

## Total Personal Income, 1994 to 2010 Craighead County

Figure 23

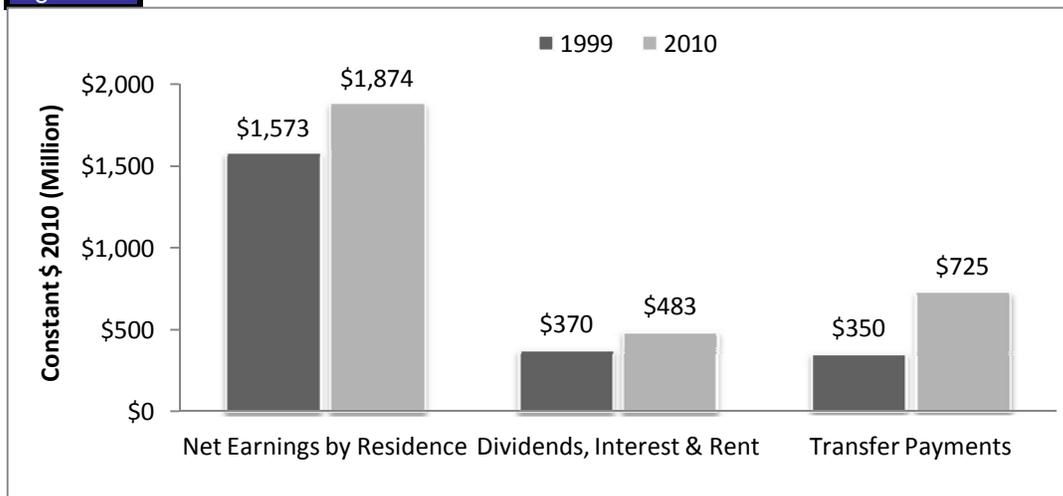

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis

Total personal income in Craighead County, in constant dollars, increased between 1994 and 2010.

## Income by Source, 1999 & 2010 Craighead County

Figure 24

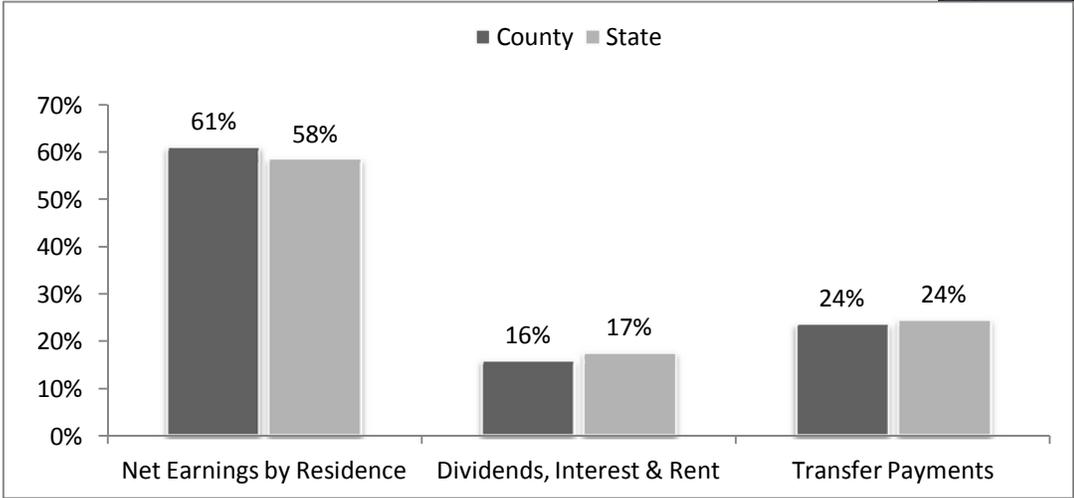

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis

Income from all three categories (net earnings; dividends, interest & rent; and transfer payments) increased between 1999 and 2010 in Craighead County.

**Income by Source, County and State 2010**  
*Craighead County & State*

**Figure 25**

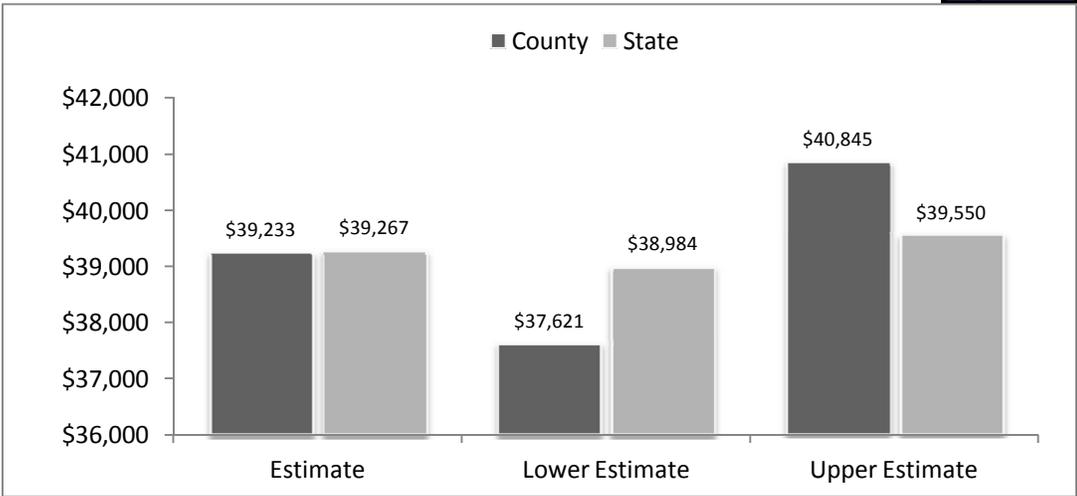

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis

The share of income from net earnings was slightly higher for residents of Craighead County as compared to the state average.

**Median Household Income, 2005-2009\***  
*Craighead County & State*

**Figure 26**

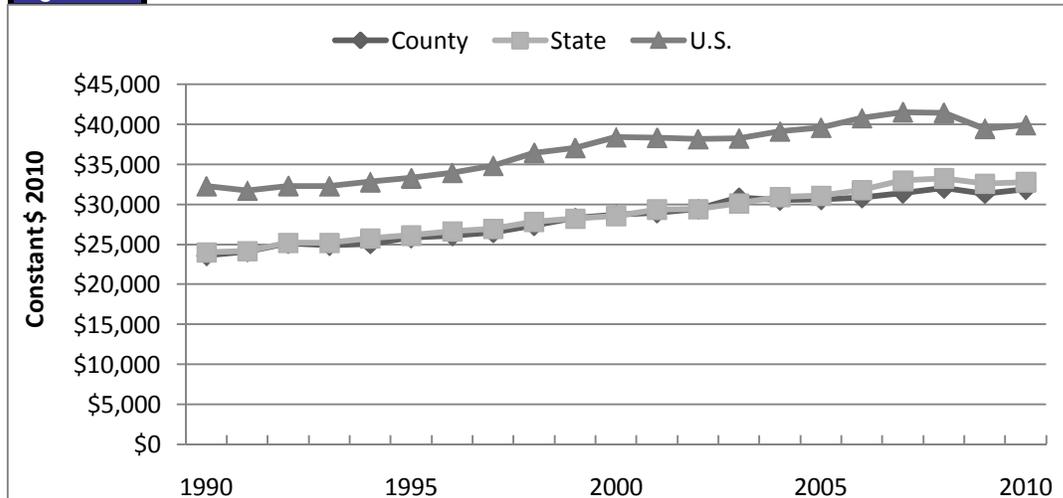

Source: U.S. Bureau of Census, American Community Survey

Median household income in 2005-2009 was about the same for Craighead County as it was for the state.

\*Note: The data were from the five-year sample (2005-2009) collected by the American Community Survey. Since this is sample data, the margin of error for counties with small populations may be large.

**Per Capita Income, 1990 to 2010**  
*Craighead County, State & United States*

Figure 27

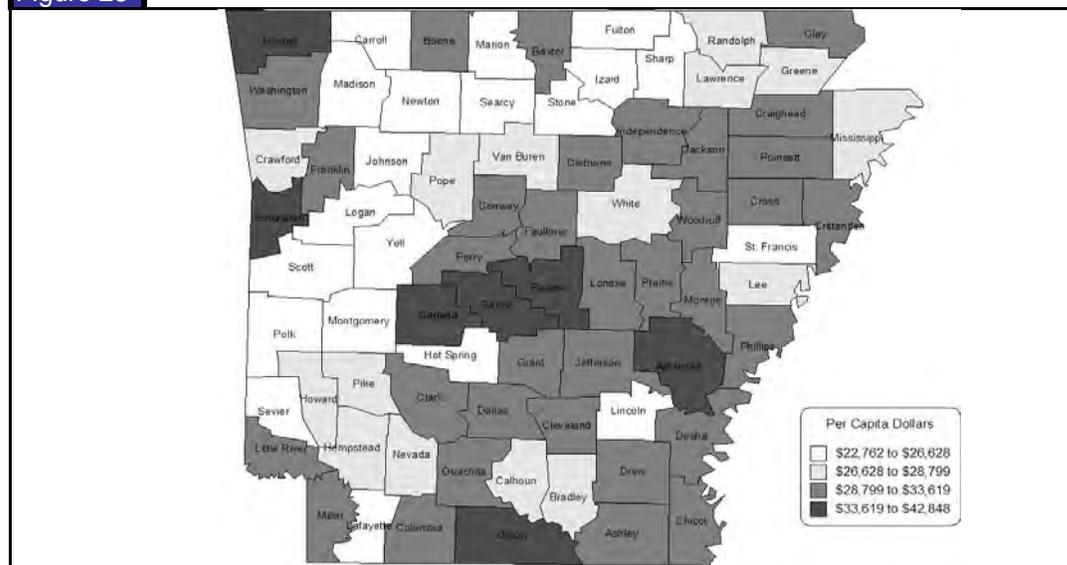

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis

Craighead County per capita income was closer to the state average from 1990 to 2010.

**Per Capita Income, 2010**  
*The Natural State*

Figure 28

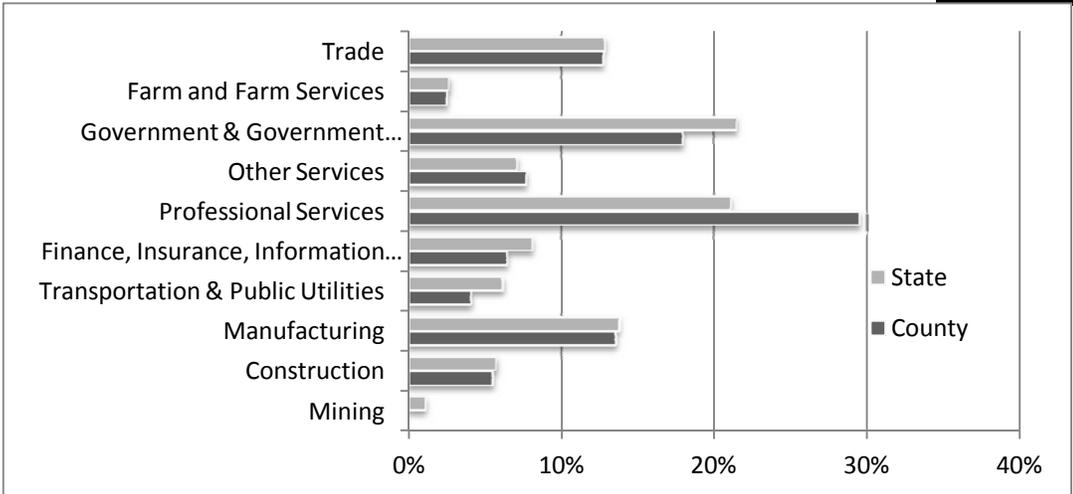

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis; 2010 Census of Population, U.S. Bureau of Census

Per capita incomes were highest in Central & Northwest Arkansas and lowest in some West & Northcentral counties in 2010.

**Earnings by Sector, 2010**  
*Craighead County*

**Figure 29**

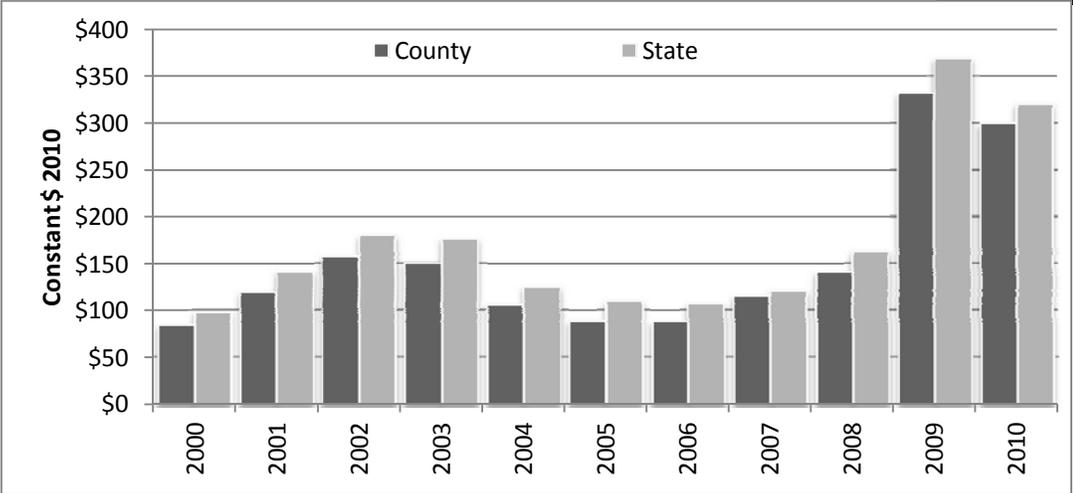

Source: Regional Economic Profiles, Bureau of Economic Analysis

The professional services sector accounted for about 30 percent of total earnings in Craighead County in 2010 and comprised a larger share of total earnings as compared to the state as a whole.

**Per Capita Unemployment Insurance Benefits, 2000 to 2010**  
*Craighead County & State*

**Figure 30**

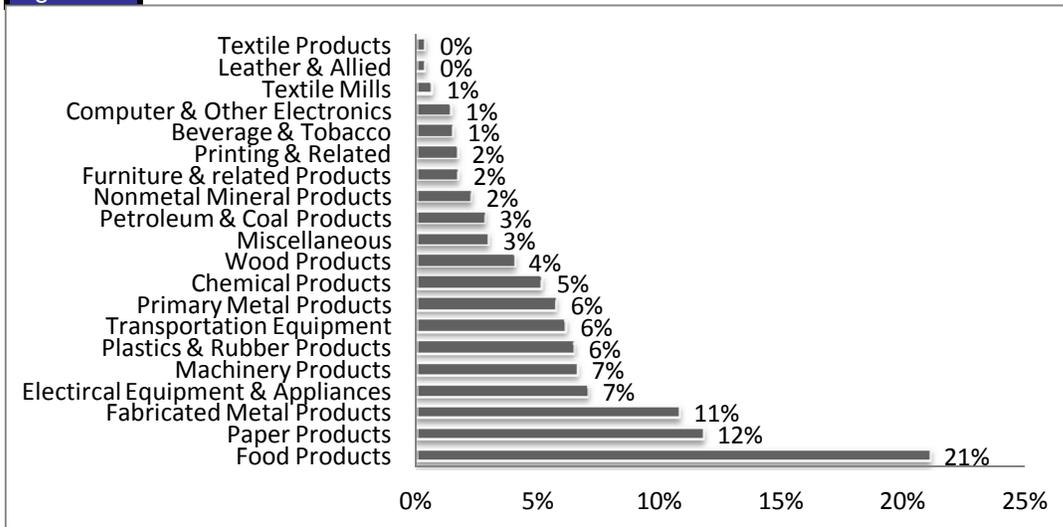

Source: Regional Economic Profiles, Bureau of Economic Analysis

Craighead County residents received per capita unemployment insurance benefits that were lower than the state average from 2000 to 2010.

**Value Added of Manufacturing Sectors, 2010**  
Arkansas State

**Figure 31**

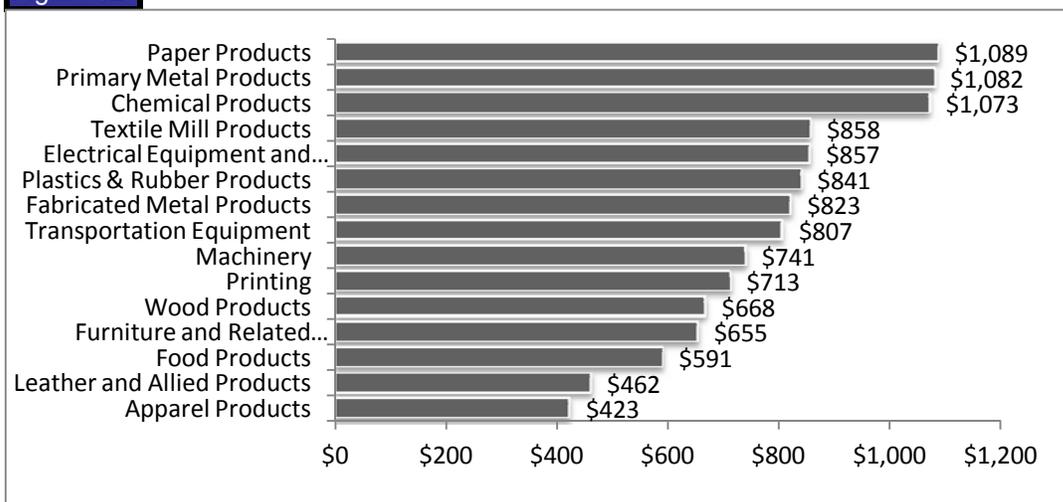

Source: Minnesota IMPLAN Group, Inc.

Most of the value added in the manufacturing sector in Arkansas came from food, paper and fabricated metal products in 2010.

**Average Weekly Earnings, 2010**  
Arkansas State

**Figure 32**

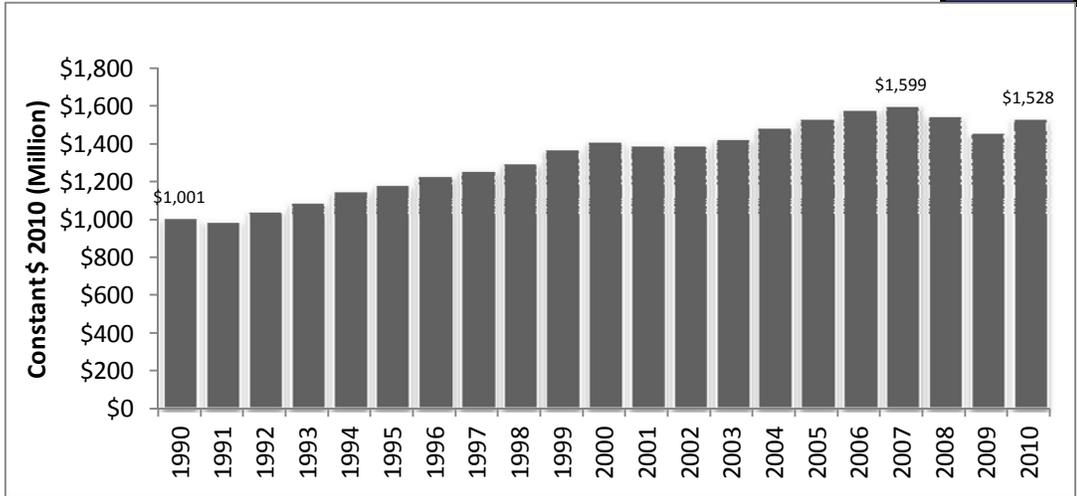

Source: Labor Market Information, Arkansas Employment Security Department

Average weekly earnings in the manufacturing sector ranged from a high of \$1,089 in the paper products industry to a low of \$423 in the apparel industry in 2010.

**Total Retail Sales, 1990 to 2010**  
*Craighead County*

**Figure 33**

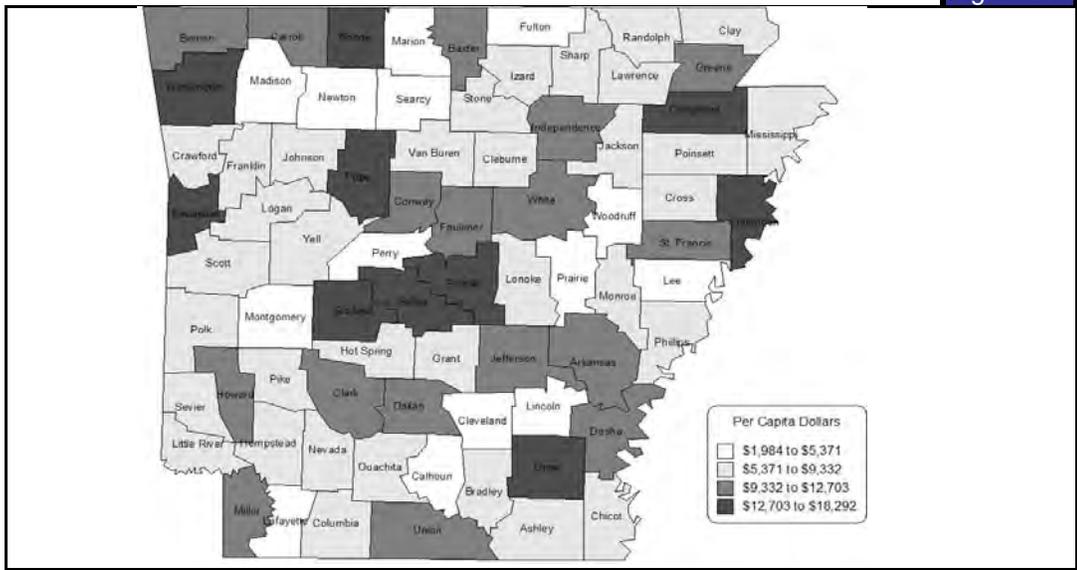

Source: Woods & Poole, 2011.

Craighead County retail sales increased from \$1,001 million in 2007 to a high of \$1,599 million in 2007, followed by a slight decline to \$1,528 million in 2010.

**Retail Sales Per Capita, 2010**  
*The Natural State*

**Figure 34**

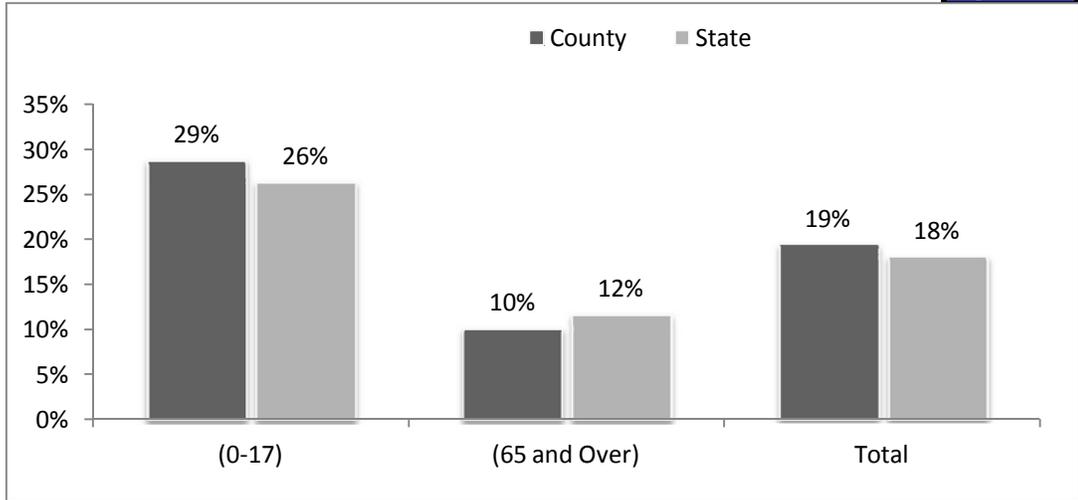

Source: Woods & Poole, 2011; 2010 Census of Population, U.S. Bureau of Census

Retail sales per capita were highest in counties that are regional trade centers in 2010.

**Age Groups & Estimated Poverty, 2005-2009\***  
*Craighead County & State*

Figure 37

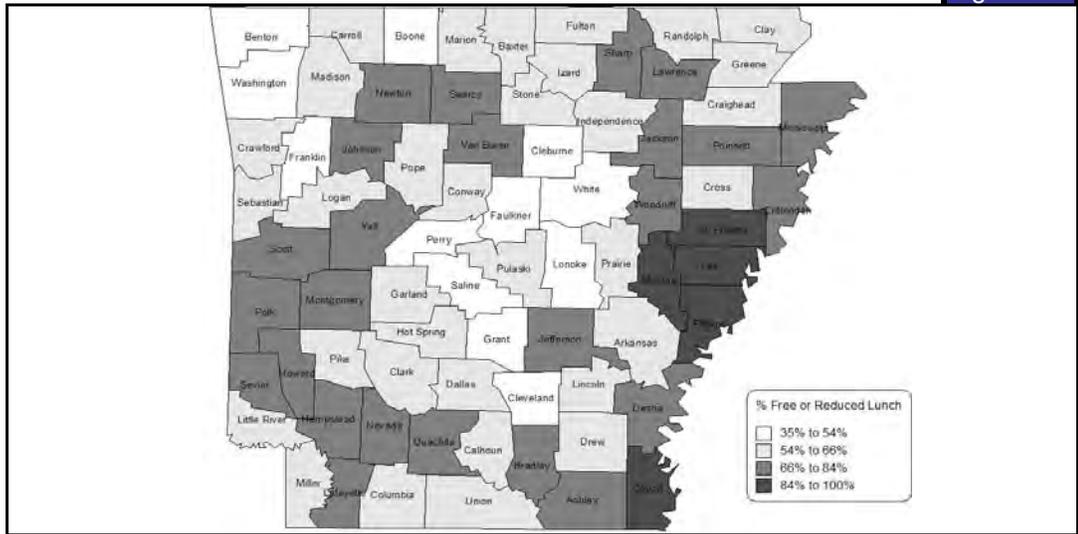

Source: U.S. Bureau of Census, American Community Survey

A larger proportion of children lived in poverty than for the population as a whole in the five-year period, 2005-2009. Craighead County had a slightly higher proportion of their children, and a slightly smaller proportion of elderly people living in poverty than the state.

**Proportion of Students Receiving Free or Reduced Price Lunch, 2009-2010**  
*The Natural State*

Figure 38

Source: Arkansas Department of Education

There was a wide range in the proportion of students who received free and reduced price school lunches across the seventy-five counties in the 2009-2010 school year. Participation rates ranged from thirty-five percent to one-hundred percent with a higher percentage of youth in the Delta Region counties receiving free and reduced price lunches.

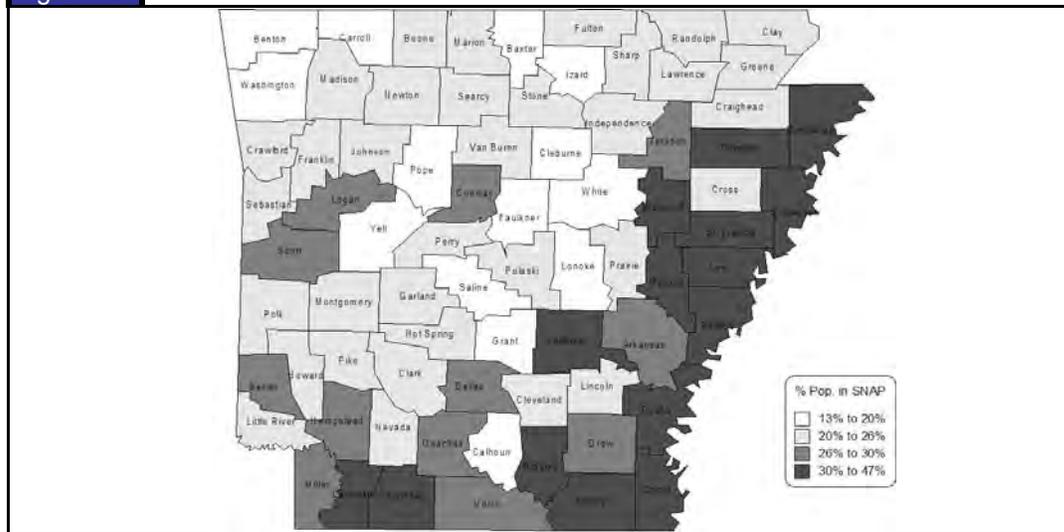

\*Note: The data were from the five-year sample (2005-2009) collected by the American Community Survey. Since this is sample data, the margin of error for counties with small populations may be large.

## Poverty

### Proportion of Population Participating in the Supplemented Nutrition Assistance Program, 2010

*The Natural State*

Figure 39

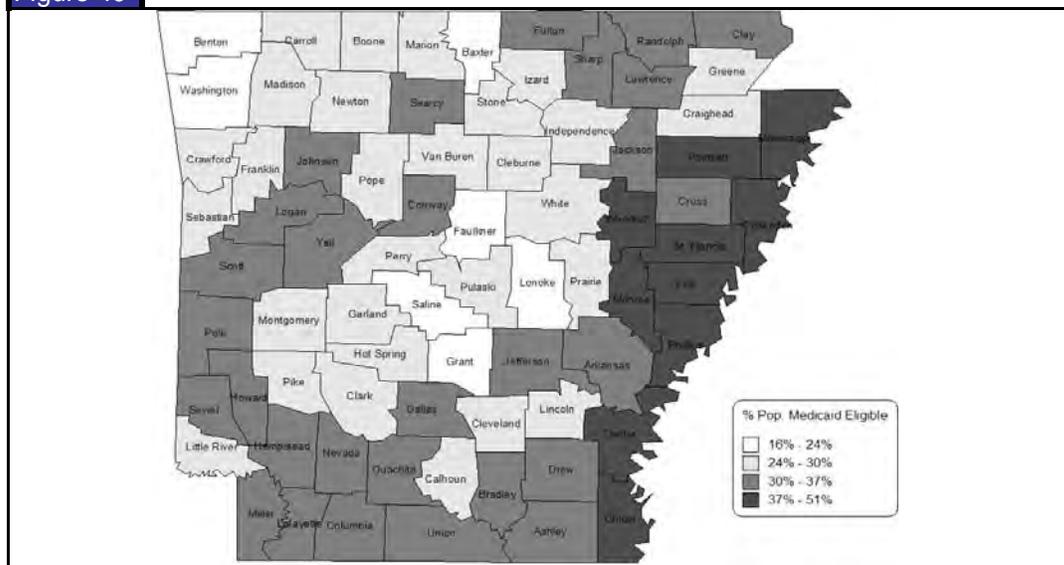

Source: 2010 Statistical Report, Arkansas Department of Human Services

A larger proportion of people living in the Delta counties and Columbia, Jefferson and Lafayette counties participated in the Supplemented Nutrition Assistance Program when compared to people in other parts of the state in 2010.

### Proportion of Population Medicaid Eligible, 2010

*The Natural State*

Figure 40

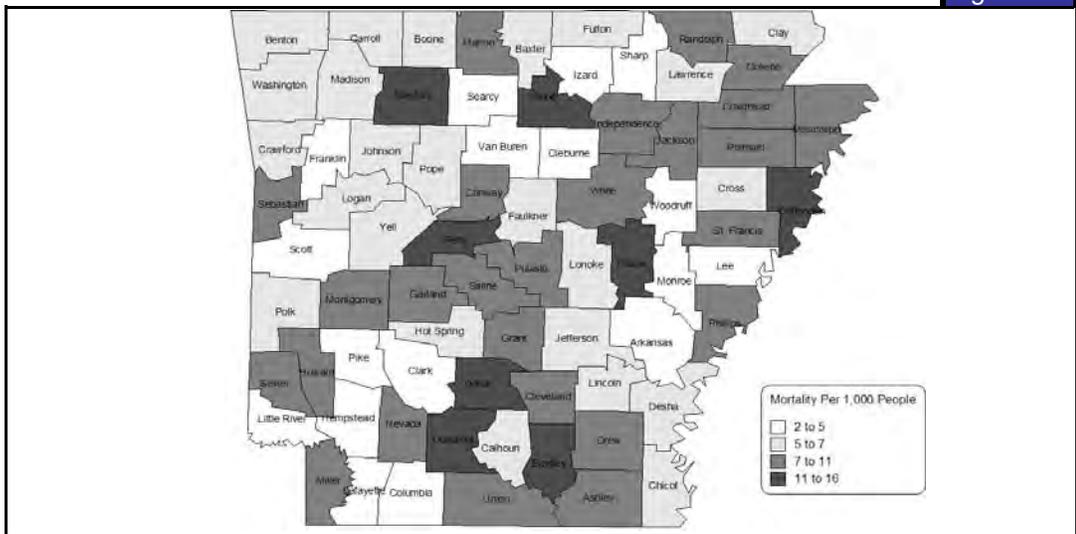

Source: 2010 Statistical Report, Arkansas Department of Human Services

A substantial percentage of the population (between 30% and 51%) was eligible for Medicaid in thirty-six counties in 2010, primarily located in the Eastern and Southern parts of the state.

**Infant Mortality Rate, 2006-2010**  
*The Natural State*

**Figure 41**

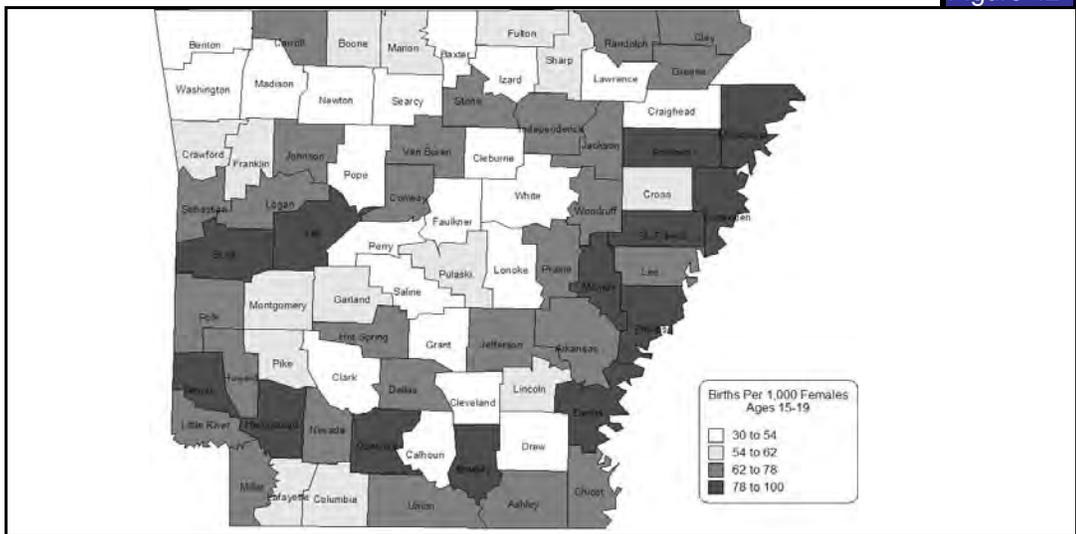

Source: Arkansas Advocates for Children & Families

The infant mortality rate was highest in the Bradley, Crittenden, Dallas, Newton, Ouachita, Perry, Prairie, and Stone counties in the five-year period from 2006 to 2010.

**Teen Fertility Rate, 2006-2010**  
*The Natural State*

**Figure 42**

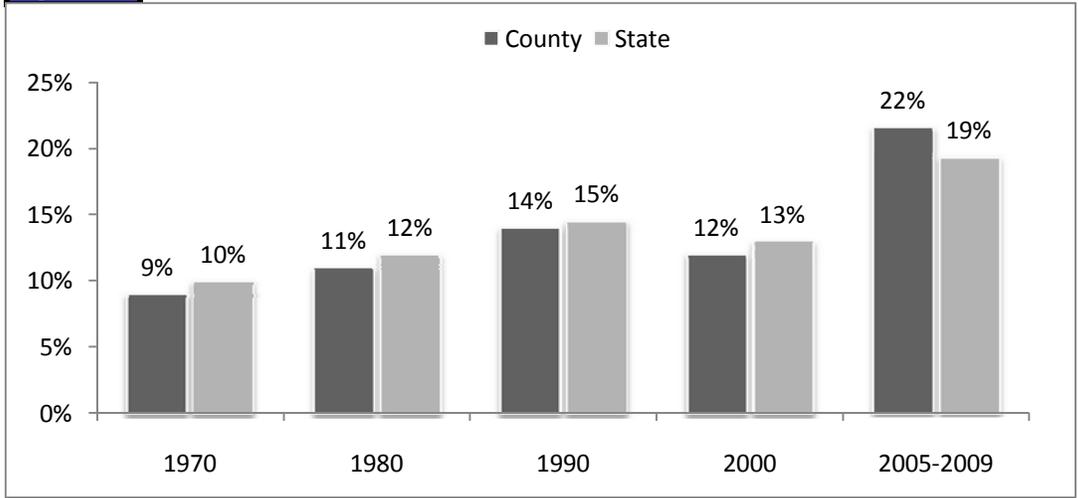

Source: Arkansas Advocates for Children & Families

The teen fertility rate varied from County to County and was highest in some Delta and Coastal Plain counties in the five-year period from 2006 to 2010. Counties with the highest teen fertility rates included Bradley, Crittenden, Desha, Hempstead, Mississippi, Monroe, Ouachita, Phillips, Poinsett, St. Francis, Scott, Sevier, and Yell counties.

**Female Headed Families, 1970, 1980, 1990, 2000 & 2005-2009\***  
*Craighead County & State*

**Figure 43**

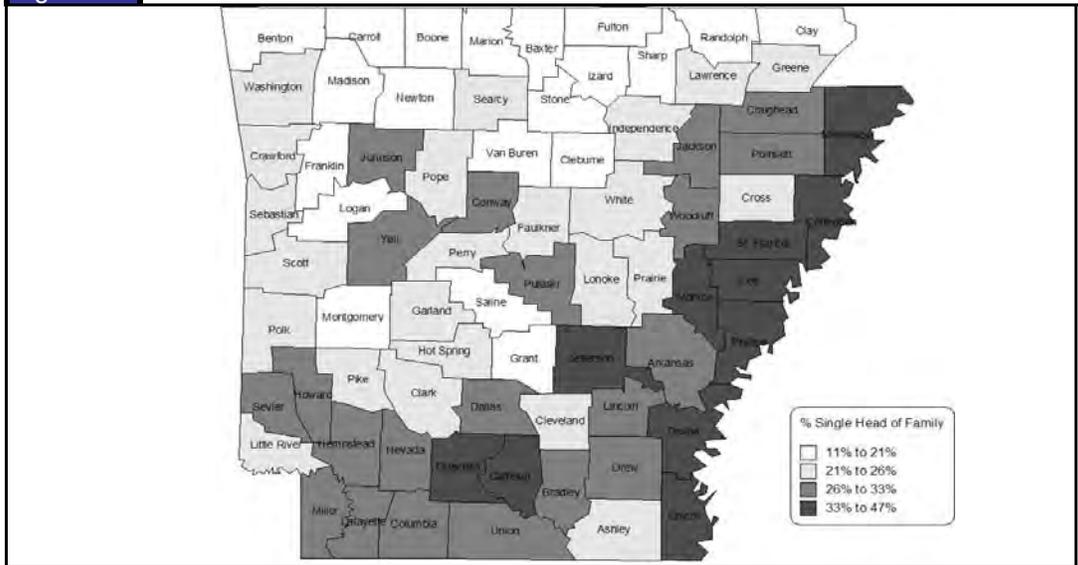

Source: 1970, 1980, 1990, 2000 Census of Population & 2010 American Community Survey, U.S. Bureau of Census

Female headed families as a proportion of total families in Craighead County increased from nine percent in 1970 to twenty-two percent in 2005-2009, which was above the state average of nineteen percent.

**Single Head of Family, 2005-2009\***  
*The Natural State*

**Figure 44**

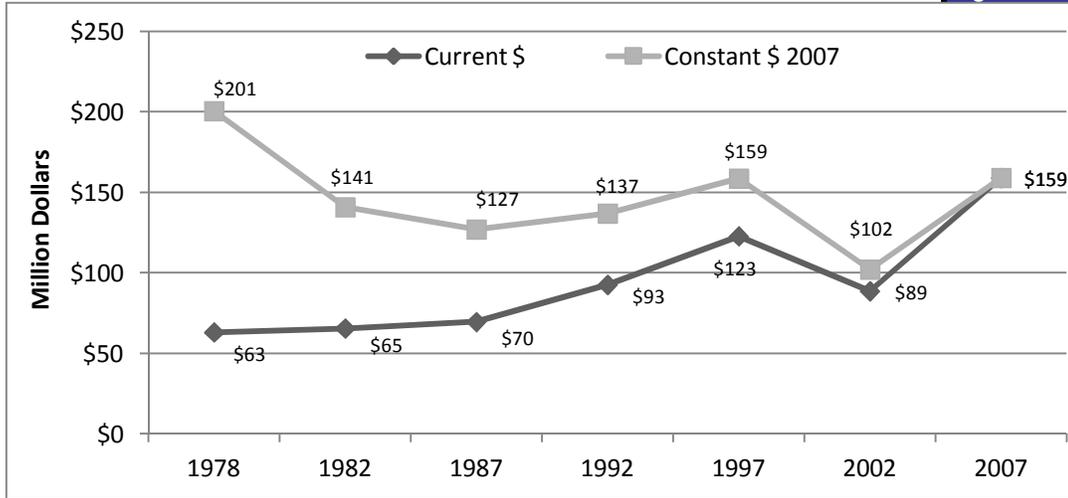

Source: American Community Survey, U.S Bureau of Census

The Delta counties and the Coastal Plains counties had the highest proportion of families with only a single parent present in 2010.

\*Note: The data were from the five-year sample (2005-2009) collected by the American Community Survey. Since this is sample data, the margin of error for counties with small population may be large.

**Market Value of Agriculture Products Sold, 1978 to 2007**  
*Craighead County*

**Figure 45**

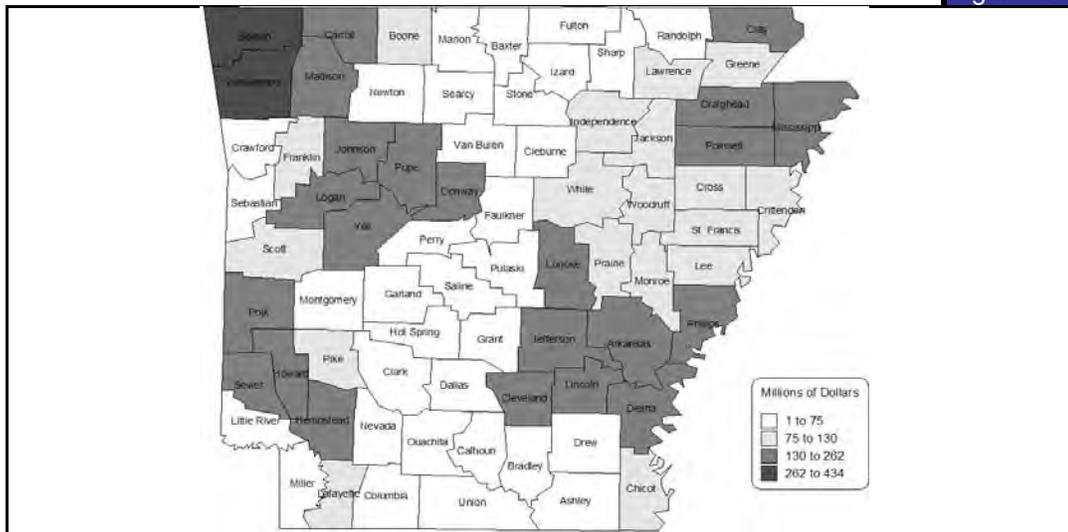

Source: 2007 Census of Agriculture, National Agricultural Statistical Service

The market value (in constant dollars) of agricultural products sold in Craighead County fluctuated in a declining trend from \$201 million in 1978 to \$159 million in 2007.

**Market Value of Agriculture Products Sold, 2007**  
*The Natural State*

**Figure 46**

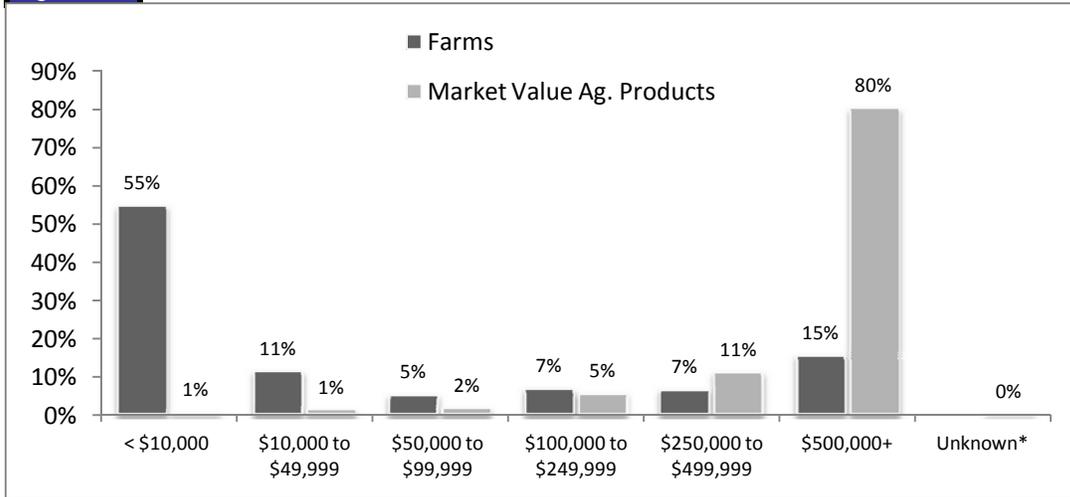

Source: 2007 Census of Agriculture, National Agricultural Statistical Service

The two counties with the highest market value of agricultural production were in Northwest Arkansas. However, many Delta and Highlands counties also ranked high in terms of the market value of agricultural production in 2007.

**Farms & Farm Sales by Size, 2007**  
*Craighead County*

**Figure 47**

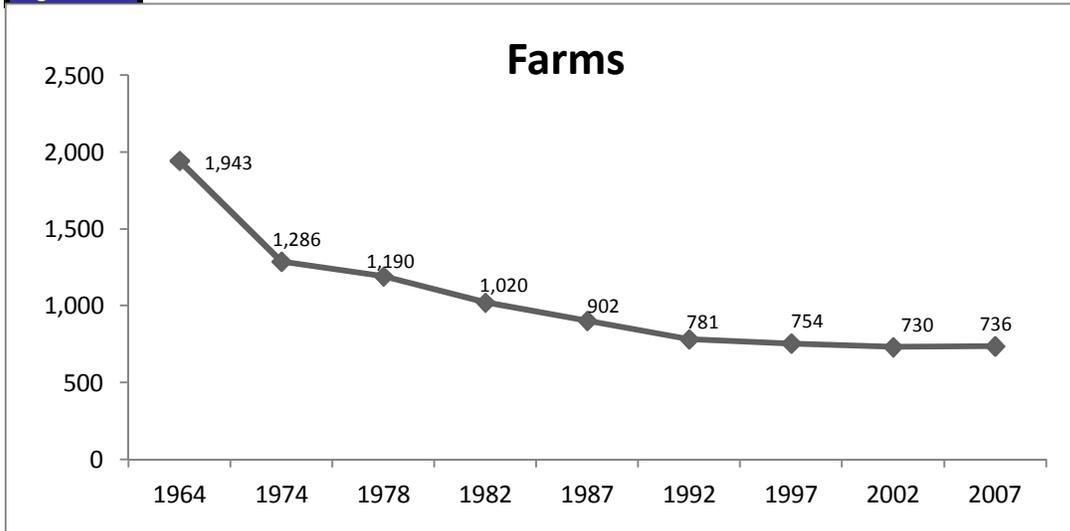

Source: 2007 Census of Agriculture, National Agricultural Statistical Service

Sixty-six percent of the farms in Craighead County had sales of less than \$50,000 in 2007. These farms accounted for about two percent of total farm sales. Fifteen percent of the farms had sales of \$500,000 or more and these farms accounted for eighty percent of total sales.

**Number of Farms, 1964 to 2007**  
*Craighead County*

**Figure 48**

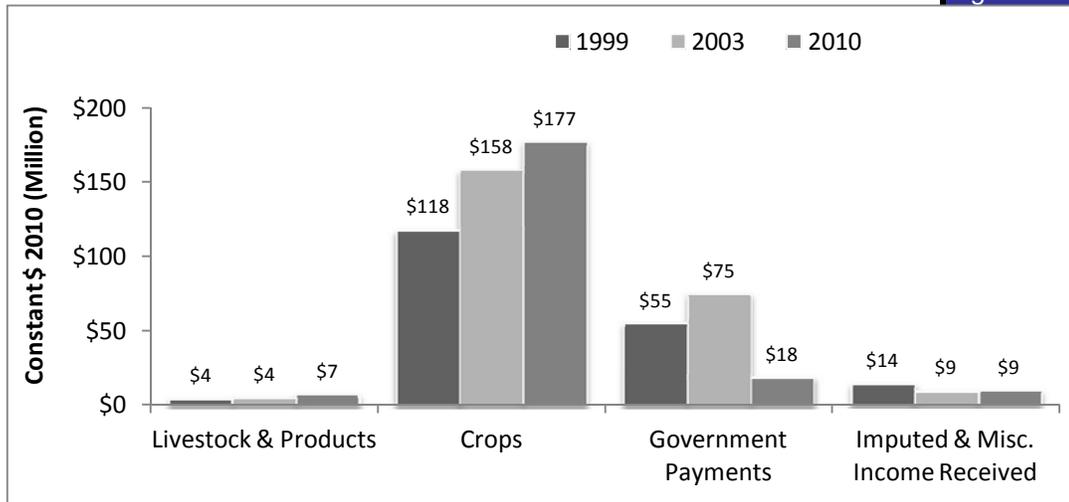

Source: 2007 Census of Agriculture, National Agricultural Statistical Service

The number of farms in Craighead County declined from 1,943 in 1964 to 736 in 2007.

\*Note: Due to the lack of available data, the unknown column was added for the missing data

**Source of Farm Income, County 1999, 2003 & 2010**  
*Craighead County*

**Figure 49**

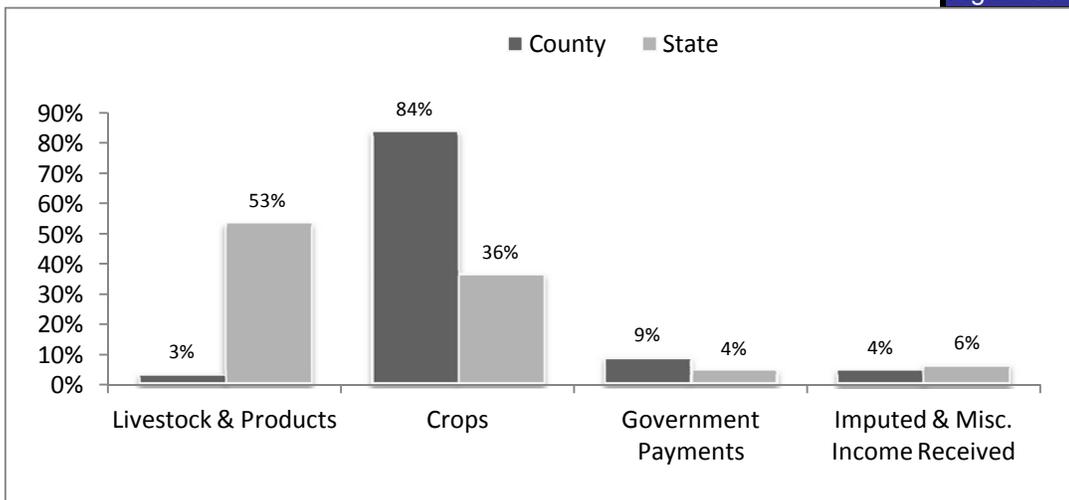

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis

Crop sales were the major source of farm income for Craighead County farmers between 1999 and 2010. Income from crops increased between 1999 and 2010.

**Source of Farm Income, County & State 2010**  
*Craighead County & State*

**Figure 50**

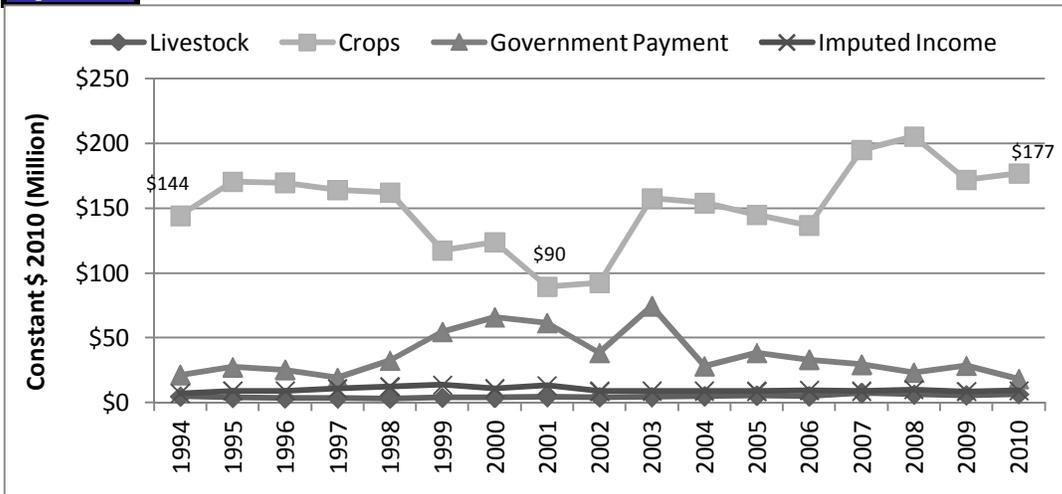

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis

Craighead County farmers received a higher proportion of farm income from crops when compared to all Arkansas farmers in 2010.

## Farm Income, 1994 to 2010 Craighead County

Figure 51

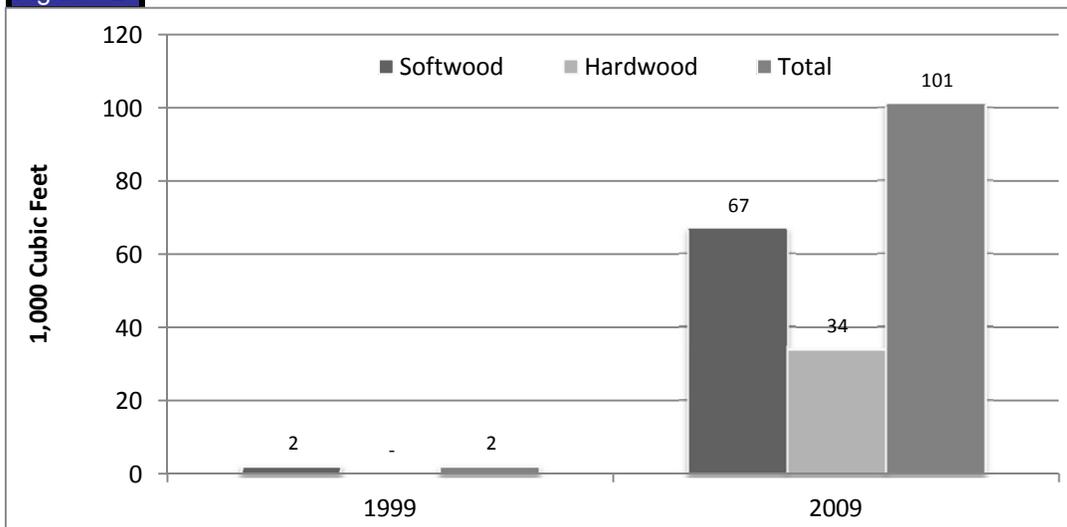

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis

Farm income from crop sales fluctuated, increasing from \$144 million in 1994 to a low of \$90 million in 2001 before rising to \$177 million in 2010.

## Timber Output, 1999 & 2009 Craighead County

Figure 52

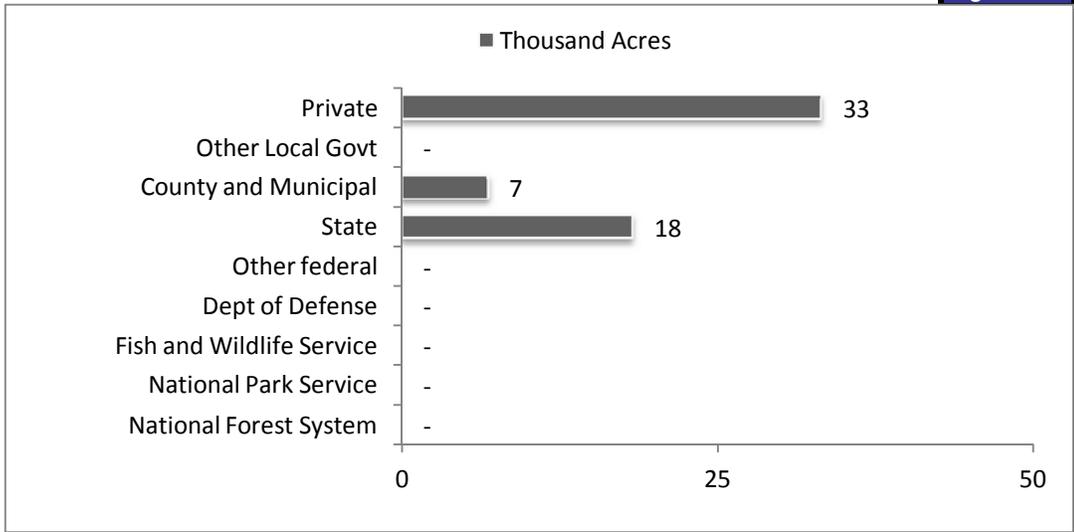

Source: U.S. Forest Service, Forest Inventory and Analysis National Program

Timber output of Craighead County (both softwood and hardwood) increased substantially between 1999 and 2009.

**Area of Timberland by Ownership Class, 2010**  
*Craighead County*

**Figure 53**

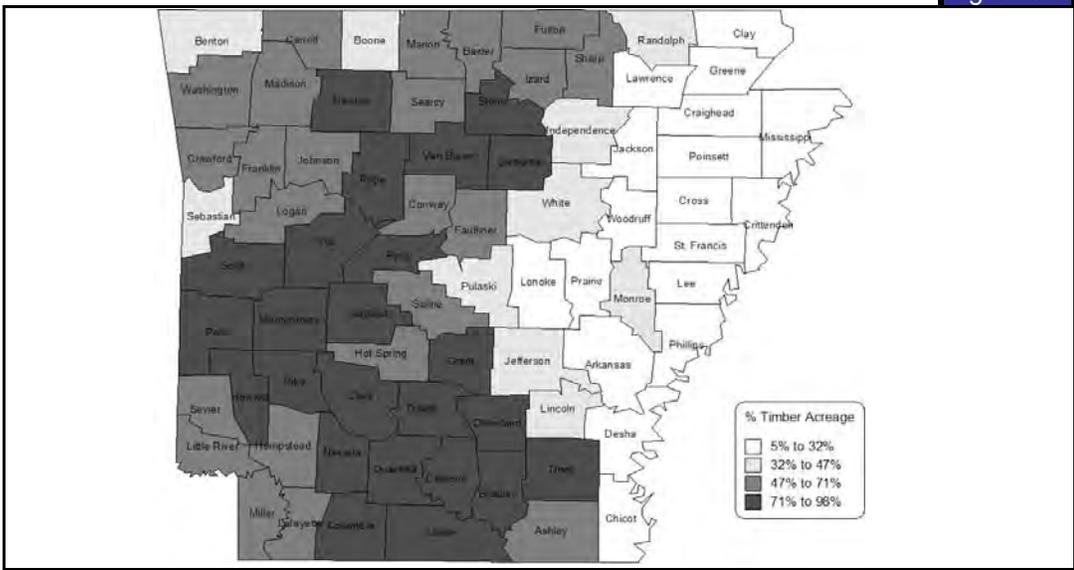

Source: Southern Forest Inventory & Analysis, Southern Research Station, U.S. Forest Service, USDA.

The total timber acreage in Craighead County was 58,000 acres in 2010. Farmers/ranchers and private individuals owned a large share (about 57%) of the timberland in Craighead County.

**Percent of Land in Forest By County, 2010**  
*Craighead County*

**Figure 54**

Source: Southern Forest Inventory & Analysis, Southern Research Station, U.S. Forest Service, USDA.

Over seventy-five percent of the land area in many Coastal Plain and Ouachita Highland counties qualified as timber acreage in 2010.

# Property Assessment & Roads

## Property Assessments Per Person, 2010 *The Natural State*

Figure 55

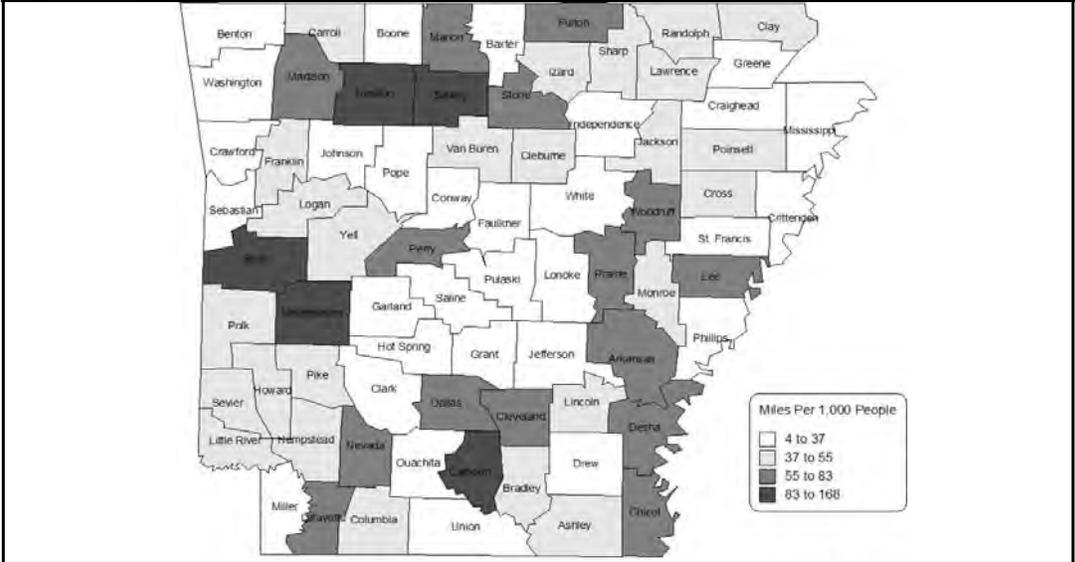

Source: Arkansas Assessment Coordination Department, Little Rock, Arkansas; 2010 Census of Population, U.S. Bureau of Census

The average property assessments per person in 2010 varied greatly among Arkansas counties, from \$7,427 to \$27,781.

## Miles of County Roads Per Person, 2010 *The Natural State*

Figure 56

Source: Road and Street Report, Arkansas State Highway Commission

In general, sparsely populated counties had more miles of County roads to maintain per person than more densely populated counties in 2010.

**AGRICULTURAL SERVICES** Includes establishments primarily engaged in performing soil preparation services, crop services, veterinary and other animal services, farm labor and management services, and landscape and horticultural services, for others on a contract or fee basis.

**CIVILIAN LABOR FORCE** The sum of all employed and unemployed persons 16 years of age or older. Members of the Armed Forces are excluded.

**"CONSTANT \$"** Figures adjusted for inflation using the Consumer Price Index, 1982-1984 = 100.

**"CURRENT \$"** Figures not adjusted for inflation.

**CONSTRUCTION** Includes general building contractors (residential, operative, and nonresidential); heavy construction contractors (highway, street, etc.); and special trade contractors (plumbing, heating, air conditioning, painting, paper hanging, electrical, masonry, stonework, roofing, sheet metal, concrete, and miscellaneous special trade contractors).

**DELIVERED VALUE OF HARVESTED TIMBER** The value of harvested timber delivered to the first processing point. The value includes the value of the timber (stumpage value), the cost of harvesting, and the cost of transporting the timber to the first processing point.

**EARNINGS** Earnings include wages and salaries, other labor income, and proprietors' income by place of work.

**EMPLOYMENT** An estimate of the number of persons, on a place-of-residence basis, who worked anytime for pay or profit or worked 15 hours or more as an unpaid family worker during the week of reference (the week including the 12th of the month). Also included are those who, although not working, had some job attachment and were not looking for work, and persons involved in labor-management disputes.

**FAMILY HOUSEHOLDS** Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family which is further classified into "male householder" (a family with a male householder and no wife present) or "female householder" (a family with a female householder and no husband present).

**FARMING** Includes businesses whose primary source of revenue is from crop and livestock production.

**FEMALE HEADED FAMILIES** A family with a female householder and no husband present.

**FINANCIAL SERVICES** Financial, insurance, and real estate services.

**GOVERNMENT** Employees of city, county, state and federal governments.

**IMPUTED & MISC. INCOME RECEIVED** Consists of imputed income, such as gross rental value of dwellings and value of home consumption, and other farm related income components, such as machine hire and custom work income, rental income, and income from forest products.

**INCOME** Total income is the algebraic sum of the amount reported separately for wage or salary income; non-farm net self-employment income; farm net self-employment income; interest, dividend, net royalty or rental income; social security or railroad retirement income; public assistance or welfare income and all other income.

**INFANT MORTALITY RATE** The number of infant deaths (under one year of age) per 1,000 live births.

**JOBS** The number of full-time and part-time jobs in a geographic area.

**MANUFACTURING** Includes manufacturing industries dealing with food and kindred products; textile mill products; apparel products; lumber and wood products; furniture and fixtures; paper and allied products; printing and publishing; chemicals; petroleum and coal; rubber and miscellaneous plastics; leather; stone, clay and glass; primary metal industries; fabricated metal products; machinery; electrical and electronic equipment; transportation equipment; instruments; and miscellaneous industries.
