# YELL COUNTY PROFILE

## 2013

Wayne Miller, Professor  
Thai Nguyen, Intern

## Foreword & Acknowledgments

---

The University of Arkansas System Division of Agriculture Cooperative Extension Service is pleased to release these updated county profiles in hopes that these publications may serve as a useful tool for local officials, community leaders and economic development professionals.

This publication provides a comparison and overview of the demographic, economic and social trends in Arkansas counties. The information is presented in graphs and maps to allow the reader to quickly grasp current trends and conditions and gain insight into local and regional contexts. We encourage leaders and decision makers to use this publication in conjunction with their knowledge of the local geography, culture and political environment to make wise decisions for Arkansas' future.

The state agencies providing data and assistance for this publication include the State Data Center at the University of Arkansas at Little Rock, the Arkansas Department of Workforce Services, the Arkansas Department of Education, and the Arkansas Department of Health and Human Services. We thank the many individuals at these departments and organizations for their quick response to our requests for information.

Several departments and individuals of the University of Arkansas worked in collaboration to publish these county profiles. Wayne Miller, Community and Economic Development, coordinated the project. Thai Nguyen compiled the data and developed graphs and charts. Vuko Karov developed the maps and checked the data for accuracy. Chris Meux designed the cover, and Donna Rinke published the profiles on the Cooperative Extension website. Their many hours of effort are greatly appreciated.

We hope you find this publication useful as you plan for the future of your communities.

Tony E. Windham, Ph.D.  
Associate Vice President for Agriculture-Extension  
and Director, Cooperative Extension Service

**Population, 1960-2010**  
*Yell County*

**Figure 1**

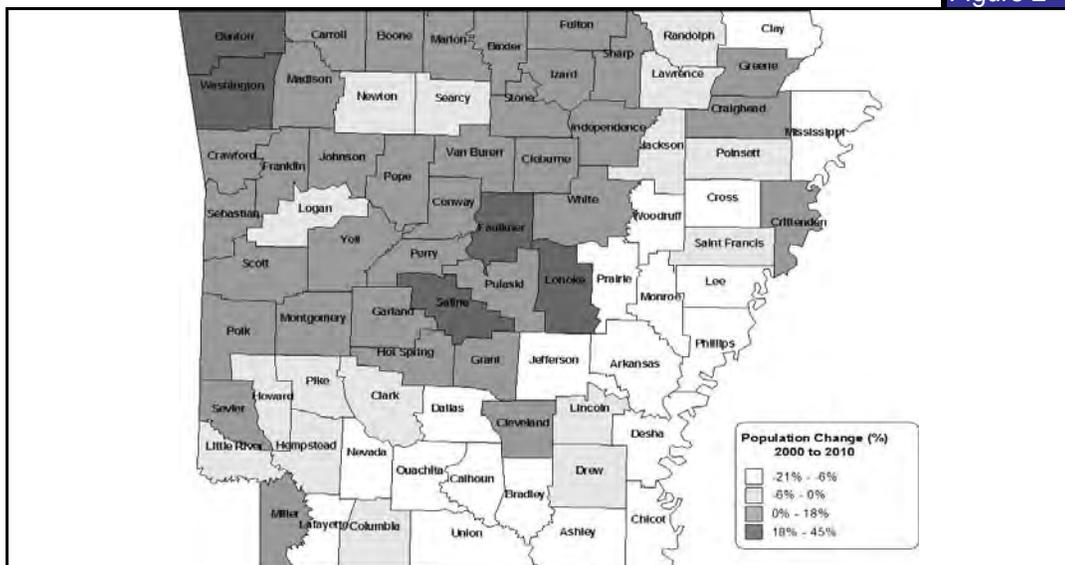

Source: 1960, 1970, 1980, 1990, 2000 and 2010 Census of Population, U.S. Bureau of Census

The population of Yell County increased substantially from 11,940 in 1960 to 22,185 in 2010.

**Population Change, 2000 to 2010**  
*The Natural State*

**Figure 2**

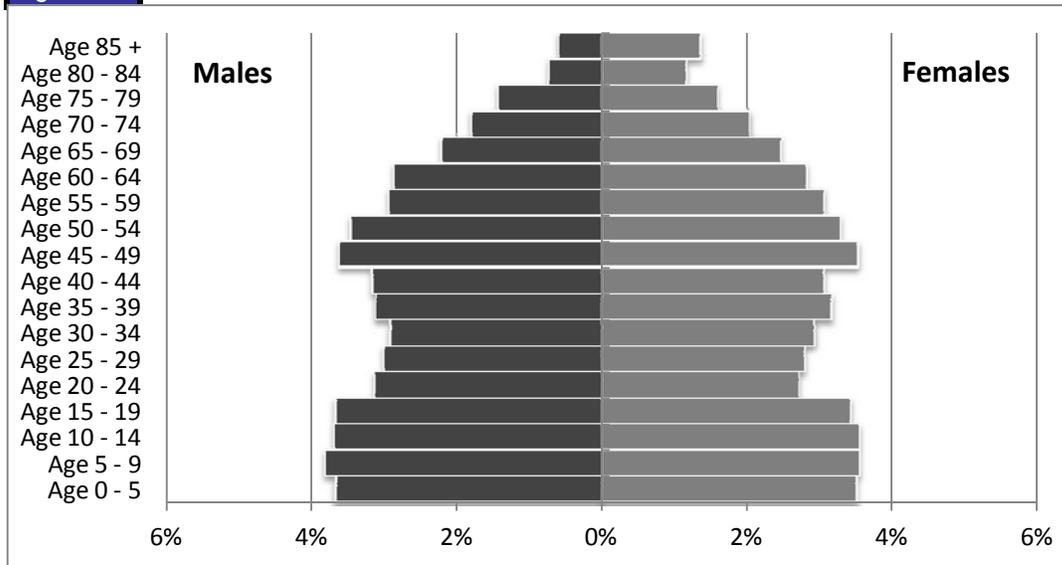

Source: July 2000 & July 2010 Population Estimates, U.S. Bureau of Census

Population grew most rapidly in Northwest & Central Arkansas counties and declined in some East and South Arkansas counties between 2000 and 2010.

# Population

## Percent of Total County Population by Age and Gender, 2010 Yell County

Figure 3

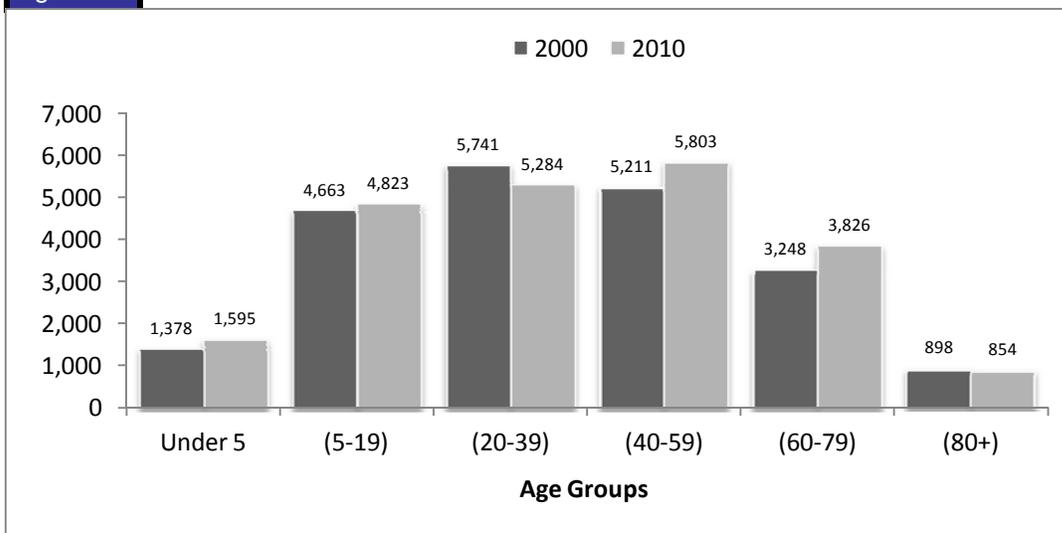

Source: U.S. Bureau of Census, 2010 Census Summary File 1

There were more people living in Yell County in the age groups between the ages of 0 and 19 and between the ages of 45 and 54 than in any other age groups in 2010.

## Population by Age, 2000 & 2010 Yell County

Figure 4

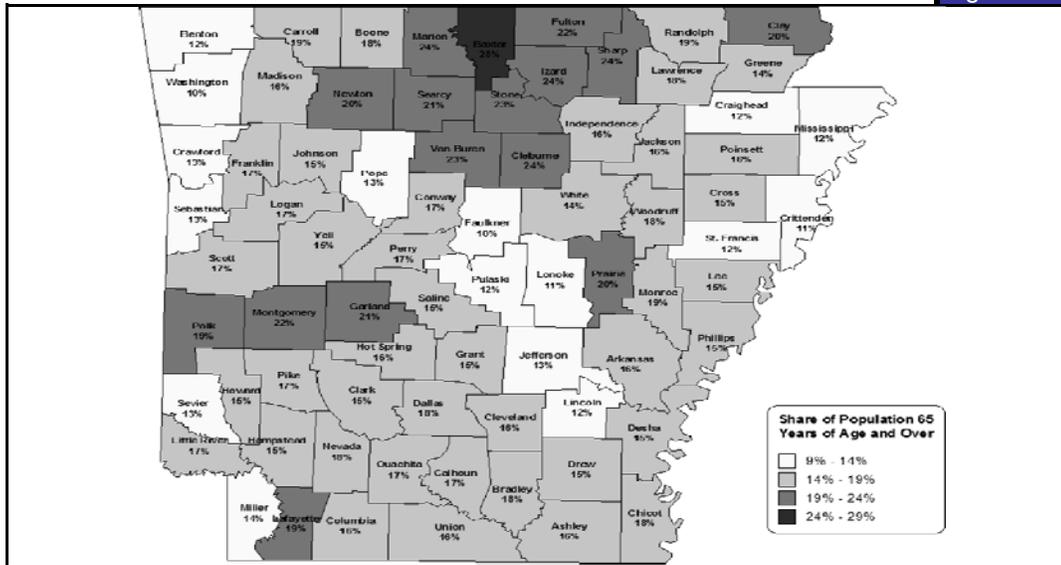

Source: 2000 & 2010 Census of Population, U.S. Bureau of Census

Except for the slight decline in population of ages 20 to 39, and 80 and older, the population in other age groups in Yell County increased between 2000 and 2010.

Population 65 and Older, 2010  
The Natural State

Figure 5

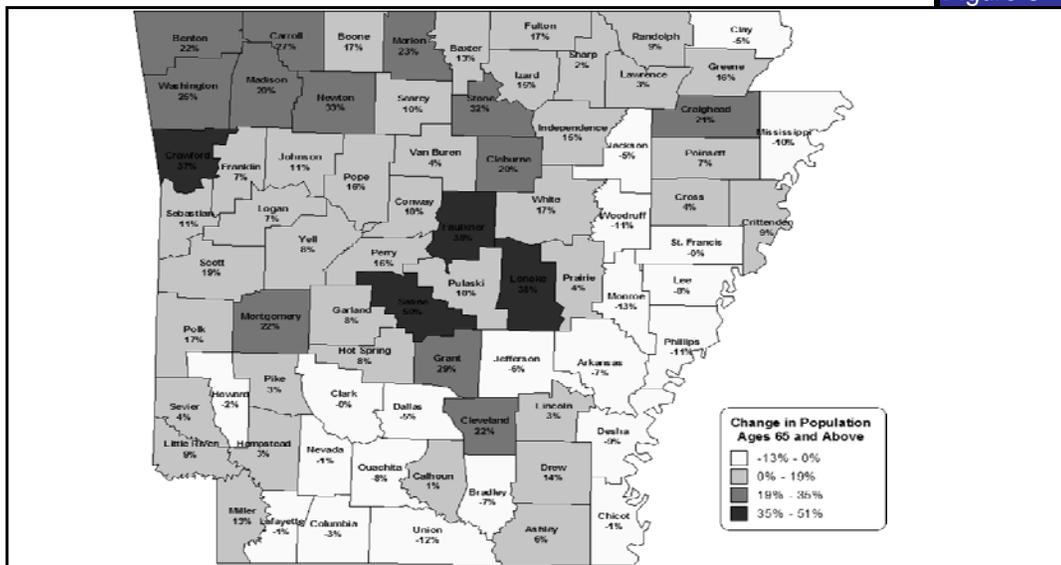

Source: July 2010 Census of Population, U.S. Bureau of Census

Counties in Northcentral Arkansas had the highest proportion of people aged 65 and older in 2010.

Population Change of People 65 & Older, 2000 to 2010  
The Natural State

Figure 6

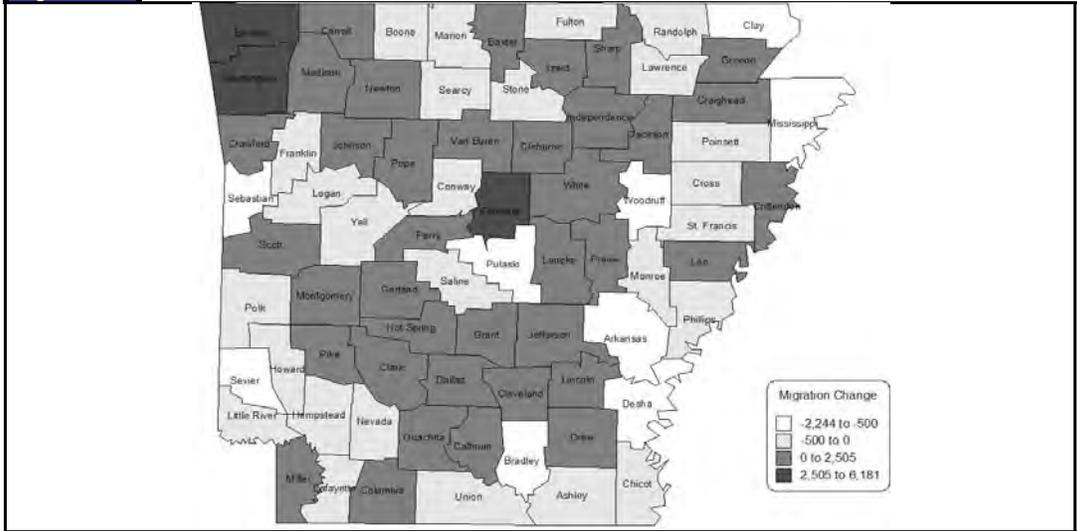

Source: 2000 & 2010 Census of Population, U.S. Bureau of Census

The elderly population as a proportion of the total population grew most rapidly in Central and Northwest Arkansas from 2000 to 2010.

**Net Domestic Migration of People, 2005-2009\***  
*The Natural State*

**Figure 7**

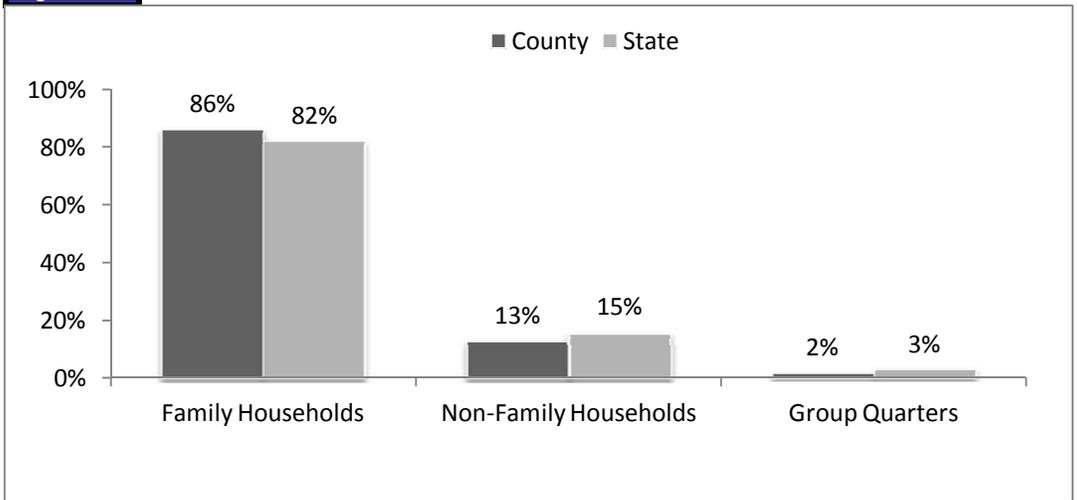

Source: U.S. Bureau of Census, American Community Survey

Central & Northwest Arkansas had the highest domestic in-migration of people between 2005 and 2009, while Arkansas, Bradley, Clay, Desha, Mississippi, Pulaski, Sebastian, Sevier and Woodruff counties had the largest domestic out-migration of people during this period.

**Population by Household Type, 2005-2009\***  
*Yell County & State*

**Figure 8**

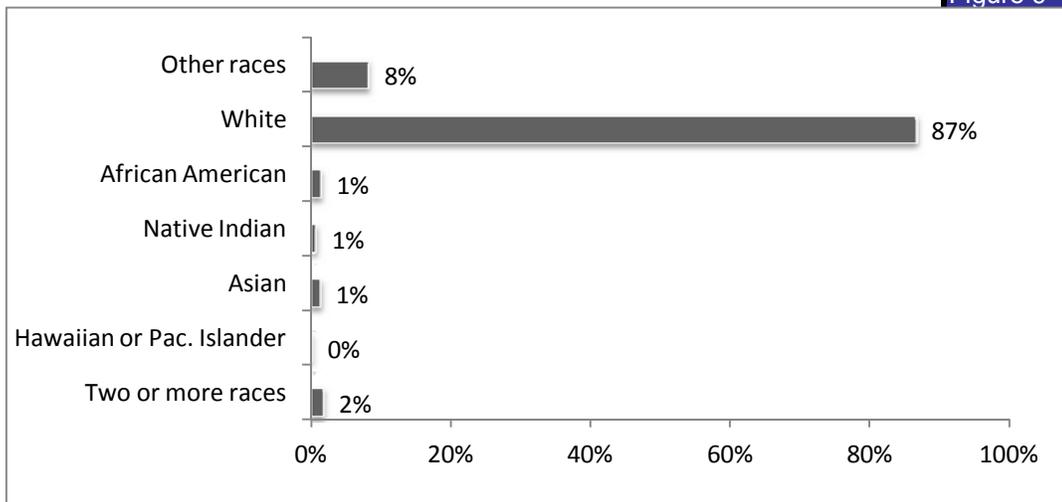

Source: U.S. Bureau of Census, American Community Survey

Most of the people (86%) in Yell County lived in family households. A larger share of people in Yell County lived in family households as compared to the state average.

\*Note: The data were from the five-year sample (2005-2009) collected by the American Community Survey. Since this is sample data, the margin of error for counties with small populations may be large.

**Population by Race, 2010**  
*Yell County*

**Figure 9**

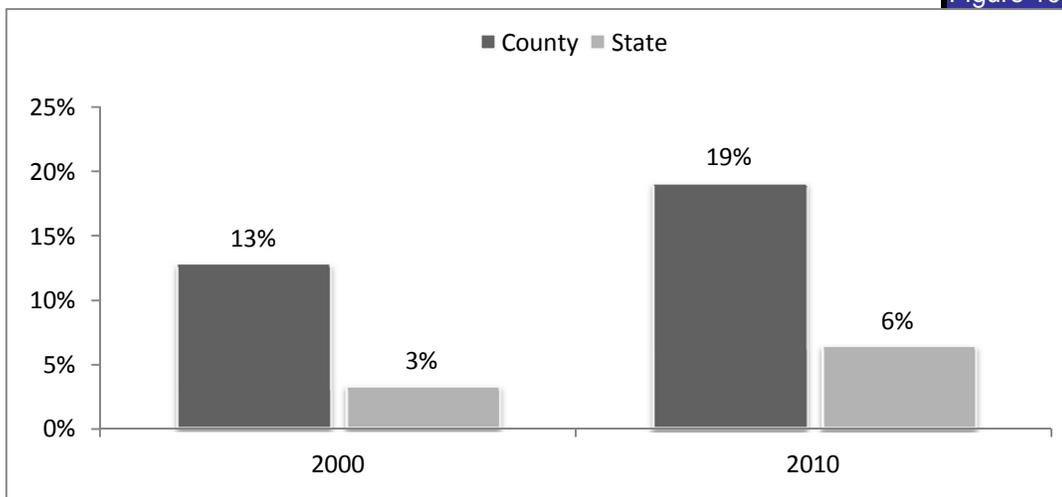

Source: 2010 Census of Population, U.S. Bureau of Census

Eighty-seven percent of the people living in Yell County were Caucasian. Minorities represented about thirteen percent of the population.

**Population of Hispanic Origin, State and County for 2000 & 2010**  
*Yell County & State*

**Figure 10**

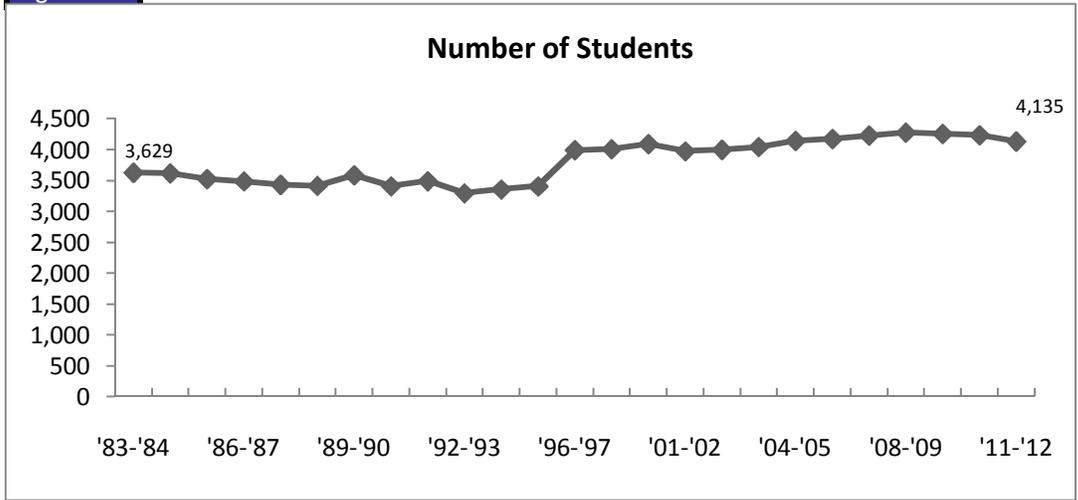

Source: 2000 & 2010 Census of Population, U.S. Bureau of Census

The proportion of Hispanic people living in Yell County increased substantially from thirteen percent of the population in 2000 to nineteen percent in 2010. The proportion of Hispanics living in Yell County was substantially higher than the state average. The Hispanic population may be of any race: white, black or any other combination of races.

**Public School Enrollment, 1983-1984 to 2011-2012**  
*Yell County*

**Figure 11**

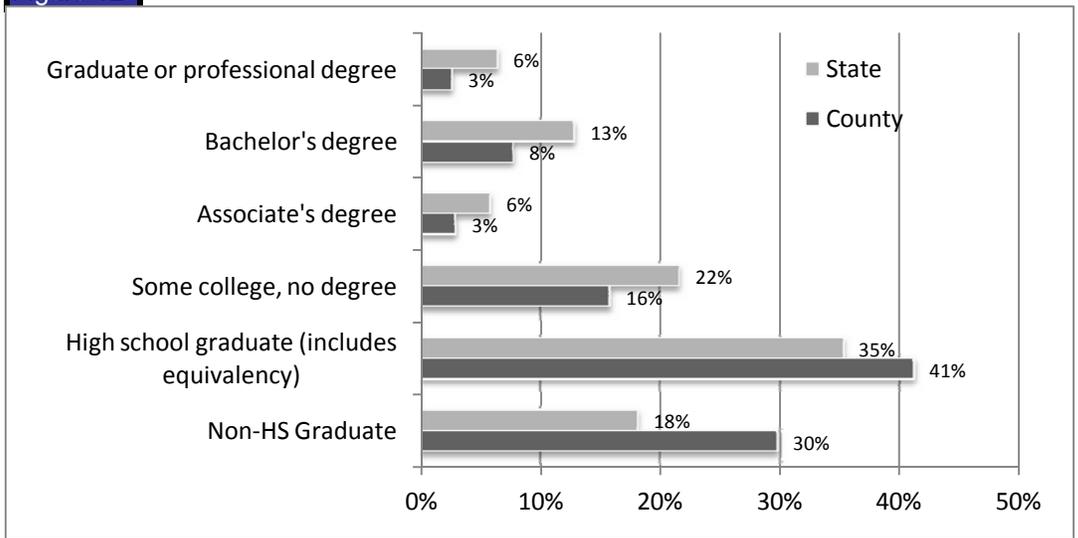

Source: Arkansas Department of Education (<http://adedata.arkansas.gov/statewide/Counties/Enrollment.aspx>)

Public school enrollment in Yell County increased slightly from 3,629 in 1983-1984 to 4,135 in 2011-2012.

**Educational Attainment, 2005-2009\***  
*Yell County & State*

**Figure 12**

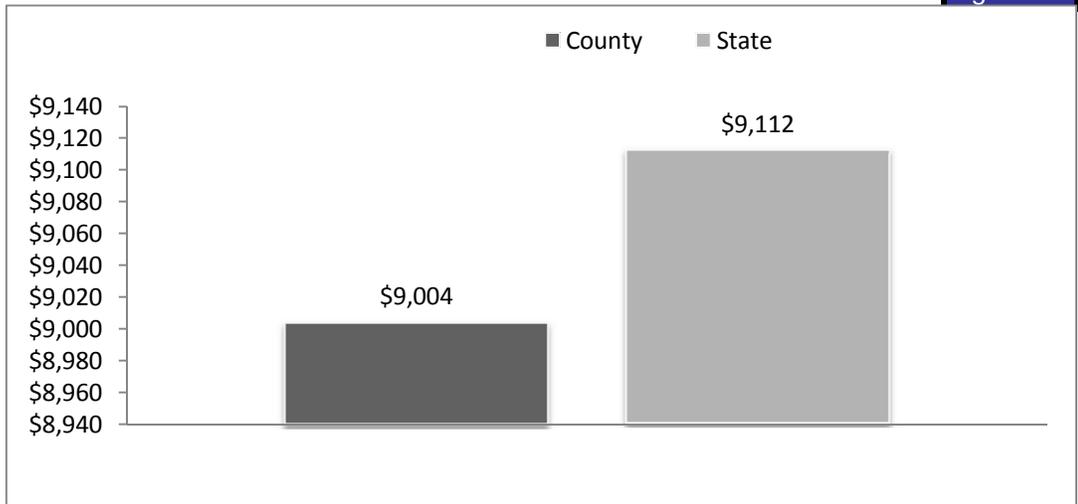

Source: U.S. Bureau of Census, American Community Survey

Yell County had a smaller percentage of people who completed high school and a smaller percentage of people who had bachelors and professional degrees as compared to the state average in the five-year period 2005-2009.

\*Note: The data were from the five-year sample (2005-2009) collected by the American Community Survey. Since this is sample data, the margin of error for counties with small populations may be large.

**Education Expenditure Per Child, County & State 2011-2012**  
*Yell County*

**Figure 13**

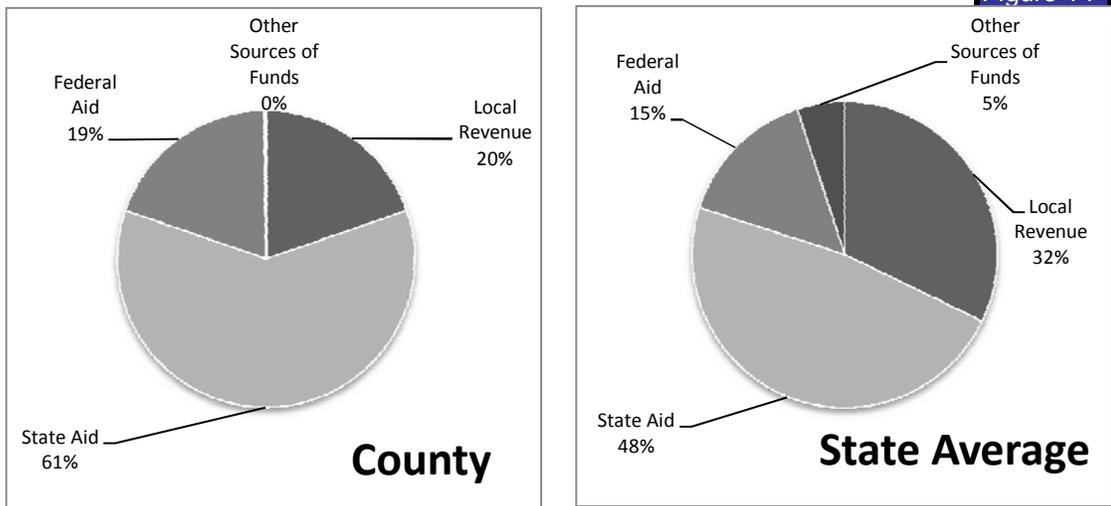

Source: Arkansas Public School Computer Network ([www.apscn.org/reports/hld/asr/asr.htm](http://www.apscn.org/reports/hld/asr/asr.htm)), Arkansas Department of Education

Schools in Yell County spent \$9,004 per child in the 2011-2012 school year as compared to an average expenditure of \$9,112 statewide.

**Education Revenue By Source, County & State 2009-2010**  
*Yell County & State*

**Figure 14**

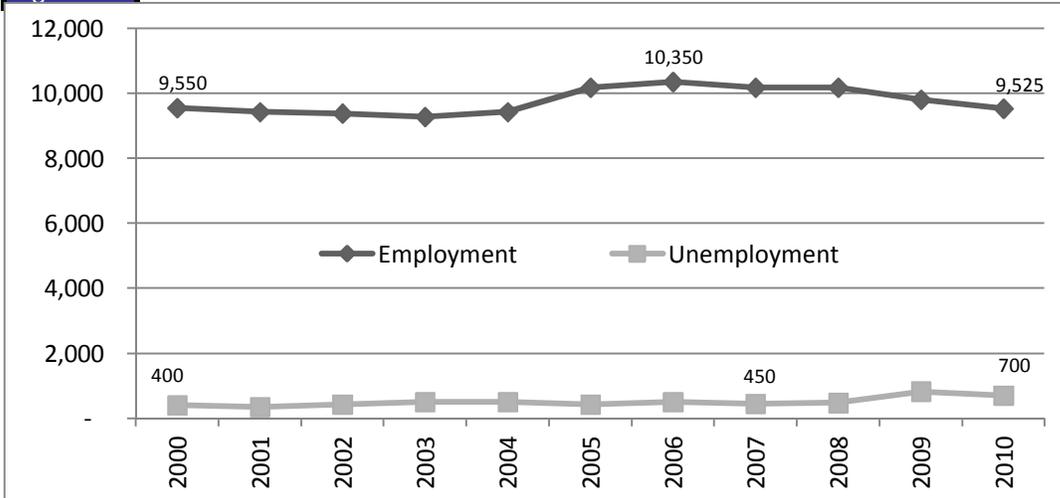

Source: Arkansas Public School Computer Network ([www.apscn.org/reports/hld/asr/asr.htm](http://www.apscn.org/reports/hld/asr/asr.htm)), Arkansas Department of Education

Yell County schools raised more of their revenue from state and federal aid than did the average of all Arkansas public schools in the 2009-2010 school year.

# Employment

## Labor Force, 2000 to 2010 Yell County & State

Figure 15

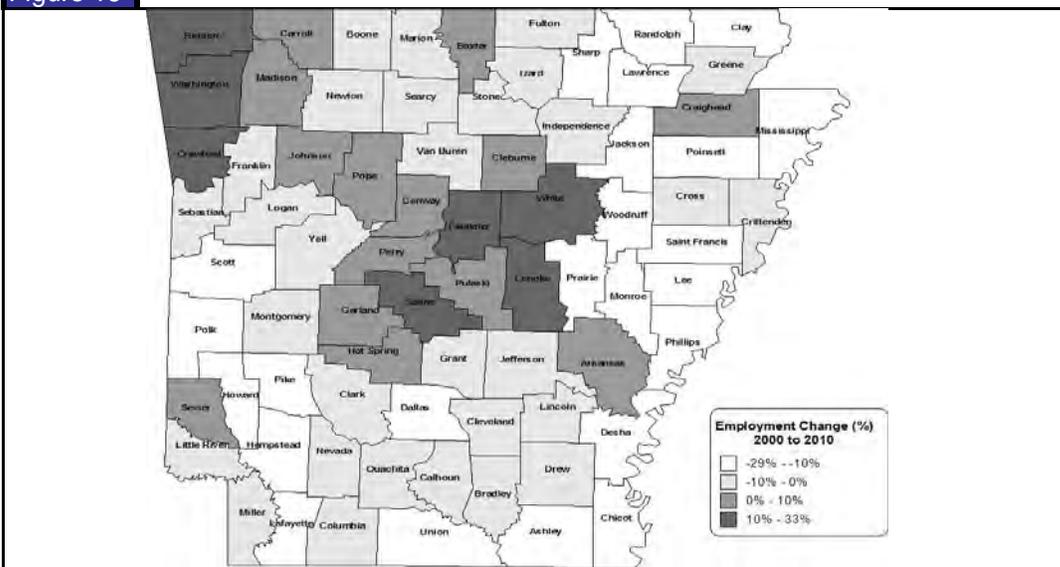

Source: Labor Market Information, Arkansas Employment Security Department

Yell County employment decreased since 2006 and unemployment increased since 2007.

## Change in Employment, 2000 to 2010 The Natural State

Figure 16

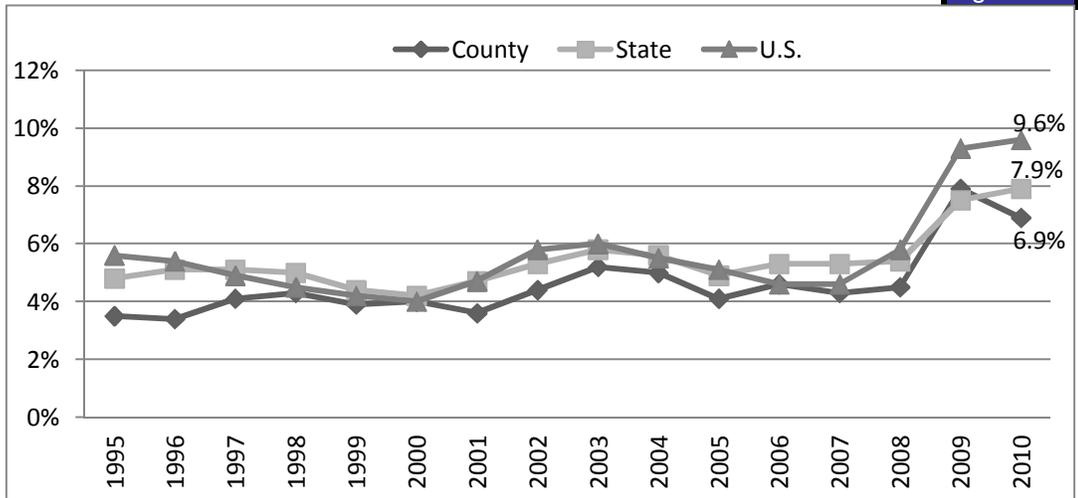

Source: Regional Economic Information System (REIS), Bureau of Economic Analysis

Employment growth was highest in Central & Northwest Arkansas between 2000 and 2010.

**Unemployment Rates, 1995 to 2010**  
*Yell County, State & United States*

**Figure 17**

Source: Labor Market Information, Arkansas Employment Security Department

The unemployment rate in Yell County increased substantially since 2007, but was lower than the state and national rates in 2010 when the rate in Yell County declined to 6.9 percent.

**Unemployment Rates, 2010**  
*The Natural State*

**Figure 18**

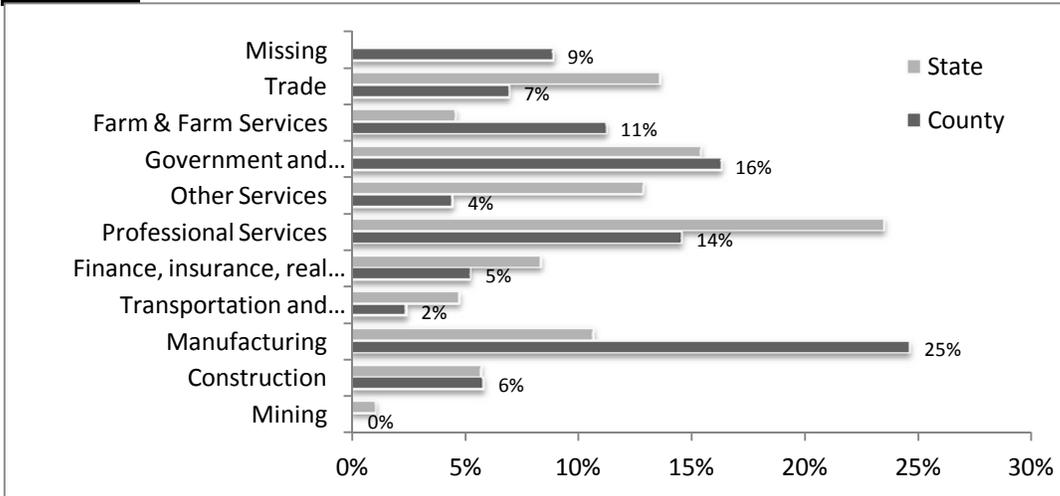

Source: Labor Market Information, Arkansas Employment Security Department

In general, Northwest, Central, and Western Arkansas counties had the lowest unemployment rates while Delta and Coastal Plain counties had the highest rates in 2010.

# Employment

## Jobs by Sector, 2010 Yell County

Figure 19

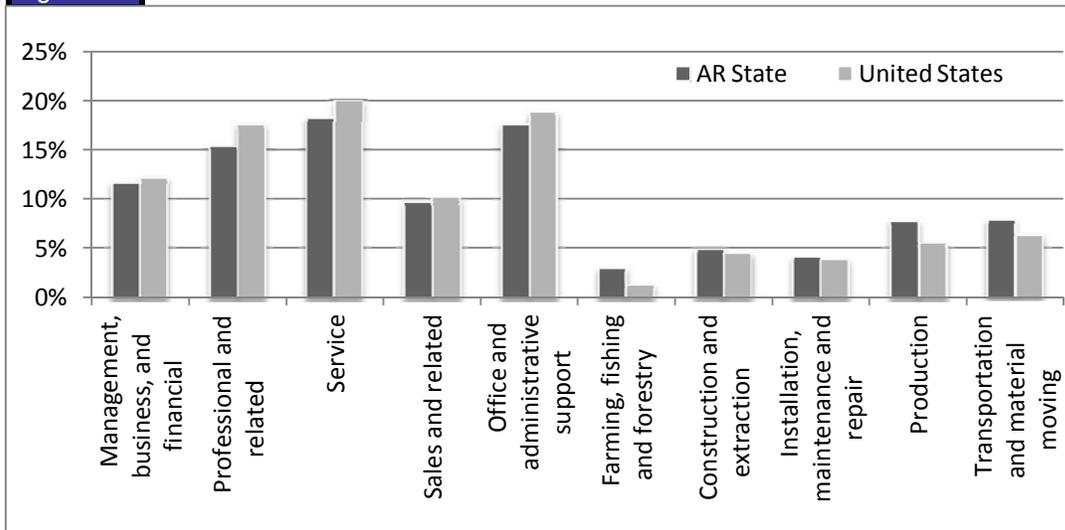

Source: Regional Economic Information System, Bureau of Economic Analysis (REIS)

A large proportion of jobs in Yell County were manufacturing (25%), government (16%) and professional services (14%) in 2010. Yell County had a larger share of jobs in the manufacturing and farm sectors as compared to the state average. There were considerable missing data due to non-disclosure of confidential information.

## Workforce by Occupation, 2010 The Natural State & the Nation

Figure 20

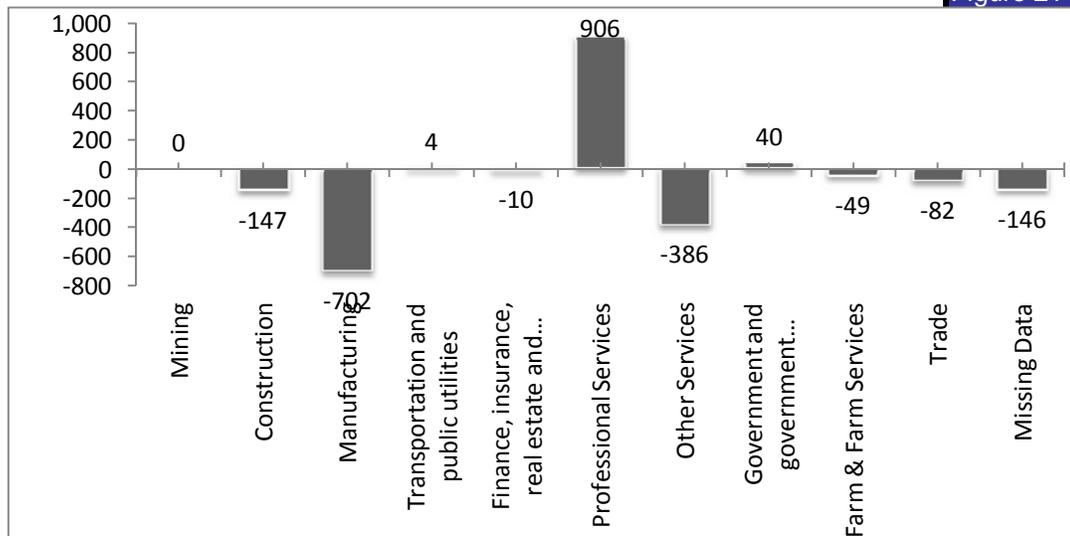

Source: Minnesota IMPLAN Group, Inc.

More people were employed in service occupations in Arkansas and in the United States than in any other occupation in 2010.

**Changes in Jobs by Sector, 2001 to 2010**  
Yell County

**Figure 21**

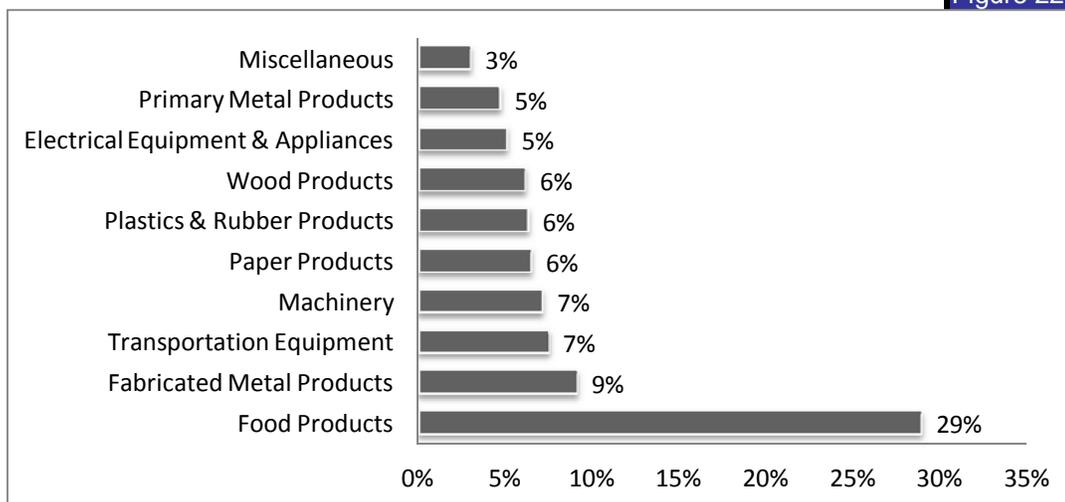

Source: Regional Economic Information System, Bureau of Economic Analysis (REIS)

The manufacturing sector lost more jobs, while the professional services sector gained more jobs between 2001 and 2010 than any other sectors in Yell County. There were considerable missing data due to non-disclosure of confidential information.

**Jobs in Top 10 Manufacturing Sectors, 2010**  
Arkansas State

**Figure 22**

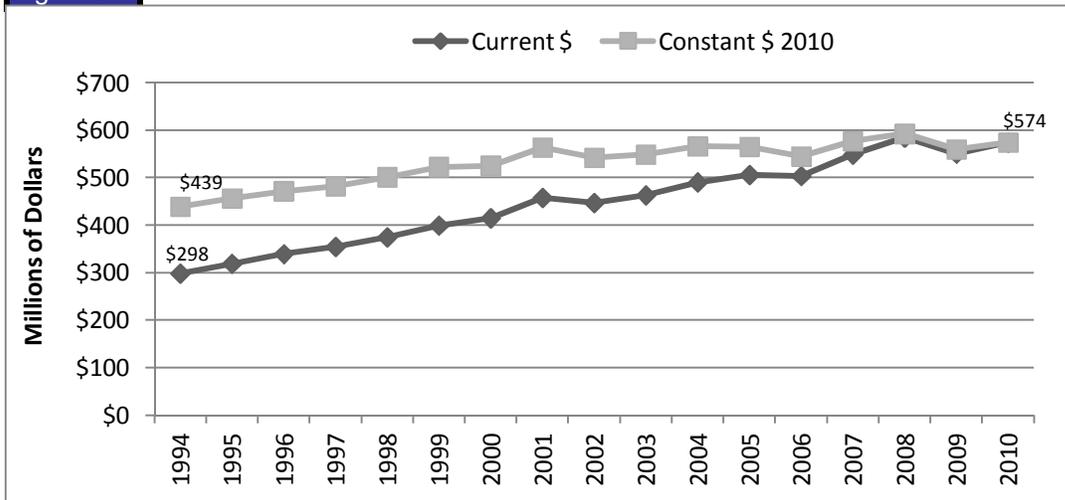

Source: Minnesota IMPLAN Group, Inc.

Nearly 30 percent of the jobs in the manufacturing sector in 2010 in Arkansas were in the food processing industries.

# Income

## Total Personal Income, 1994 to 2010 Yell County

Figure 23

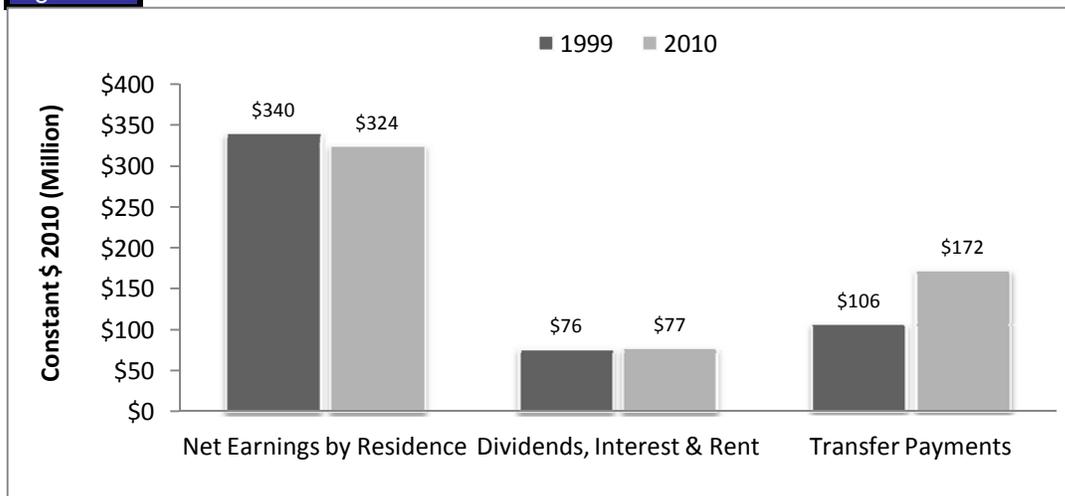

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis

Total personal income in Yell County, in constant dollars, increased from \$439 million in 1994 to \$574 million in 2010.

## Income by Source, 1999 & 2010 Yell County

Figure 24

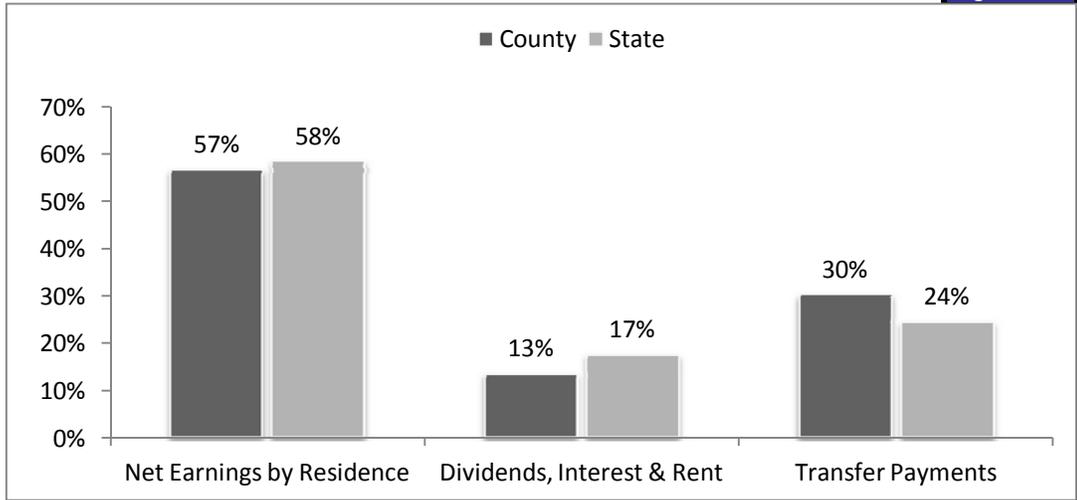

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis

Income from net earnings decreased slightly, while income from dividends, interest & rent and transfer payments in Yell County increased between 1999 and 2010.

**Income by Source, County and State 2010**  
*Yell County & State*

**Figure 25**

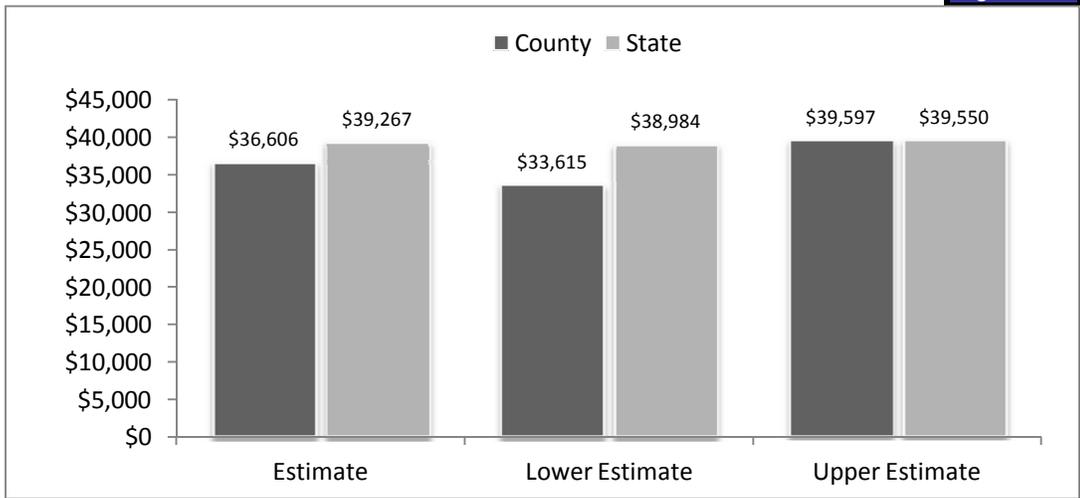

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis

Yell County residents received a smaller share of income from net earnings and dividends, interest & rent, and a larger share from transfer payments than the average for all Arkansas residents in 2010.

**Median Household Income, 2005-2009\***  
*Yell County & State*

**Figure 26**

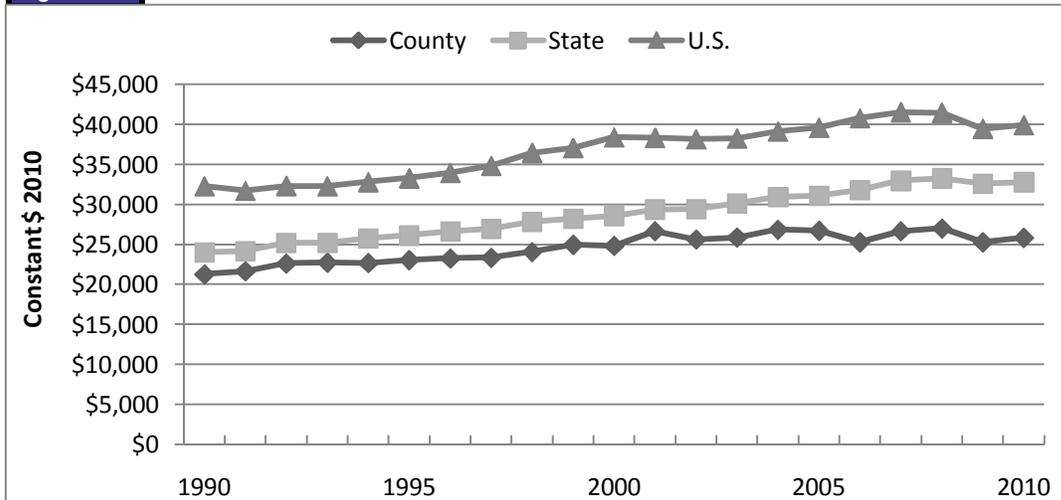

Source: U.S. Bureau of Census, American Community Survey

Median household income in 2005-2009 was lower in Yell County than the state average.

\*Note: The data were from the five-year sample (2005-2009) collected by the American Community Survey. Since this is sample data, the margin of error for counties with small populations may be large.

**Per Capita Income, 1990 to 2010**  
*Yell County, State & United States*

Figure 27

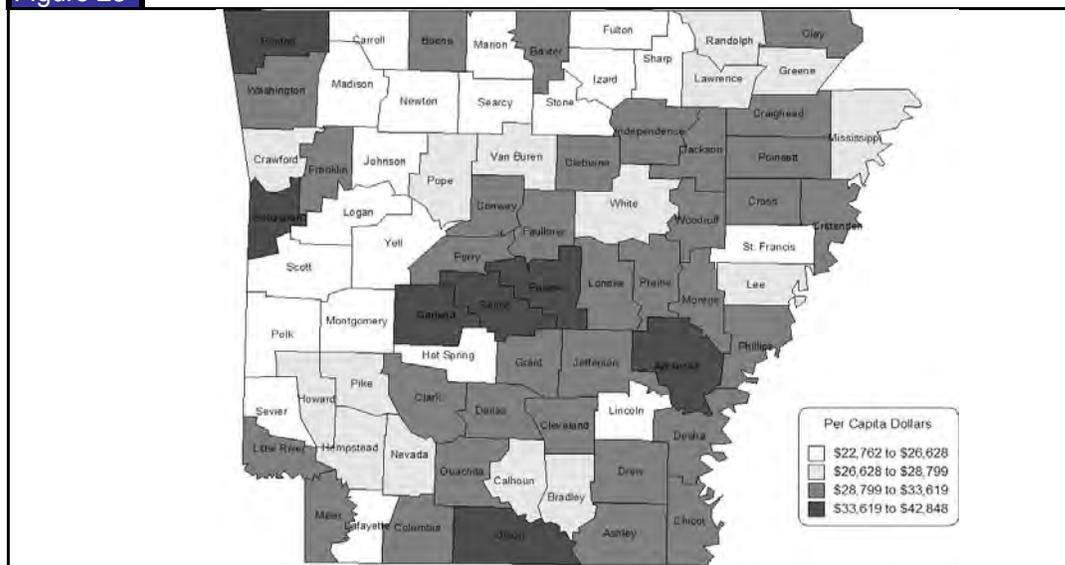

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis

Yell County per capita income was below both the state and national averages from 1990 to 2010.

**Per Capita Income, 2010**  
*The Natural State*

Figure 28

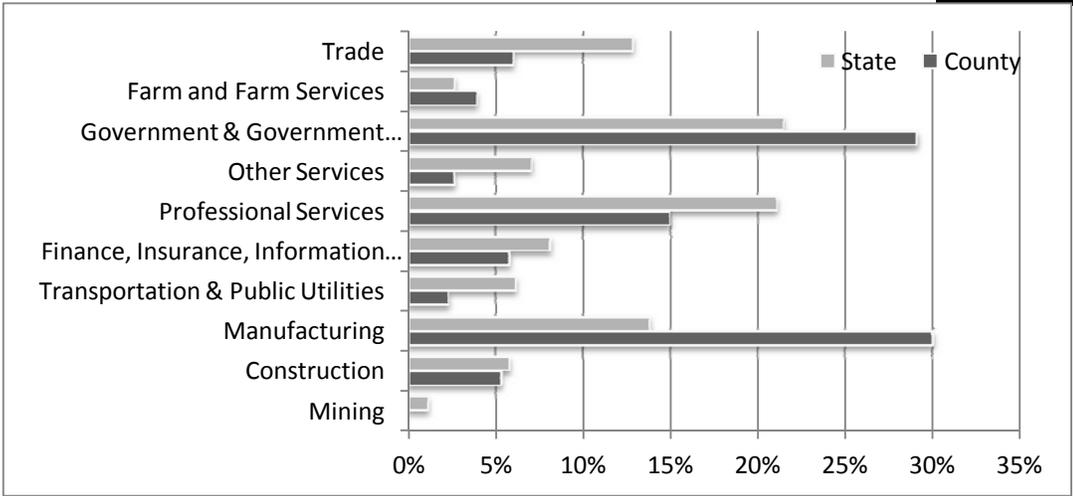

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis; 2010 Census of Population, U.S. Bureau of Census

Per capita incomes were highest in Central & Northwest Arkansas and lowest in some West & Northcentral counties in 2010.

**Earnings by Sector, 2010**  
Yell County

**Figure 29**

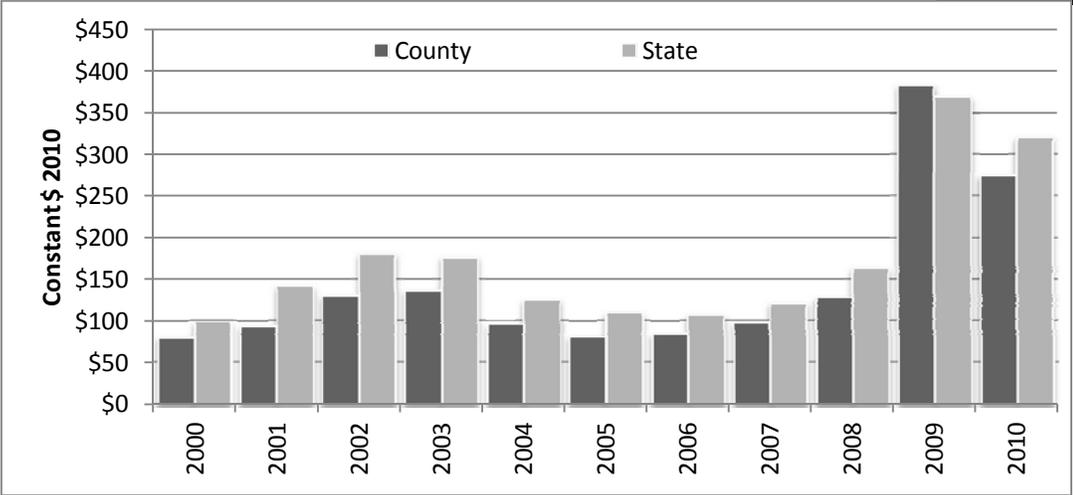

Source: Regional Economic Profiles, Bureau of Economic Analysis

The government & governmental enterprises and manufacturing sectors accounted for about 60% of total earnings in Yell County in 2010 and comprised larger shares of total earnings as compared to the state average.

**Per Capita Unemployment Insurance Benefits, 2000 to 2010**  
Yell County & State

**Figure 30**

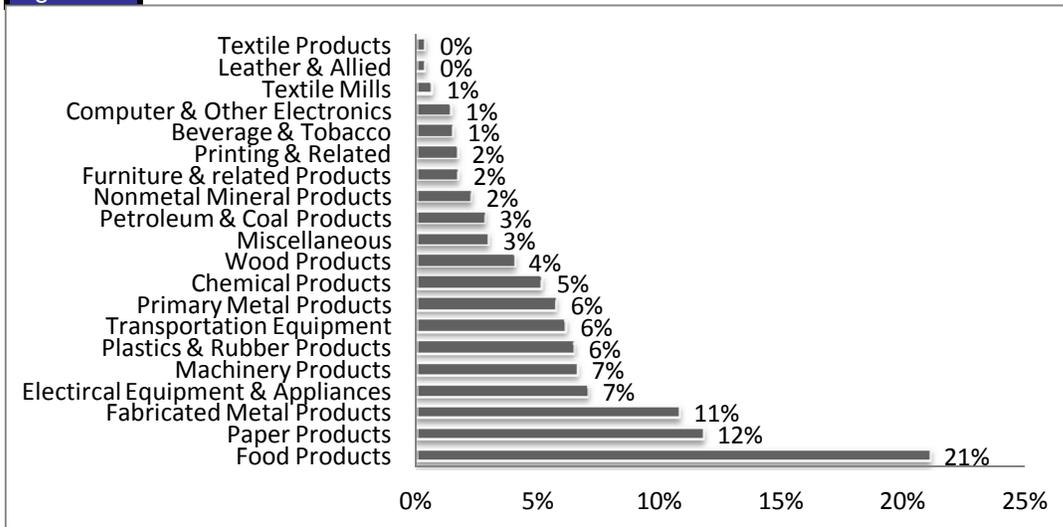

Source: Regional Economic Profiles, Bureau of Economic Analysis

Except in 2009, Yell County residents received per capita unemployment insurance benefits that were lower than the state average from 2000 to 2010.

**Value Added of Manufacturing Sectors, 2010**  
Arkansas State

**Figure 31**

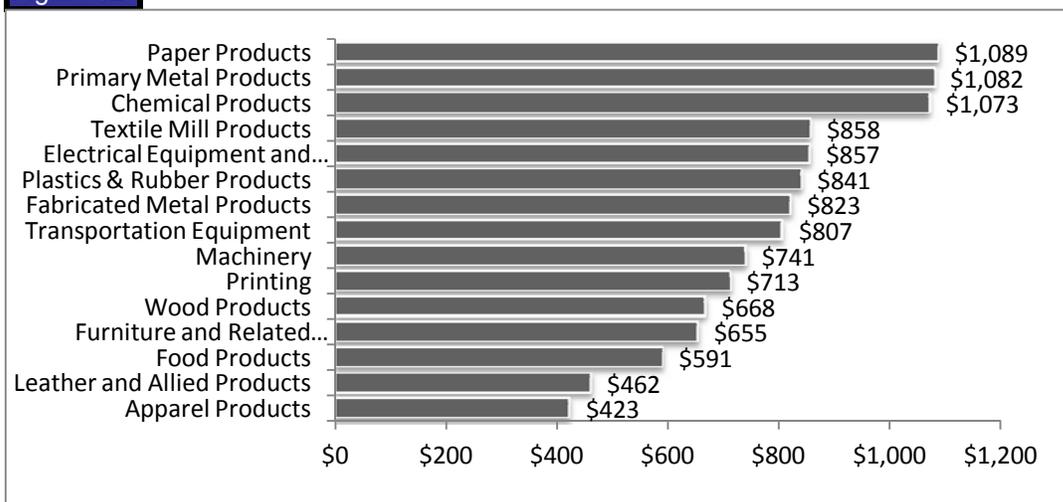

Source: Minnesota IMPLAN Group, Inc.

Most of the value added in the manufacturing sector in Arkansas came from food, paper and fabricated metal products in 2010.

**Average Weekly Earnings, 2010**  
Arkansas State

**Figure 32**

Source: Labor Market Information, Arkansas Employment Security Department

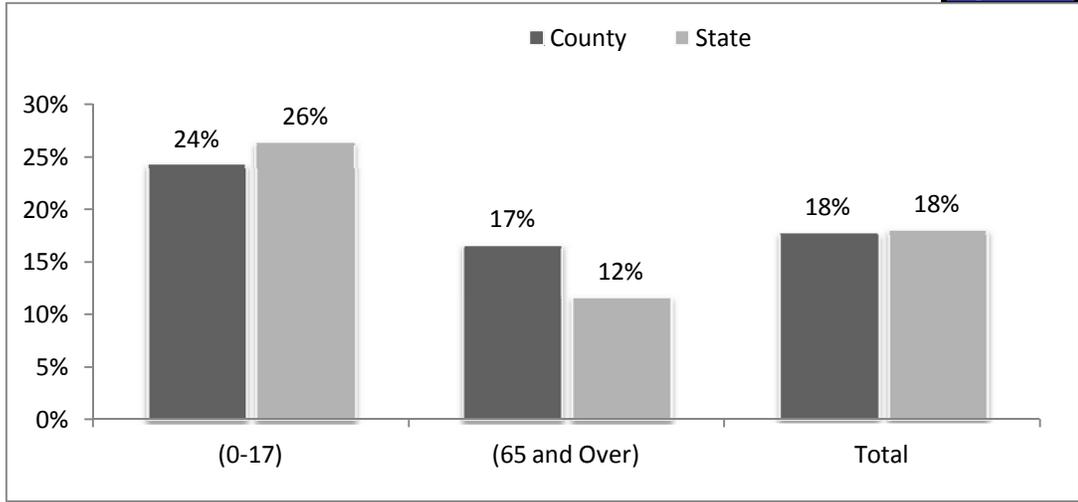

Average weekly earnings in the manufacturing sector ranged from a high of \$1,089 in the paper products industry to a low of \$423 in the apparel industry in 2010.

**Age Groups & Estimated Poverty, 2005-2009\***  
*Yell County & State*

Figure 37

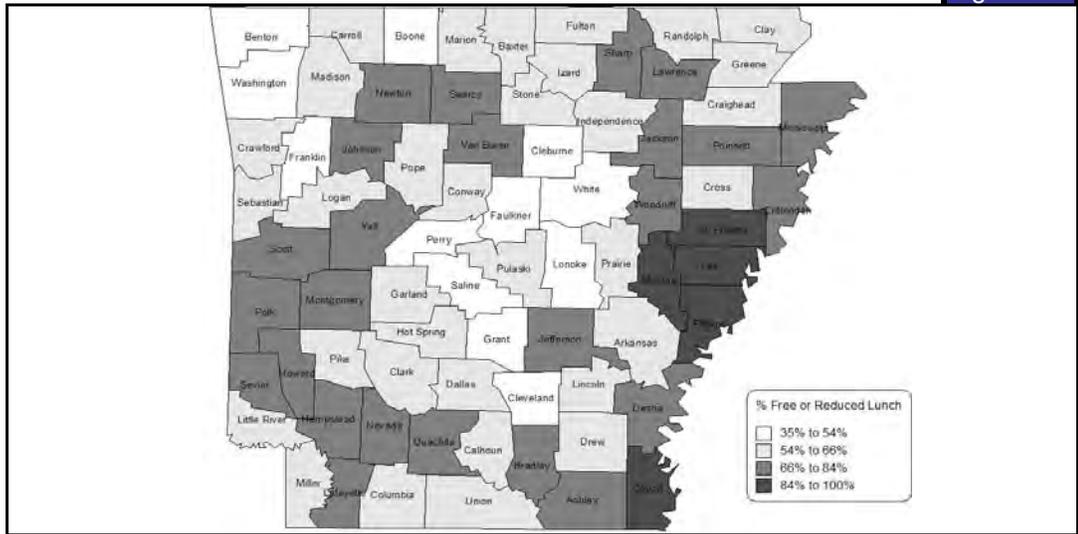

Source: U.S. Bureau of Census, American Community Survey

A larger proportion of children lived in poverty than for the population as a whole in the five-year period, 2005-2009. There was a smaller proportion of children and a larger share of elderly people living in poverty in Yell County than the state averages.

**Proportion of Students Receiving Free or Reduced Price Lunch, 2009-2010**  
*The Natural State*

Figure 38

Source: Arkansas Department of Education

There was a wide range in the proportion of students who received free and reduced price school lunches across the seventy-five counties in the 2009-2010 school year. Participation rates ranged from thirty-five percent to one-hundred percent with a higher percentage of youth in the Delta Region counties receiving free and reduced price lunches.

\*Note: The data were from the five-year sample (2005-2009) collected by the American Community Survey. Since this is sample data, the margin of error for counties with small populations may be large.

## Poverty

### Proportion of Population Participating in the Supplemented Nutrition Assistance Program, 2010

*The Natural State*

Figure 39

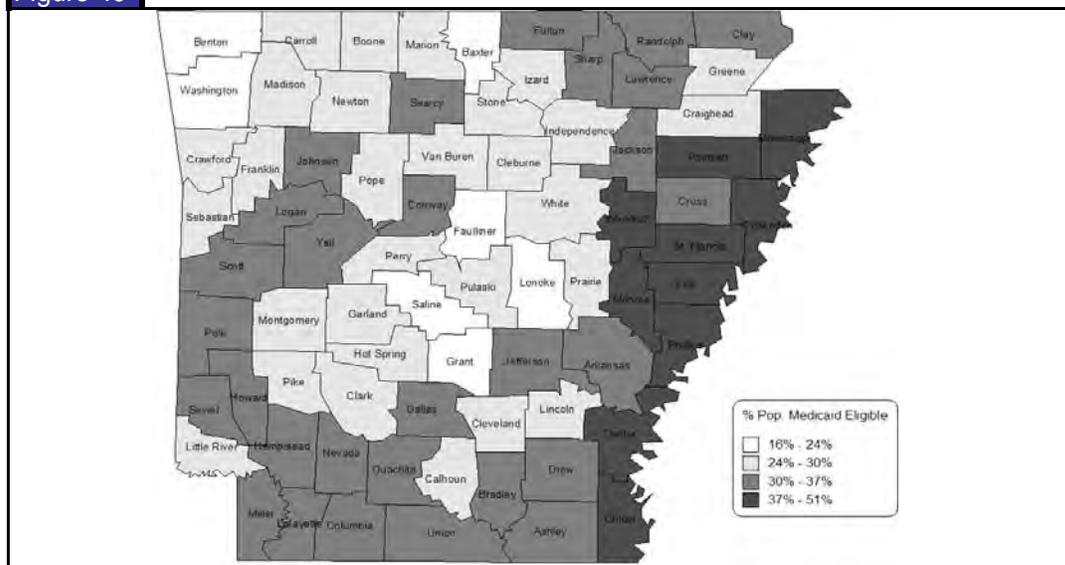

Source: 2010 Statistical Report, Arkansas Department of Human Services

A larger proportion of people living in the Delta counties and Columbia, Jefferson and Lafayette counties participated in the Supplemented Nutrition Assistance Program when compared to people in other parts of the state in 2010.

### Proportion of Population Medicaid Eligible, 2010

*The Natural State*

Figure 40

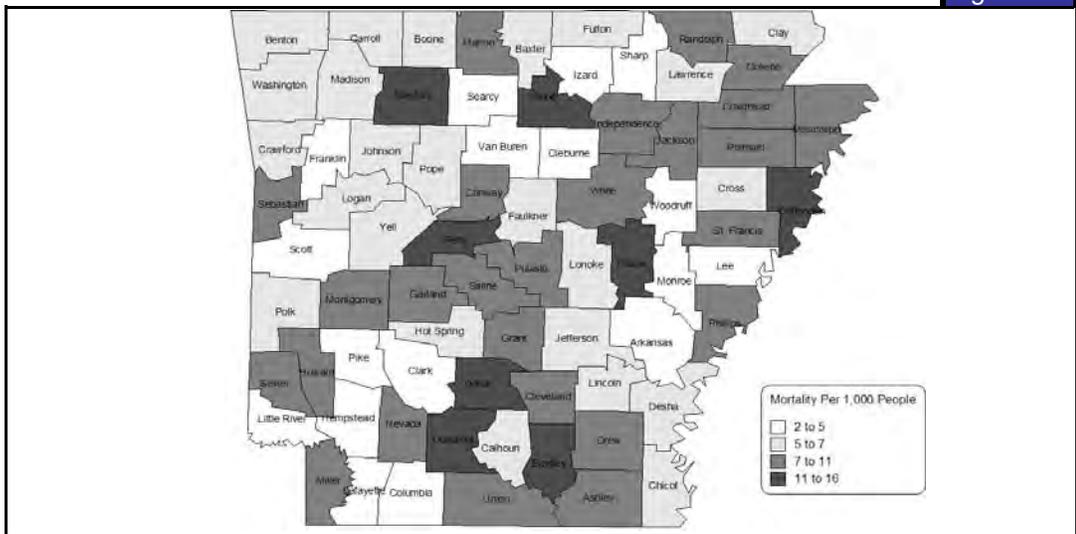

Source: 2010 Statistical Report, Arkansas Department of Human Services

A substantial percentage of the population (between 30% and 51%) was eligible for Medicaid in thirty-six counties in 2010, primarily located in the Eastern and Southern parts of the state.

**Infant Mortality Rate, 2006-2010**  
*The Natural State*

Figure 41

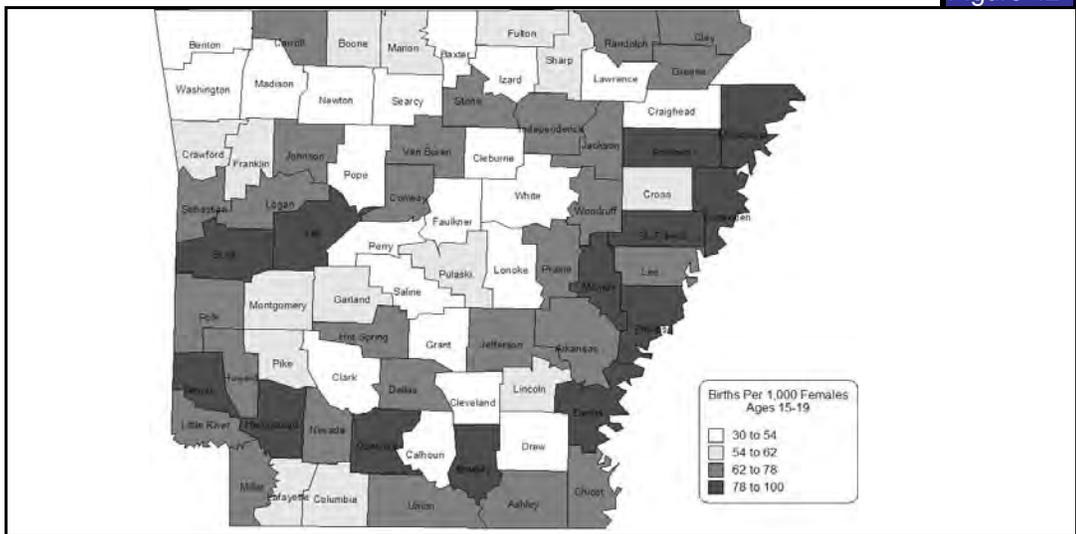

Source: Arkansas Advocates for Children & Families

The infant mortality rate was highest in the Bradley, Crittenden, Dallas, Newton, Ouachita, Perry, Prairie, and Stone counties in the five-year period from 2006 to 2010.

**Teen Fertility Rate, 2006-2010**  
*The Natural State*

Figure 42

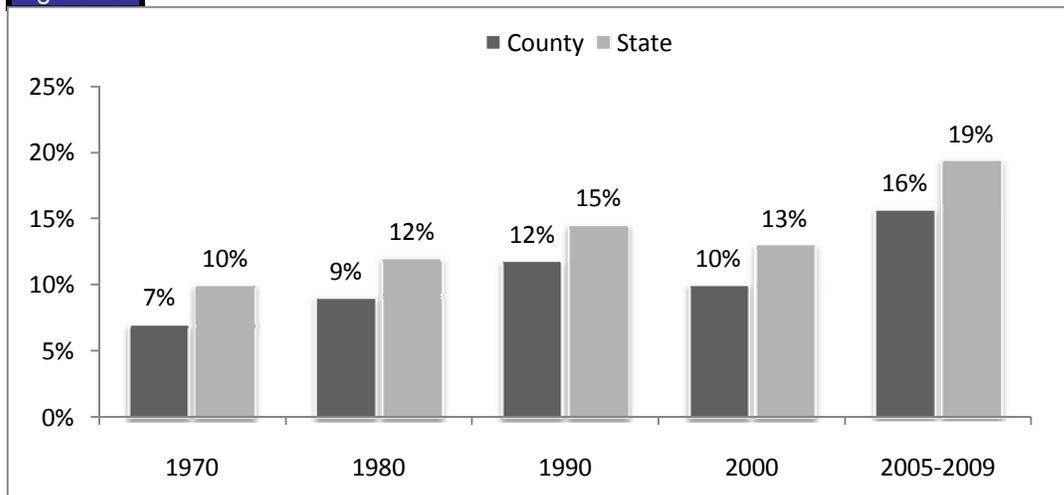

Source: Arkansas Advocates for Children & Families

The teen fertility rate varied from County to County and was highest in some Delta and Coastal Plain counties in the five-year period from 2006 to 2010. Counties with the highest teen fertility rates included Bradley, Crittenden, Desha, Hempstead, Mississippi, Monroe, Ouachita, Phillips, Poinsett, St. Francis, Scott, Sevier, and Yell counties.

**Female Headed Families, 1970, 1980, 1990, 2000 & 2005-2009\***  
*Yell County & State*

**Figure 43**

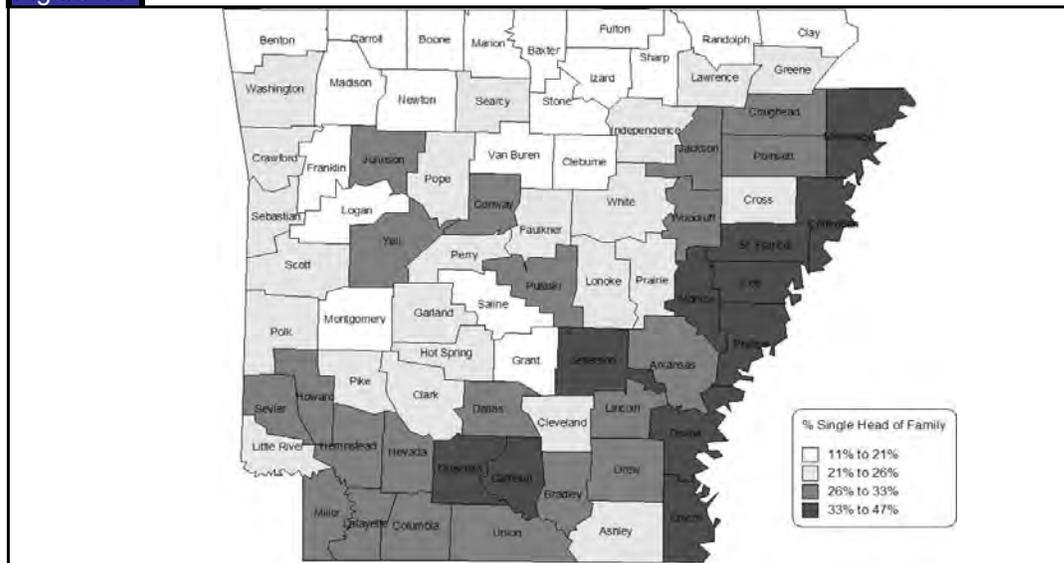

Source: 1970, 1980, 1990, 2000 Census of Population & 2010 American Community Survey, U.S. Bureau of Census

Female headed families as a proportion of total families in Yell County increased from seven percent in 1990 to sixteen percent in 2005-2009 and remained below the state average.

**Single Head of Family, 2005-2009\***  
*The Natural State*

**Figure 44**

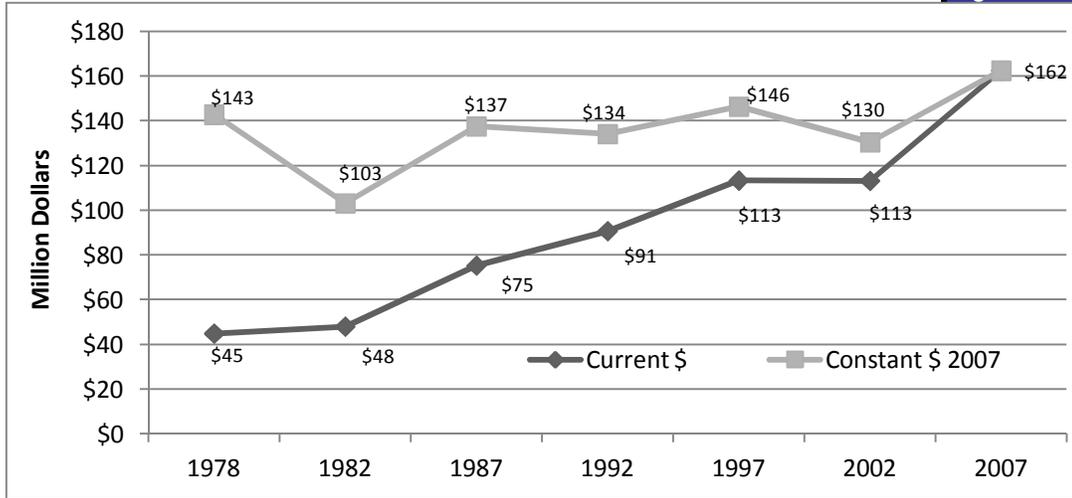

Source: American Community Survey, U.S Bureau of Census

The Delta counties and the Coastal Plains counties had the highest proportion of families with only a single parent present in 2010.

\*Note: The data were from the five-year sample (2005-2009) collected by the American Community Survey. Since this is sample data, the margin of error for counties with small populations may be large.

**Market Value of Agriculture Products Sold, 1978 to 2007**  
*Yell County*

**Figure 45**

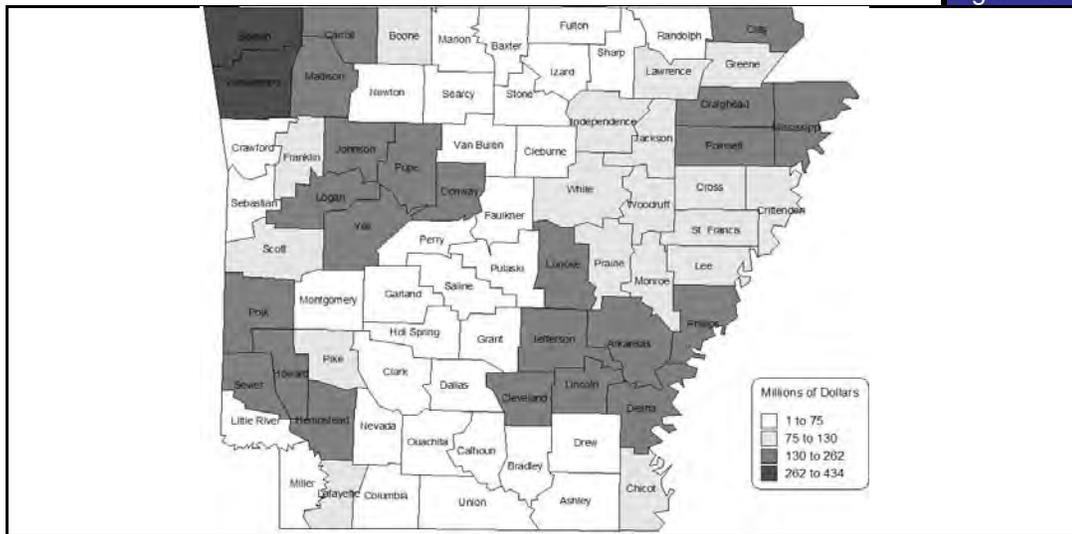

Source: 2007 Census of Agriculture, National Agricultural Statistical Service

The market value (in constant dollars) of agricultural products sold in Yell County increased from a low of \$143 million in 1978 to \$162 million in 2007.

**Market Value of Agriculture Products Sold, 2007**  
*The Natural State*

**Figure 46**

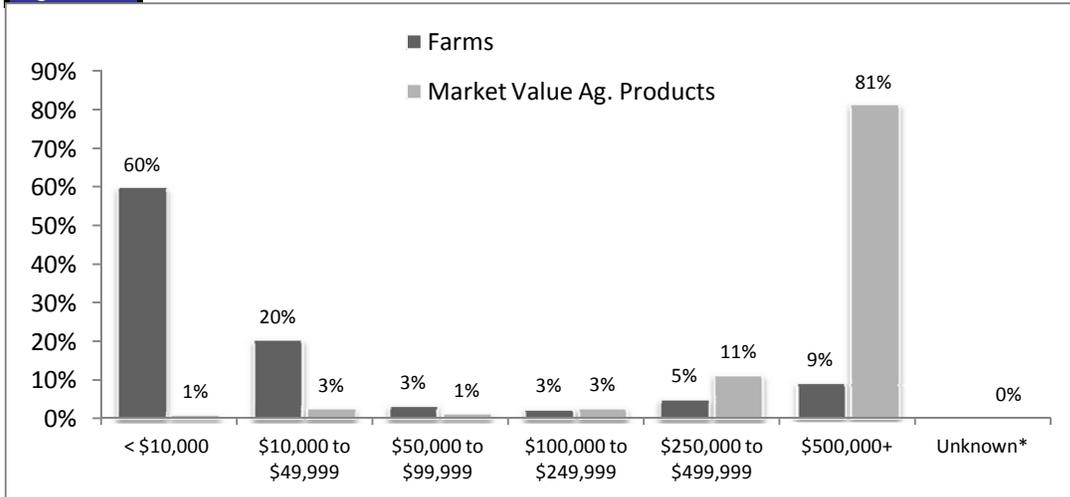

Source: 2007 Census of Agriculture, National Agricultural Statistical Service

The two counties with the highest market value of agricultural production were in Northwest Arkansas. However, many Delta and Highlands counties also ranked high in terms of the market value of agricultural production in 2007.

**Farms & Farm Sales by Size, 2007**  
Yell County

**Figure 47**

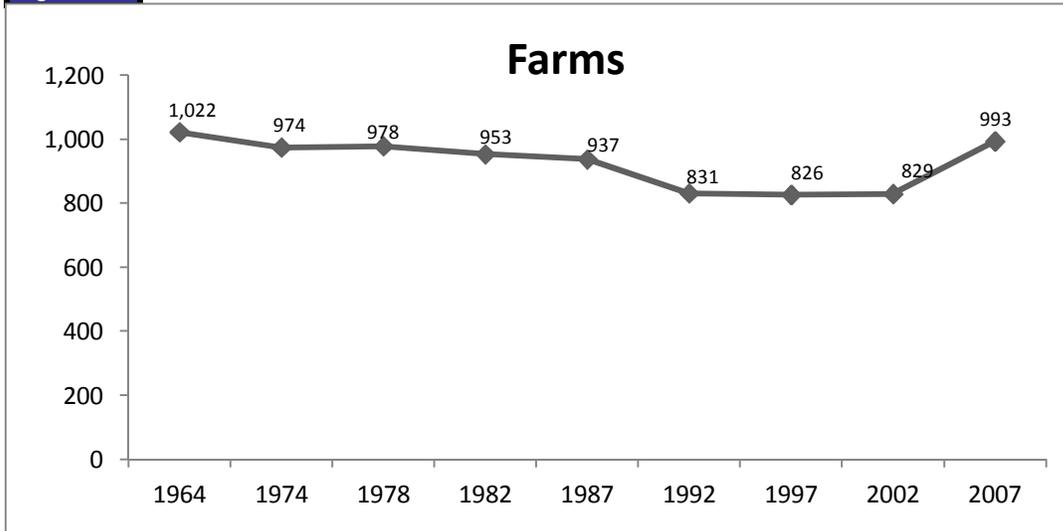

Source: 2007 Census of Agriculture, National Agricultural Statistical Service

Sixty percent of the farms in Yell County had sales of less than \$10,000 in 2007. These farms accounted for about one percent of total farm sales. Nine percent of the farms had sales of \$500,000 or more and these farms accounted for eighty-one percent of total sales.

**Number of Farms, 1964 to 2007**  
Yell County

**Figure 48**

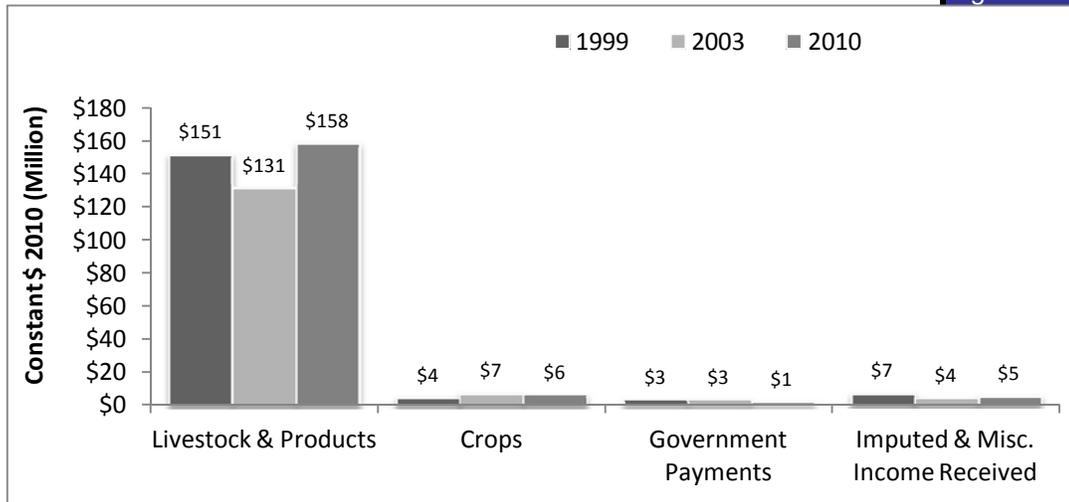

Source: 2007 Census of Agriculture, National Agricultural Statistical Service

The number of farms in Yell County declined from 1,022 in 1964 to 993 in 2007.

\*Note: Due to the lack of available data, the unknown column was added for the missing data

**Source of Farm Income, County 1999, 2003 & 2010**  
*Yell County*

**Figure 49**

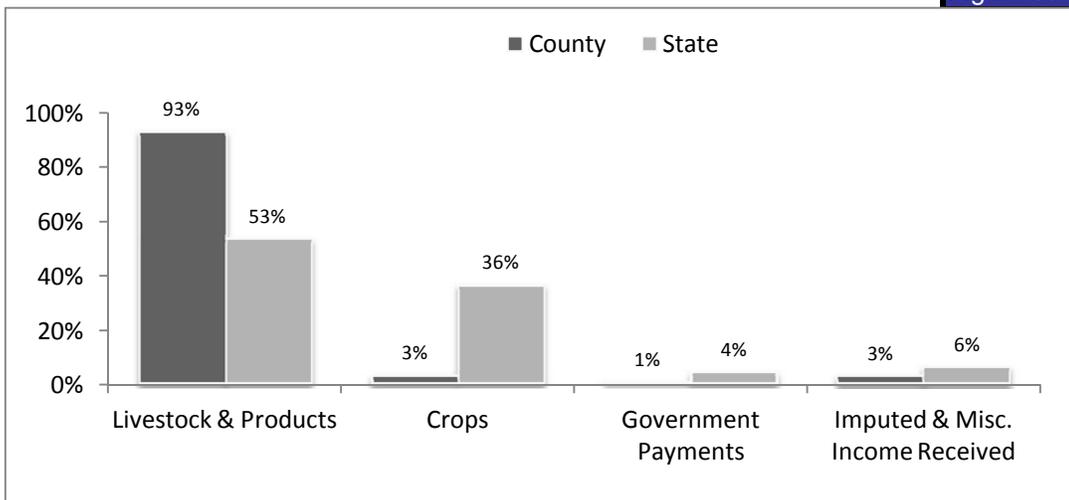

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis

Livestock & products sales were the major sources of farm income for Yell County farmers, increasing slightly from 1999 to 2010.

**Source of Farm Income, County & State 2010**  
*Yell County & State*

**Figure 50**

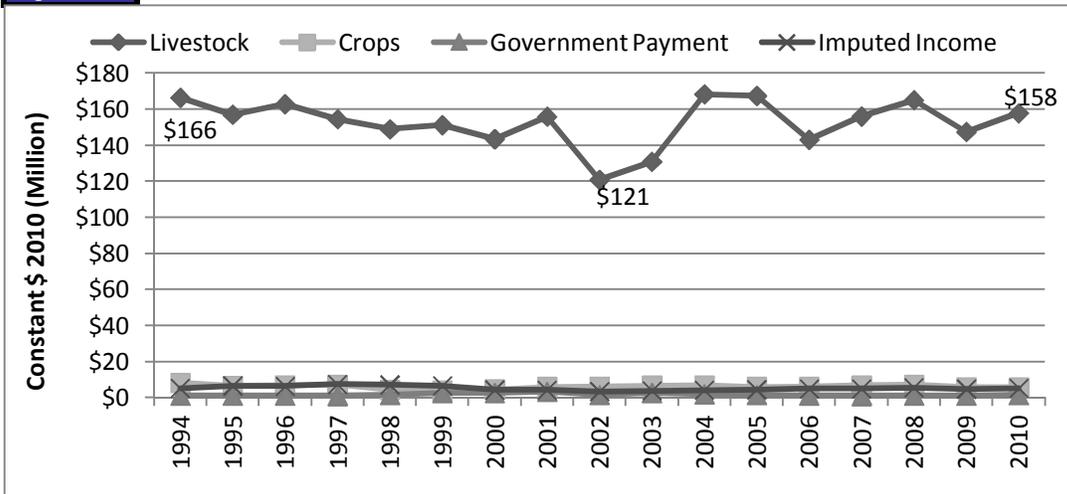

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis

Yell County farmers received a larger proportion of farm income from livestock & products as compared to all Arkansas farmers in 2010.

## Farm Income, 1994 to 2010 Yell County

Figure 51

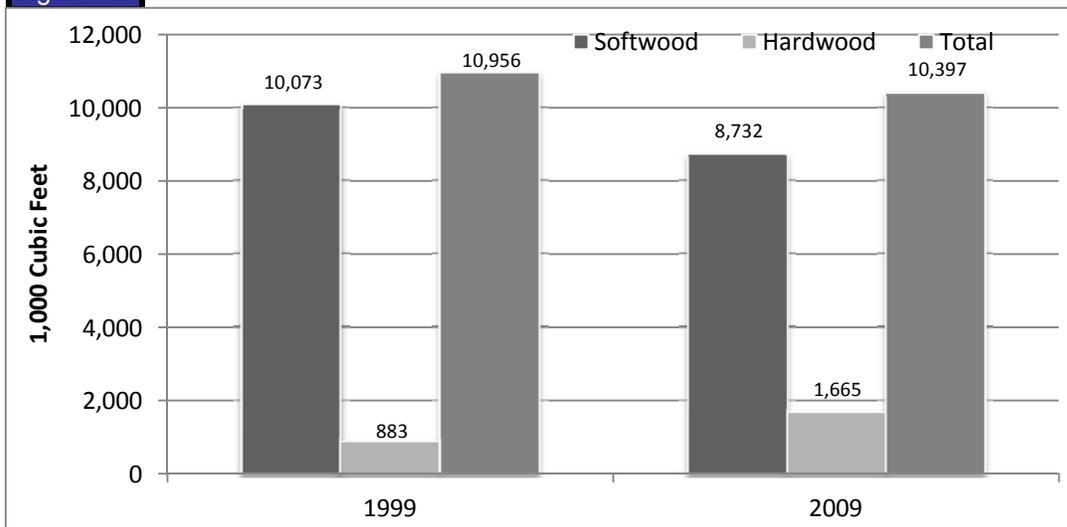

Source: Regional Economic Information System, U.S. Bureau of Economic Analysis

Farm income from livestock & products sales in Yell County declined from \$166 million in 1994 to a low of \$121 million in 2002, then increased to \$158 million in 2010.

## Timber Output, 1999 & 2009 Yell County

Figure 52

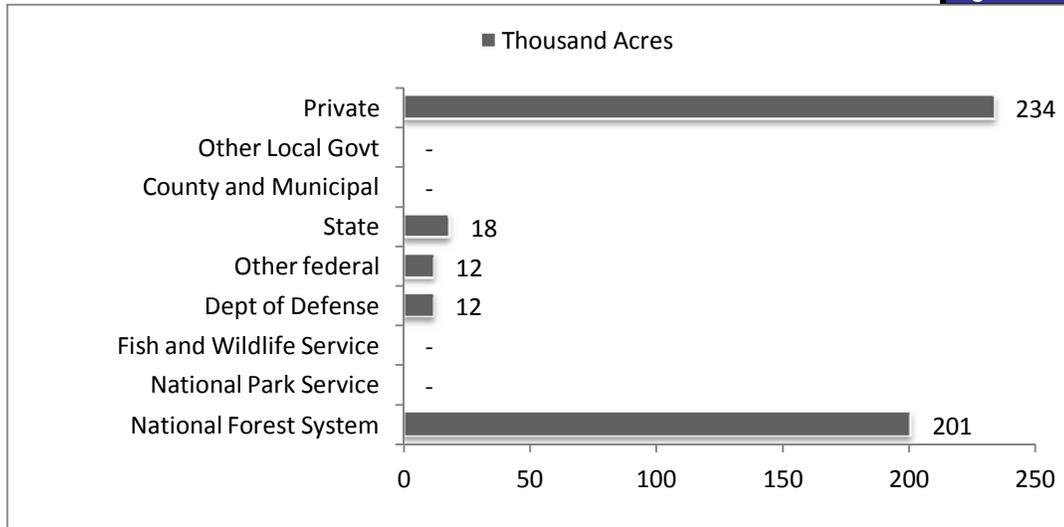

Source: U.S. Forest Service, Forest Inventory and Analysis National Program

Total Timber output in Yell County decreased slightly between 1999 and 2009. The production of softwood decreased slightly, while that of hardwood increased slightly.

**Area of Timberland by Ownership Class, 2010**  
*Yell County*

**Figure 53**

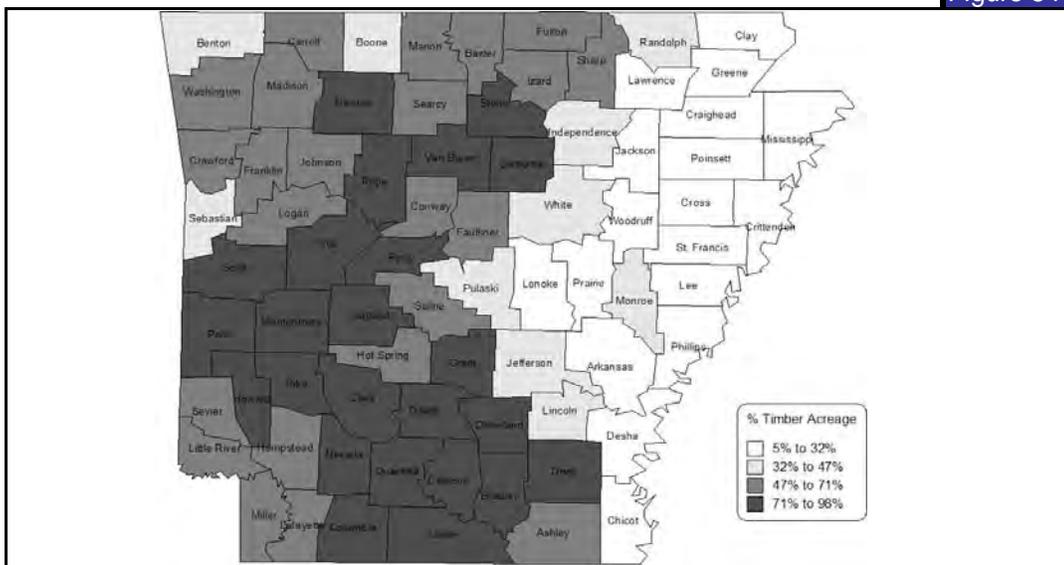

Source: Southern Forest Inventory & Analysis, Southern Research Station, U.S. Forest Service, USDA.

The total timber acreage in Yell County was 477,000 acres in 2010. Farmers/ranchers and private individuals owned a large share (about 49%) of the timberland in the county.

**Percent of Land in Forest By County, 2010**  
*Yell County*

**Figure 54**

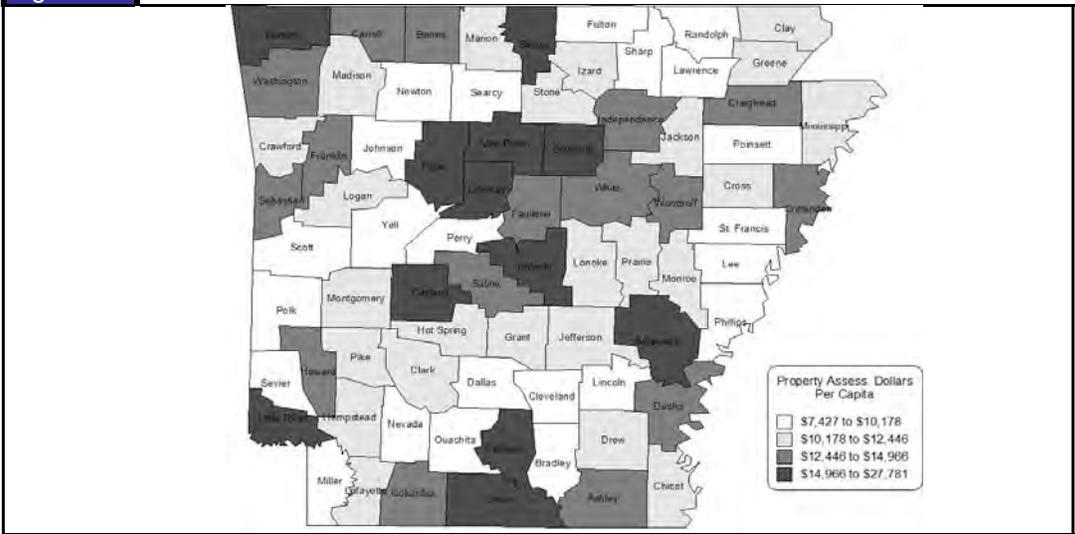

Source: Southern Forest Inventory & Analysis, Southern Research Station, U.S. Forest Service, USDA.

Over seventy-five percent of the land area in many Coastal Plain and Ouachita Highland counties qualified as timber acreage in 2010.

# Property Assessment & Roads

## Property Assessments Per Person, 2010 *The Natural State*

Figure 55

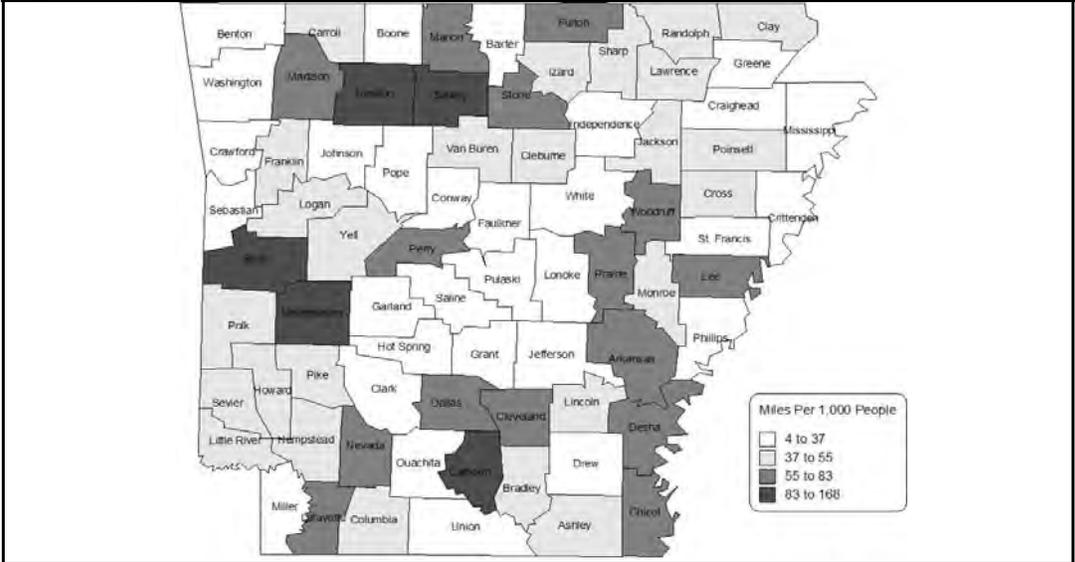

Source: Arkansas Assessment Coordination Department, Little Rock, Arkansas; 2010 Census of Population, U.S. Bureau of Census

The average property assessments per person in 2010 varied greatly among Arkansas counties, from \$7,427 to \$27,781.

## Miles of County Roads Per Person, 2010 *The Natural State*

Figure 56

Source: Road and Street Report, Arkansas State Highway Commission

In general, sparsely populated counties had more miles of County roads to maintain per person than more densely populated counties in 2010.

**AGRICULTURAL SERVICES** Includes establishments primarily engaged in performing soil preparation services, crop services, veterinary and other animal services, farm labor and management services, and landscape and horticultural services, for others on a contract or fee basis.

**CIVILIAN LABOR FORCE** The sum of all employed and unemployed persons 16 years of age or older. Members of the Armed Forces are excluded.

**"CONSTANT \$"** Figures adjusted for inflation using the Consumer Price Index, 1982-1984 = 100.

**"CURRENT \$"** Figures not adjusted for inflation.

**CONSTRUCTION** Includes general building contractors (residential, operative, and nonresidential); heavy construction contractors (highway, street, etc.); and special trade contractors (plumbing, heating, air conditioning, painting, paper hanging, electrical, masonry, stonework, roofing, sheet metal, concrete, and miscellaneous special trade contractors).

**DELIVERED VALUE OF HARVESTED TIMBER** The value of harvested timber delivered to the first processing point. The value includes the value of the timber (stumpage value), the cost of harvesting, and the cost of transporting the timber to the first processing point.

**EARNINGS** Earnings include wages and salaries, other labor income, and proprietors' income by place of work.

**EMPLOYMENT** An estimate of the number of persons, on a place-of-residence basis, who worked anytime for pay or profit or worked 15 hours or more as an unpaid family worker during the week of reference (the week including the 12th of the month). Also included are those who, although not working, had some job attachment and were not looking for work, and persons involved in labor-management disputes.

**FAMILY HOUSEHOLDS** Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family which is further classified into "male householder" (a family with a male householder and no wife present) or "female householder" (a family with a female householder and no husband present).

**FARMING** Includes businesses whose primary source of revenue is from crop and livestock production.

**FEMALE HEADED FAMILIES** A family with a female householder and no husband present.

**FINANCIAL SERVICES** Financial, insurance, and real estate services.

**GOVERNMENT** Employees of city, county, state and federal governments.

**IMPUTED & MISC. INCOME RECEIVED** Consists of imputed income, such as gross rental value of dwellings and value of home consumption, and other farm related income components, such as machine hire and custom work income, rental income, and income from forest products.

**INCOME** Total income is the algebraic sum of the amount reported separately for wage or salary income; non-farm net self-employment income; farm net self-employment income; interest, dividend, net royalty or rental income; social security or railroad retirement income; public assistance or welfare income and all other income.

**INFANT MORTALITY RATE** The number of infant deaths (under one year of age) per 1,000 live births.

**JOBS** The number of full-time and part-time jobs in a geographic area.

**MANUFACTURING** Includes manufacturing industries dealing with food and kindred products; textile mill products; apparel products; lumber and wood products; furniture and fixtures; paper and allied products; printing and publishing; chemicals; petroleum and coal; rubber and miscellaneous plastics; leather; stone, clay and glass; primary metal industries; fabricated metal products; machinery; electrical and electronic equipment; transportation equipment; instruments; and miscellaneous industries.

## Glossary

**MARKET VALUE OF AGRICULTURAL PRODUCTS SOLD** The gross market value before taxes and production expenses of all agricultural products sold or removed from place regardless of who received payment. It includes sales by the operator as well as the value of any shares received by partners, landlords, contractors, or others associated with the operation. It does not include payment received for participation in federal farm programs nor does it include income from farm-related sources such as agricultural services, or income from non-farm sources.

**MINING** Includes extraction of oil and gas, non-metallic minerals, sand and gravel.

**NET DOMESTIC MIGRATION** The difference between domestic in-migration to an area and domestic out-migration from the area during the period.

**PER CAPITA INCOME** The per capita income is the total personal income divided by the total population of the area studied. The per capita income measure should be used with care. In the short run, it may temporarily vary from the result of unusual conditions (bumper crops, a major construction project or a catastrophe). In the long run, it may misrepresent the economic well-being of the general population because of the presence of a large institutional population (college, prison). While per capita income reflects average income per person, it does not accurately reflect family unit spendable income.

**PERSONAL INCOME** The total income received by residents of an area, including earnings, transfer payments, and interest, dividends and rent.

**POVERTY LEVEL** An individual or household is considered to be living below the poverty level when their income is below an income threshold established by the Bureau of Census. The income cutoffs used by the Bureau of Census to determine the poverty status of families and unrelated individuals consist of a set of 48 thresholds arranged in a two-dimensional matrix consisting of family size cross-classified by presence and number of family members under 18 years old.

**RETAIL SALES** Includes sales from general merchandise stores; department stores; variety stores; food, bakery and dairy stores; automotive dealers; gasoline stations; eating and drinking establishments; and other retail trade establishments.

**SINGLE HEAD OF FAMILY** Single head of a family with no spouse present.

**SERVICES** Includes a variety of items ranging from hotels to attorneys. Included in this category are hotels and other lodging places; personal services (laundry, photographic studios, beauty shops, shoe repair, funeral services); business services (advertising, mailing, news syndicates, personnel supply services, computer services); auto repair services and garages (retail, parking, repair); miscellaneous repair services (electrical, etc.); amusement and recreation services (orchestra, dance halls, etc.); health services (physicians, dentists, nursing care facilities, hospitals, medical labs, outpatient care); legal services; educational services; social services (job training, individual and family services, day care); membership organizations (business, professional, labor, civic, social, etc.); engineering and architectural services; and other similar services.

**STUMPAGE VALUE OF HARVESTED TIMBER** The value of timber harvested going to the landowner.

**TEEN FERTILITY RATE** is the birth rate for women 15 to 19 years of age. It is the number of live births per 1000 women 15-19 years of age.

**TRADE** Includes wholesale and retail trade.

**TRANSPORTATION** Includes railroads; trucking service and warehousing; other transportation services (bus, air, and U.S. postal service); communication systems (radio, T.V., etc.); and utilities and sanitary services.

**UNEMPLOYMENT** An estimate of the number of persons who, for the entire week of reference (the week including the 12th of the month), did not work at all, were able to work, and available for work, and (1) were looking for work, or (2) would have looked for work except that (a) they were waiting to return to a job from which they had been laid off, or (b) they were waiting to report to a new job.

**UNEMPLOYMENT RATE** The number of unemployed workers as a percentage of the civilian labor force.
