One Million  
New Scientists.  
One Million  
New Ideas.™

It was a 4-H experiment in hydroponics that sparked the imagination of a young boy, that became a passion for science, that created breakthroughs in genomics and increased grain production to feed millions of hungry people.

Companies and universities around the country are embracing the 4-H commitment of fostering one million young scientists and engineers over the next five years. With their help, 4-H is growing the next generation of great thinkers.

To learn more about America's largest youth development organization, visit [www.4-H.org](http://www.4-H.org).

4-H is the youth development program of our nation's Cooperative Extension System.

## What is 4-H?

4-H is a fun and educational program where kids "learn by doing." It is a great opportunity for youth to acquire knowledge and skill, and develop healthy lifestyles they can use the rest of their lives. In Arkansas, it takes the form of community clubs, project groups, in-school and afterschool programs. 4-H is part of the University of Arkansas Division of Agriculture and reaches more than 134,000 youth.

## Who Can Join?

All meetings and activities are open to all youth between the ages of 5 and 19 without regard to race, color, national origin, religion, gender, disability, or any other legally protected status. Persons with disabilities who require alternative means for communication of program information (large print, audiotapes, etc.) should notify the county Extension office (or other appropriate office) as soon as possible prior to the activity.

# 4-H

## Share Your Interests.

We want your expertise! 4-H project areas are varied and diverse. Some of the exciting programs 4-H kids are experiencing first hand include:

- Robotics
- Livestock & poultry
- Gardening
- Leadership
- Shooting sports
- Food & nutrition
- Public speaking
- Photography
- Community service
- Health
- Citizenship
- And so much more

## Join With Your Kids.

Spend time with your family as they learn skills for life, help others in their community and travel to new places. Oh, and sometimes they even make new friends and have fun along the way!
