Earn supplemental income from your land

We help landowners learn about generating supplemental income from their property. Whether you have considered an outdoor business or already have a business that you wish to expand, the information at this workshop will help you.

Talk directly to experts and business owners

Afternoon presentations will allow you to ask questions and talk to legal experts, wildlife habitat specialists, local outdoor business owners, accountants, marketing specialists, and more.

Get in-the-field habitat management training

The morning field session will provide an opportunity for hands-on training about wildlife habitat management as experts provide tips and show you examples. You will have the opportunity to ask questions throughout the tour.

Learn about different outdoor businesses

Not sure what business might be right for you? We’ll talk about the various types of outdoor businesses, including the pros and cons and income potential of each. Examples include outdoor recreation businesses such as hunting leases and agritourism and diversifying your business.

Need more information?

Visit the Natural Resource Enterprises program website at www.naturalresources.msstate.edu for information about what we do, how to start a business, how to operate a business, how to grow a business, and more.

Presentations are held indoors and in the field.

• Tour of Stan Jones Mallard Lodge
